**anatomy of murders podcast host:** *Anatomy of a Cover-Up* Paul Palango, 2025-06-10  
NATIONAL BESTSELLER FOLLOW-UP TO THE #1 NATIONAL BESTSELLER 22 MURDERS The truth about the deadliest criminal incident in Canadian history has remained untold—until now. Investigative journalist Paul Palango's 22 Murders examined the April 2020 shooting spree committed by Gabriel Wortman that began in Portapique, Nova Scotia, and ended thirteen and a half hours later when Wortman was shot dead by RCMP officers. The episode left numerous serious questions in its wake—most especially why was the killer able to evade police in such limited geography for so long? Since then, the government called a public inquiry into the massacres—the

Mass Casualty Commission. Though Palango unearthed a treasure trove of evidence pointing to the possibility that Wortman or someone close to him was acting as a police agent, the commission evaded all the big questions and let the RCMP off with a slap on the wrist. To this day, no one has been held accountable. In this new book, Palango continues to crack the case, delving deeper into the evidence and testimonies of the witnesses who have been ignored. Drawing on his vast experience as an investigative reporter, he has mined the thousands of pages of commission documents to reveal the wall of secrecy and deceptions constructed by the RCMP and the criminal justice system, exposing new facts that may alter the public's perception of what really happened. A tour-de-force of reportage, *Anatomy of a Cover-Up* accomplishes what the commission set out to do—uncover the truth about the Nova Scotia massacres and bring long overdue justice to its victims.

**anatomy of murders podcast host: They Killed Freddie Gray** Justine Barron, 2023-08-15 Based on new evidence and deep reporting, the riveting truth about a case that has become a touchstone in the struggle for racial justice and Black lives. *They Killed Freddie Gray* exposes a conspiracy among Baltimore leaders to cover up what actually happened to Freddie Gray, who was fatally injured in police custody in April 2015. After Gray's death, Baltimore became ground zero for Black Lives Matter and racial justice protests that exploded across the country. State's Attorney Marilyn Mosby became a hero when she charged six officers in Gray's death, and the trials of the officers generated national headlines for two years. Yet the cause of Gray's death has remained a mystery. A viral video showed an officer leaning on Gray's back while he cried out in pain. But the autopsy concluded he was fatally injured later that morning while the van was in motion—during a multi-stop “rough ride”—from sudden impact to his head. None of the officers were convicted of any crimes based on this theory. *They Killed Freddie Gray* solves the mystery of Gray's death by uncovering new evidence of how he was killed by police and how his cause of death was covered up. In coordination with a documentary film now being produced, this book revisits a pivotal moment in US criminal justice history, providing new insight into what happened, the historical structures of power that allowed it to happen, and the personalities and dynamics involved—a story never told by the mainstream media. It includes a detailed map with annotations by the author, photographs, and a foreword by Rabia Chaudry.

**anatomy of murders podcast host: *Anatomy Of A Murder Scrapbook*** Stacey Willey, 2019-09-18 Anatomy of a Murder was released in its film version in summer 1959. The movie starred James Stewart and Lee Remick and a cast that included then relatively unknown actors George C. Scott, Ben Gazzara and Orson Bean. The film was based on the 1958 best-selling book of the same title by Robert Traver. Traver was the pen name used by John D. Voelker, an Ishpeming lawyer, local author and Michigan Supreme Court jurist. The movie was directed and produced by Otto Preminger. The plot involves Stewart's attorney character, Paul Biegler, defending Lieutenant Frederick Manion (Gazzara) who is charged with the killing of bartender Barney Quill. Biegler argues that his client killed the bartender after an irresistible impulse overtook him when he heard that Quill had raped his wife (Remick). Prosecuting the case for the state is Claude Dancer (Scott) who claims that Manion jealously killed Quill after discovering that the bartender and the lieutenant's wife were having an affair. The ensuing courtroom battle focuses on whether Manion could be acquitted by reason of temporary insanity. The movie stars and film crews working on Anatomy came to Marquette County in late winter 1959. What they found, besides a chilling Upper Peninsula winter, were friendly townspeople enthusiastically willing to help make the movie a success. Jimmy Star, motion picture editor of the now defunct Los Angeles Herald and Express newspaper commented on the cooperation the filmmakers received locally after visiting the set during the last clays of filming. Preminger has invaded this small town and everybody jumped in to help him get the local spirit on the screen, Star said. They've turned over hotels, the courthouse, restaurants and trailer courts to him. I've been on a lot of locations, both here and in Europe, and I've never seen such wonderful help. This scrapbook recounts the memorable weeks of on location filming for Anatomy of a Murder through newspaper articles, personal recollections, photographs and other items, producing an enduring snapshot for posterity of those unforgettable days when the stars fell on Marquette County. This scrapbook was originally printed in 1999 in a larger format of 11 x 14. 20 years later and we are still finding people wanting to explore the Anatomy phenomenon. Reprinted in this smaller format in 2019 commemorating the 60th anniversary.
