ba club world business class: Tales from the Marketplace Nigel F. Piercy, 2012-10-02
'Tales from the Marketplace: Stories of Revolution, Reinvention and Renewal' is a highly innovative approach to building an understanding of the realities of market-led strategic change in companies. It provides an engaging, honest, and effective understanding of real market strategy in major organizations by focussing on the forces behind value-driven strategy. Nigel Piercy provides new and incisive insights into strategy and marketing through business stories that are contemporary and provocative. These new stories depict how major organizations have experienced revolution in their traditional markets - created by new types of competitors with new business models. The search for superior value is overtaking traditional brand and relationship strategies. The challenge to companies is reinvention and renewal and the alternative is obsolescence and decline. After all, did the major banks really expect to be competing with supermarkets, car companies, Virgin and internet-based companies to provide retail bank services? The book is based on the author's view that: · Business is exciting, turbulent and unpredictable - the stories we read and study should be too! · From Dell Computers and easyJet to Amazon.com and Skoda Cars, it is the most innovative companies that have most to teach us about reinvention and new business models · The inflexible analytical frameworks of the past no longer apply - stories of reinvention and renewal show the creative strategies developed by companies to cope with threats and exploit opportunities around them. 'Tales from the Marketplace' is essential, timely and designed to be highly readable for managers. It also provides an innovative approach for undergraduate and MBA level teachers and students, and for participants on executive programmes in marketing and strategic management.

ba club world business class: Understanding Complexity in Organizations Timothy Ludwig, Ramona Housmanfar, 2015-02-11 Organizations are complex entities that must adapt the practices of their employees and management to meet the demands of a dynamic environment. Organizations are behavioral systems that coordinate interactions among its members and environment. Changing practices in one area of an organization can generate a reaction throughout the entire system, thus affecting the behaviors of those working within other areas, the experience of customers, and important organizational results. Behavioral Systems Analysis (BSA) focuses on these complex contingencies from the macro system all the way down to individual behavior. This book contains articles by internationally recognized experts in Behavioral Systems Analysis who discuss the role of organizational practices in their study of performance improvement and cultural change from both practical and conceptual perspectives. Business and non-profit managers will find tools and case studies to help understand and diagnose their organization's dynamics. Scholars will appreciate articles' theory and real-world descriptions when considering their own research direction. Finally,

all students of management theory, behavior analysis, and human resources will find this collection a thought-provoking tool for their understanding of behavioral systems and their application in organizations. This book was published as a special issue in the Journal of Organizational Behavior Management.

ba club world business class: *The Secrets of Big Business Innovation* Daniel Taylor, 2015-05-12 Great companies thrive on innovation, but the day-to-day operations of corporate giants are designed to optimise the core business, drive efficiency and avoid risk. Yet these goals are the very opposite of the focus of innovation! In every big business, there are corporate entrepreneurs tasked with delivering innovation projects within this context. How can they overcome the challenges and drive successful innovation in their organisation? In this insider's guide, Dan Taylor has unique first-hand access to some of the world's most experienced and successful corporate entrepreneurs – from companies including Amazon, Barclays, British Airways, MasterCard, Philips, Procter & Gamble, Shell, Sky News, Tesco and Virgin. In more than 100 case study examples, these experts reveal the secrets that are the difference between success and failure in big business innovation. The expert accounts are presented within a framework that follows the lifecycle of an innovation project – establishing an innovation programme, delivering innovation projects and finally sustaining innovation into the future. Throughout, the focus is on key insights that will help innovators to avoid the obstacles and pitfalls that often occur in innovation projects. Important areas covered include: -- Purpose and goals -- Governance and leadership -- People, skills and culture -- Opportunity identification and selection -- Idea evolution and development -- Achieving scale -- Portfolio management This go-to guide is essential reading for anyone who wants to learn from the world's best and become a successful corporate innovator!

ba club world business class: *Consumer Behavior Analysis* Donald A. Hantula, Victoria K. Wells, 2014-01-21 Consumption is the primary economic activity in our post-industrial society. We are consumers, not producers. Consumer behavior analysis is leading heterodox marketing scholarship and innovative applied behavioral work, with much to offer both constituencies. This volume shows how consumer behavior analysis fits within a larger-scale approach to marketing, consumer psychology, behavior analysis and organizational behavior management. Describing both theoretical analyses and empirical studies including laboratory experiments in e-commerce, in-store experiments in grocery shopping, and an analysis of the counterfeit goods market, this book is a working example of translational research. It contains tools and studies to help understand contemporary consumer behavior, particularly for those in marketing. Scholars will appreciate the theory and real-world applications evident in each chapter when considering their own research direction. All students of marketing theory, behavior analysis and consumer choice will find this collection a thought-provoking tool for further understanding of a new behavioral approach to marketing strategy, consumer decisions and marketing firms. This book comprises articles originally published in the Journal of Organizational Behavior Management.
