best state for doing business: *Man, State and Deity* Victor Ehrenberg, 2011-08-24 First published in 1974, this book is a collection of nine essays written by Victor Ehrenberg between 1925 and 1967, five of which had not been published before. They deal with a number of aspects of Greek and Roman history, and with the nature of ancient history in the East and West. The first essay is a broad survey of interactions between opposing forces and ideas in the world as seen from the most ancient Near Eastern civilizations to the beginning of the western Middle Ages and the era of Byzantium; this is followed by discussions of topics from Classical and Hellenistic Greece and Republican and Imperial Rome, with the accent on the history of ideas and institutions -freedom, the Greek city-state, and Roman concepts of state and empire. The final chapter consists of personal reflections on the meaning of history from the writer's own characteristic viewpoint, and is, as he admits, more in the way of a confession than pure scholarship.

best state for doing business: **Russia's Geoeconomic Strategy for a Greater Eurasia** Glenn Diesen, 2017-07-06 Moscow has progressively replaced geopolitics with geoeconomics as power is recognised to derive from the state's ability to establish a privileged position in strategic markets and transportation corridors. The objective is to bridge the vast Eurasian continent to

reposition Russia from the periphery of Europe and Asia to the centre of a new constellation. Moscow's 'Greater Europe' ambition of the previous decades produced a failed Western-centric foreign policy culminating in excessive dependence on the West. Instead of constructing Gorbachev's 'Common European Home', the 'leaning-to-one-side' approach deprived Russia of the market value and leverage needed to negotiate a more favourable and inclusive Europe. Eurasian integration offers Russia the opportunity to address this 'overreliance' on the West by using the Russia's position as a Eurasian state to advance its influence in Europe. Offering an account steeped in Russian economic statecraft and power politics, this book offers a rare glimpse into the dominant narratives of Russian strategic culture. It explains how the country's outlook adjusts to the ongoing realignment towards Asia while engaging in a parallel assessment of Russia's interactions with other significant actors. The author offers discussion both on Russian responses and adaptations to the current power transition and the ways in which the economic initiatives promoted by Moscow in its project for a 'Greater Eurasia' reflect the entrepreneurial foreign policy strategy of the country.
