**black owned business oakland: Black Skinhead** Brandi Collins-Dexter, 2022-09-20 A provocative exploration of Black America's growing disillusionment with the Democratic party and the fragile alliance between Black voters and political identity. A New York Times Editors' Choice Pick One of Kirkus Reviews' Best Nonfiction Books of 2022 Political activist Collins-Dexter's essay collection is timely as well as pointed. In it, she argues that Democrats have taken Black voters for granted, and that the consequences of this mistake have already begun — and will accelerate. —The New York Times, 15 Works of Nonfiction to Read This Fall In *Black Skinhead*, Brandi Collins-Dexter, former Senior Campaign Director for Color Of Change, delves into the complex relationship between Black voters and the Democratic party. Through sharp, timely essays that span the political, cultural, and personal, Collins-Dexter reveals decades of simmering disaffection in Black America, told as much through voter statistics as it is through music, film, sports, and the baffling mind of Kanye West. While *Black Skinhead* is an outward look at Black votership and electoral politics, it is also a funny, deeply personal, and introspective look at Black culture and identity, ultimately revealing a Black America that has become deeply disillusioned with the failed promises of its country.

**black owned business oakland: Detroit after Bankruptcy** Joe Darden, 2023-07-31 Detroit is the first city of its size to become bankrupt and some policy makers have argued that, since then, it has entered a 'new beginning'. This book critically examines the evidence for and against this claim. Joe T. Darden analyzes whether Detroit's patterns of race and class neighborhood inequality have persisted or whether investments have led to improvements in academic achievement, homeownership, employment, and reductions in poverty and violent crime. He measures, quantitatively, the benefits and disadvantages of staying in urban Detroit or moving to the suburbs, and provides evidence to answer whether Detroit, after bankruptcy, is becoming an inclusive city.

**black owned business oakland: Black Revolutionaries** Joe Street, 2024-11 Black Revolutionaries is an accessible yet rigorously argued history of the Black Panther Party (BPP), one of the emblematic organizations of the 1960s. Joe Street highlights the complexity of the BPP's history through three key themes: the BPP's intellectual history, its political and social activism, and the persecution its members endured. Together, these themes confirm the BPP's importance in understanding Black America's response to white oppression in the 1960s and 1970s. Based on a wealth of archival material, Black Revolutionaries reveals the enduring importance of leftist political philosophy to 1960s and 1970s radicalism, and how the BPP helps us to understand more deeply the role of public space and public protest in the 1960s. Street shows how the BPP were key to the transformation of political activism in the post-civil rights era. As the BPP faced the psychological and organizational impacts of FBI surveillance, police repression, and imprisonment, Street examines how these negative forces helped to shape and destroy the BPP. Most significantly, Black Revolutionaries demonstrates that an understanding of African American grassroots politics and protest, racial injustice, and police brutality in the post-civil rights era is only comprehensible through engagement with the BPP's history.

**black owned business oakland: A People's Guide to the San Francisco Bay Area** Rachel Brahinsky, Alexander Tarr, 2020-10-06 An alternative history and geography of the Bay Area that highlights sites of oppression, resistance, and transformation. "Lavishly produced, with beautiful images and crystal clear prose, A People's Guide to the San Francisco Bay Area is for readers and activists who have taken part in protests and demonstrations for decades, and from Berkeley and Oakland to San Francisco, Sonoma and beyond."—CounterPunch A People's Guide to the San Francisco Bay Area looks beyond the mythologized image of San Francisco to the places where collective struggle has built the region. Countering romanticized commercial narratives about the Bay Area, geographers Rachel Brahinsky and Alexander Tarr highlight the cultural and economic landscape of indigenous resistance to colonial rule, radical interracial and cross-class organizing against housing discrimination and police violence, young people demanding economically and ecologically sustainable futures, and the often-unrecognized labor of farmworkers and everyday people. The book asks who had—and who has—the power to shape the geography of one of the most watched regions in the world. As Silicon Valley's wealth dramatically transforms the look and feel of every corner of the region, like bankers' wealth did in the past, what do we need to remember about the people and places that have made the Bay Area, with its rich political legacies? A useful companion for travelers, educators, or longtime residents, this guide: Features over 100 must-visit sites to explore and learn from. Demonstrates how to read the landscape for historical clues. Connects multicultural streets, lush hills, suburban cul-de-sacs, and wetlands across the Bay Area. Covers a wide range of locations, from the North Bay to the South Bay, East Bay, and San Francisco. Includes original maps to guide readers through the region. Offers thematic tours—such as The Intertribal Bay and The Youth in Revolt tours—as starting points for creating personalized routes.

**black owned business oakland: Abiding Courage** Gretchen Lemke-Santangelo, 2000-11-09 Between 1940 and 1945, thousands of African Americans migrated from the South to the East Bay Area of northern California in search of the social and economic mobility that was associated with the region's expanding defense industry and its reputation for greater racial tolerance. Drawing on fifty oral interviews with migrants as well as on archival and other written records, Abiding Courage examines the experiences of the African American women who migrated west and built communities there. Gretchen Lemke-Santangelo vividly shows how women made the transition from southern domestic and field work to jobs in an industrial, wartime economy. At the same time, they were struggling to keep their families together, establishing new households, and creating community-sustaining networks and institutions. While white women shouldered the double burden

of wage labor and housework, black women faced even greater challenges: finding houses and schools, locating churches and medical services, and contending with racism. By focusing on women, Lemke-Santangelo provides new perspectives on where and how social change takes place and how community is established and maintained.

**black owned business oakland: Louise Thompson Patterson** Keith Gilyard, 2017-09-29

Born in 1901, Louise Thompson Patterson was a leading and transformative figure in radical African American politics. Throughout most of the twentieth century she embodied a dedicated resistance to racial, economic, and gender exploitation. In this, the first biography of Patterson, Keith Gilyard tells her compelling story, from her childhood on the West Coast, where she suffered isolation and persecution, to her participation in the Harlem Renaissance and beyond. In the 1930s and 1940s she became central, along with Paul Robeson, to the labor movement, and later, in the 1950s, she steered proto-black-feminist activities. Patterson was also crucial to the efforts in the 1970s to free political prisoners, most notably Angela Davis. In the 1980s and 1990s she continued to work as a progressive activist and public intellectual. To read her story is to witness the courage, sacrifice, vision, and discipline of someone who spent decades working to achieve justice and liberation for all.

**black owned business oakland: The Art of the Blues** Bill Dahl, 2016-11-01 This stunning book charts the rich history of the blues, through the dazzling array of posters, album covers, and advertisements that have shaped its identity over the past hundred years. The blues have been one of the most ubiquitous but diverse elements of American popular music at large, and the visual art associated with this unique sound has been just as varied and dynamic. There is no better guide to this fascinating graphical world than Bill Dahl—a longtime music journalist and historian who has written liner notes for countless reissues of classic blues, soul, R&B, and rock albums. With his deep knowledge and incisive commentary—complementing more than three hundred and fifty lavishly reproduced images—the history of the blues comes musically and visually to life. What will astonish readers who thumb through these pages is the amazing range of ways that the blues have been represented—whether via album covers, posters, flyers, 78 rpm labels, advertising, or other promotional materials. We see the blues as it was first visually captured in the highly colorful sheet music covers of the early twentieth century. We see striking and hard-to-find label designs from labels big (Columbia) and small (Rhumbogie). We see William Alexander’s humorous artwork on postwar Miltone Records; the cherished ephemera of concert and movie posters; and Chess Records’ iconic early albums designed by Don Bronstein, which would set a new standard for modern album cover design. What these images collectively portray is the evolution of a distinctively American art form. And they do so in the richest way imaginable. The result is a sumptuous book, a visual treasury as alive in spirit as the music it so vibrantly captures.

**black owned business oakland: Suzanne Lacy** Sharon Irish, Suzanne Lacy, Often controversial and sometimes even shocking to audiences, the work of California-based artist Suzanne Lacy has challenged viewers and participants with personal accounts of traumatic events, settings that require people to assume uncomfortable positions, multisensory productions that evoke emotional as well as intellectual responses, and even flayed lambs and beef kidneys. Lacy has experimented with ways to claim the power of mass media, to use women’s consciousness-raising groups as a performance structure, and to connect her projects to lived experiences. The body and large groups of bodies are the locations for her lifelike art, revealing the aesthetics of relationships among people. In this critical examination of Suzanne Lacy, Sharon Irish surveys Lacy’s art from 1972 to the present, demonstrating the pivotal roles that Lacy has had in public art, feminist theory, and community organizing. Lacy initially used her own body—or animal organs—to visually depict

psychological states or social conditions in photographs, collages, and installations. In the late 1970s she turned to organizing large groups of people into art events—including her most famous work, *The Crystal Quilt*, a 1987 performance broadcast live on PBS and featuring hundreds of women in Minneapolis—and pioneered a new genre of public art. Irish investigates the spaces between art and life, self and other, and the body and physical structures in Lacy's multifaceted artistic projects, showing how throughout her influential career Lacy has created art that resists racism, promotes feminism, and explores challenging human relationships.

**black owned business oakland:** *To Place Our Deeds* Shirley Ann Wilson Moore, 2023-09-01 *To Place Our Deeds* traces the development of the African American community in Richmond, California, a city on the San Francisco Bay. This readable, extremely well-researched social history, based on numerous oral histories, newspapers, and archival collections, is the first to examine the historical development of one black working-class community over a fifty-year period. Offering a gritty and engaging view of daily life in Richmond, Shirley Ann Wilson Moore examines the process and effect of migration, the rise of a black urban industrial workforce, and the dynamics of community development. She describes the culture that migrants brought with them—including music, food, religion, and sports—and shows how these traditions were adapted to new circumstances. Working-class African Americans in Richmond used their cultural venues—especially the city's legendary blues clubs—as staging grounds from which to challenge the racial status quo, with a steadfast determination not to be Jim Crowed in the Golden State. As this important work shows, working-class African Americans often stood at the forefront of the struggle for equality and were linked to larger political, social, and cultural currents that transformed the nation in the postwar period. *To Place Our Deeds* traces the development of the African American community in Richmond, California, a city on the San Francisco Bay. **black owned business oakland:** *The Lost Daughter* Mary Williams, 2013-04-09 "I always hoped [Mary Williams] would tell her incredible story. She's a writer of uncommon clarity and humor, and the arrival of her memoir is cause for celebration. —Dave Eggers, author of *What Is the What* As she grew up in 1970s Oakland, California, role models for Mary Williams were few and far between: her father was often in prison, her older sister was a teenage prostitute, and her hot-tempered mother struggled to raise six children alone. For all Mary knew, she was heading down a similar path. But her life changed when she met Jane Fonda at summer camp in 1978. Fonda grew attached to the bright girl and eventually invited her to become part of her family, becoming the mother Mary never had. Mary's life since has been one of adventure and opportunity—from hiking the Appalachian Trail solo, working with the Lost Boys of Sudan, and living in the frozen reaches of Antarctica. Her most courageous trip, though, involved returning to Oakland and reconnecting with her biological mother and family, many of whom she hadn't seen since the day she left home. *The Lost Daughter* is a chronicle of her journey back in time, an exploration of fractured family bonds, and a moving epic of self-discovery.

**black owned business oakland:** *Business in Black and White* Robert E. Weems, 2009-02-01 *Business in Black and White* provides a panoramic discussion of various initiatives that American presidents have supported to promote black business development in the United States. Many assume that U.S. government interest in promoting black entrepreneurship began with Richard Nixon's establishment of the Office of Minority Business Enterprise (OMBE) in 1969. Drawn from a variety of sources, Robert E. Weems, Jr.'s comprehensive work extends the chronology back to the Coolidge Administration with a compelling discussion of the Commerce Department's "Division of

Negro Affairs.” Weems deftly illustrates how every administration since Coolidge has addressed the subject of black business development, from campaign promises to initiatives to downright roadblocks. Although the government's influence on black business dwindled during the Eisenhower Administration, Weems points out that the subject was reinvigorated during the Kennedy and Johnson Administrations and, in fact, during the early-to-mid 1960s, when “civil rights” included the right to own and operate commercial enterprises. After Nixon's resignation, support for black business development remained intact, though it met resistance and continues to do so even today. As a historical text with contemporary significance, *Business in Black and White* is an original contribution to the realms of African American history, the American presidency, and American business history.
