black owned business in oakland: Black Revolutionaries Joe Street, 2024-11 Black Revolutionaries is an accessible yet rigorously argued history of the Black Panther Party (BPP), one of the emblematic organizations of the 1960s. Joe Street highlights the complexity of the BPP's history through three key themes: the BPP's intellectual history, its political and social activism, and the persecution its members endured. Together, these themes confirm the BPP's importance in understanding Black America's response to white oppression in the 1960s and 1970s. Based on a wealth of archival material, *Black Revolutionaries* reveals the enduring importance of leftist political philosophy to 1960s and 1970s radicalism, and how the BPP helps us to understand more deeply the role of public space and public protest in the 1960s. Street shows how the BPP were key to the transformation of political activism in the post-civil rights era. As the BPP faced the psychological and organizational impacts of FBI surveillance, police repression, and imprisonment, Street examines how these negative forces helped to shape and destroy the BPP. Most significantly, *Black Revolutionaries* demonstrates that an understanding of African American grassroots politics and protest, racial injustice, and police brutality in the post-civil rights era is only comprehensible through engagement with the BPP's history.

black owned business in oakland: A People's Guide to the San Francisco Bay Area Rachel Brahinsky, Alexander Tarr, 2020-10-06 An alternative history and geography of the Bay Area that highlights sites of oppression, resistance, and transformation. “Lavishly produced, with beautiful images and crystal clear prose, *A People's Guide to the San Francisco Bay Area* is for readers and

activists who have taken part in protests and demonstrations for decades, and from Berkeley and Oakland to San Francisco, Sonoma and beyond.”—CounterPunch A People’s Guide to the San Francisco Bay Area looks beyond the mythologized image of San Francisco to the places where collective struggle has built the region. Countering romanticized commercial narratives about the Bay Area, geographers Rachel Brahinsky and Alexander Tarr highlight the cultural and economic landscape of indigenous resistance to colonial rule, radical interracial and cross-class organizing against housing discrimination and police violence, young people demanding economically and ecologically sustainable futures, and the often-unrecognized labor of farmworkers and everyday people. The book asks who had—and who has—the power to shape the geography of one of the most watched regions in the world. As Silicon Valley’s wealth dramatically transforms the look and feel of every corner of the region, like bankers’ wealth did in the past, what do we need to remember about the people and places that have made the Bay Area, with its rich political legacies? A useful companion for travelers, educators, or longtime residents, this guide: Features over 100 must-visit sites to explore and learn from. Demonstrates how to read the landscape for historical clues. Connects multicultural streets, lush hills, suburban cul-de-sacs, and wetlands across the Bay Area. Covers a wide range of locations, from the North Bay to the South Bay, East Bay, and San Francisco. Includes original maps to guide readers through the region. Offers thematic tours—such as The Intertribal Bay and The Youth in Revolt tours—as starting points for creating personalized routes.

black owned business in oakland: *Abiding Courage* Gretchen Lemke-Santangelo, 2000-11-09 Between 1940 and 1945, thousands of African Americans migrated from the South to the East Bay Area of northern California in search of the social and economic mobility that was associated with the region’s expanding defense industry and its reputation for greater racial tolerance. Drawing on fifty oral interviews with migrants as well as on archival and other written records, *Abiding Courage* examines the experiences of the African American women who migrated west and built communities there. Gretchen Lemke-Santangelo vividly shows how women made the transition from southern domestic and field work to jobs in an industrial, wartime economy. At the same time, they were struggling to keep their families together, establishing new households, and creating community-sustaining networks and institutions. While white women shouldered the double burden of wage labor and housework, black women faced even greater challenges: finding houses and schools, locating churches and medical services, and contending with racism. By focusing on women, Lemke-Santangelo provides new perspectives on where and how social change takes place and how community is established and maintained.

black owned business in oakland: *The Lost Daughter* Mary Williams, 2013-04-09 “I always hoped [Mary Williams] would tell her incredible story. She’s a writer of uncommon clarity and humor, and the arrival of her memoir is cause for celebration. —Dave Eggers, author of *What is the What* As she grew up in 1970s Oakland, California, role models for Mary Williams were few and far between: her father was often in prison, her older sister was a teenage prostitute, and her hot-tempered mother struggled to raise six children alone. For all Mary knew, she was heading down a similar path. But her life changed when she met Jane Fonda at summer camp in 1978. Fonda grew attached to the bright girl and eventually invited her to become part of her family, becoming the mother Mary never had. Mary’s life since has been one of adventure and opportunity—from hiking the Appalachian Trail solo, working with the Lost Boys of Sudan, and living in the frozen reaches of Antarctica. Her most courageous trip, though, involved returning to Oakland and reconnecting with her biological mother and family, many of whom she hadn’t seen since the day she left home. *The Lost Daughter* is a chronicle of her journey back in time, an exploration of fractured family bonds, and a moving epic of self-discovery.

black owned business in oakland: Suzanne Lacy Sharon Irish, Suzanne Lacy, Often controversial and sometimes even shocking to audiences, the work of California-based artist Suzanne Lacy has challenged viewers and participants with personal accounts of traumatic events, settings that require people to assume uncomfortable positions, multisensory productions that evoke emotional as well as intellectual responses, and even flayed lambs and beef kidneys. Lacy has experimented with ways to claim the power of mass media, to use women's consciousness-raising groups as a performance structure, and to connect her projects to lived experiences. The body and large groups of bodies are the locations for her lifelike art, revealing the aesthetics of relationships among people. In this critical examination of Suzanne Lacy, Sharon Irish surveys Lacy's art from 1972 to the present, demonstrating the pivotal roles that Lacy has had in public art, feminist theory, and community organizing. Lacy initially used her own body—or animal organs—to visually depict psychological states or social conditions in photographs, collages, and installations. In the late 1970s she turned to organizing large groups of people into art events—including her most famous work, *The Crystal Quilt*, a 1987 performance broadcast live on PBS and featuring hundreds of women in Minneapolis—and pioneered a new genre of public art. Irish investigates the spaces between art and life, self and other, and the body and physical structures in Lacy's multifaceted artistic projects, showing how throughout her influential career Lacy has created art that resists racism, promotes feminism, and explores challenging human relationships.

black owned business in oakland: Beyond Christianity Darnise C. Martin, 2005-03-01 *Beyond Christianity* draws on rich ethnographic work in a Religious Science church in Oakland, California, to illuminate the ways a group of African Americans has adapted a religion typically thought of as white to fit their needs and circumstances. This predominantly African American congregation is an anomalous phenomenon for both Religious Science and African American religious studies. It stands at the intersection of New Thought doctrine, characterized by personal empowerment teachings, and a culturally familiar liturgical style reminiscent of Black Pentecostals

and Black Spiritualists. This group challenges oversimplified concepts of the Black church experience and broadens the concept of Black religion outside the boundaries of Christianity—raising questions about what it means to be an African American congregation, and about the nature of blackness itself. Beyond Christianity adds a new dimension to the scholarship on Black religion.

black owned business in oakland: Reforming the City Ariane Liazos, 2019-12-17 Most American cities are now administered by appointed city managers and governed by councils chosen in nonpartisan, at-large elections. In the early twentieth century, many urban reformers claimed these structures would make city government more responsive to the popular will. But on the whole, the effects of these reforms have been to make citizens less likely to vote in local elections and local governments less representative of their constituents. How and why did this happen? Ariane Liazos examines the urban reform movement that swept through the country in the early twentieth century and its unintended consequences. Reformers hoped to make cities simultaneously more efficient and more democratic, broadening the scope of what local government should do for residents while also reconsidering how citizens should participate in their governance. However, they increasingly focused on efficiency, appealing to business groups and compromising to avoid controversial and divisive topics, including the voting rights of African Americans and women. Liazos weaves together wide-ranging nationwide analysis with in-depth case studies. She offers nuanced accounts of reform in five cities; details the activities of the National Municipal League, made up of prominent national reformers and political scientists; and analyzes quantitative data on changes in the structures of government in over three hundred cities. *Reforming the City* is an important study for American history and political development, with powerful insights into the relationships between scholarship and reform and between the structures of city government and urban democracy.

black owned business in oakland: Rickey Howard Bryant, 2022-06-07 “Seldom does a sports biography—especially a page-turner—so comprehensively explain the forces that made an icon the way they are.” – *Sports Illustrated* From the author of *The Last Hero: A Life of Henry Aaron* comes the definitive biography of Hall of Famer Rickey Henderson, baseball’s epic leadoff hitter and base-stealer who also stole America’s heart over nearly five electric decades in the game. Few names in the history of baseball evoke the excellence and dynamism that Rickey Henderson’s does. He holds the record for the most stolen bases in a single game, and he’s scored more runs than any player ever. “If you cut Rickey Henderson in half, you’d have two Hall of Famers,” the baseball historian Bill James once said. But perhaps even more than his prowess on the field, Rickey Henderson’s is a story of Oakland, California, the town that gave rise to so many legendary athletes like him. And it’s a story of a sea change in sports, when athletes gained celebrity status and Black players finally earned equitable salaries. Henderson embraced this shift with his trademark style, playing for nine different teams throughout his decades-long career and sculpting a brash, larger-than-life persona that stole the nation’s heart. Now, in the hands of critically acclaimed

sportswriter and culture critic Howard Bryant, one of baseball's greatest and most original stars finally gets his due.
