business degree in georgia: *Farm Fresh Georgia* Jodi Helmer, 2014-03-15 The first guidebook of its kind for the Peach State, Farm Fresh Georgia leads food lovers, families, locals, and tourists on a lively tour of almost 400 farms and farm-related attractions, all open to the public and visited by travel writer Jodi Helmer. Here are irresistible opportunities to find farmers' markets, dine at a

farm-to-table restaurant known for its chicken and waffles, buzz by an apiary, stay at an Arabian horse ranch and bed and breakfast, and visit an urban farm in Atlanta where kids build entrepreneurial skills. Organized by six state regions (Atlanta Metro, Upper Coastal Plain, Lower Coastal Plain, Piedmont, Appalachian, and Blue Ridge) and nine categories of attractions, the listings connect readers with Georgia's farms and reflect agritourism trends burgeoning in the South and the nation. Highlighting establishments that are independent and active in public education and sustainability, the book taps local food initiatives and celebrates the work of local farmers. Thirteen recipes gathered directly from farmers and chefs offer the farm-fresh tastes of Georgia.

business degree in georgia: *The Tifts of Georgia* John D. Fair, 2010 This unique book addresses the under-analyzed subject of internal migration in American historiography by showing the impact of eight generations of a family from New England on the development of Southern Georgia from the eighteenth to the end of the twentieth centuries. Focusing on cross-regional influences, *The Tifts of Georgia* sheds new light on such traditional topics as paternalism, cultural assimilation, and race relations. Originally from Mystic, Connecticut, the Tifts migrated to Key West, Florida, where they profited from the wrecking trade, set up business operations at various points along the eastern coast of the United States, and eventually made a significant impact on some of the less-developed areas of Georgia. The most important member of the family was Nelson Tift, a pioneer businessman who founded the city of Albany, Georgia, in the 1830s and played a major role on behalf of his adopted state during the Civil War and Reconstruction. His enterprises were often coordinated with his brother Asa in Key West. Their nephew, Henry Harding Tift, founded Tifton and Tift County, and Tift College in Forsyth was named for Henry's wife, Bessie, a major benefactor. Later Tifts were not only involved in the continued development of Albany and Tifton but made significant contributions to the economy and civic life of Macon, Atlanta, and other communities. The most important theme embodied in this monograph is how the Tifts brought Connecticut Yankee values to the South but were in turn transformed into Southerners. *The Tifts of Georgia* is richly illustrated with charts, maps, and original photographs. This history of an important Georgia family should be of special interest to professional and amateur historians, sociologists, cultural anthropologists, and genealogists.

business degree in georgia: *Professional Career Paths* Ronald W. Holmes, Ph.D., 2013-08 Public school students in many states are given the opportunity to choose a potential job to pursue or path of study in one of the 16 national career clusters delineated by the U.S. Department of Education. Some of these career clusters include (1) agriculture, food and natural resources; (2) audio/visual technology and communications; (3) architecture and construction; (4) business, management and administration and (5) education and training. This book provides an excerpt of

interviews of 57 professionals in different occupations (teacher, lawyer, doctor, entrepreneur, etc.) to help students learn of jobs for successful employment. The book is also designed to help students visualize how their background fits certain characteristics of professionals so they become inspired to pursue a defined career path. Each professional's occupation in the chapters is linked to one of the 16 national career clusters supported by definitions of the National Association of State Directors of Career Technical Education Consortium. Finally, the book provides a review of best practices various schools have used across the country to prepare students for college and careers.
