Skepticism is on the rise, and there is a pressing need for fresh solutions and viable strategies. This book assembled a cast of international experts and thought leaders and gathered their views on alternative pathways toward global success.

business class on kenya airways: Reconciliation in Trans Mara Carl E. Hansen, 2023-12-06 Accompanied by their two youngest teenage daughters, the author and his companion leave behind a comfortable life in Canada and move to Kenya. They make their home in Ogwedhi, a village on the boundary between South Nyanza and the Trans Mara Region of Rift Valley Province. Where a bloody massacre had left hatred and distrust between the Maasai and their Luo and Kisii neighbors, this couple takes up the challenge of directing a comprehensive project designed to bring peace and reconciliation through wholistic community development. Their successful efforts at bringing together former "enemy" tribes comes at a personal cost to their own family. Separated, feeling abandoned, their two eldest daughters must remain in college in the USA, while the two younger ones face the loneliness of being confined to boarding at the Rift Valley Academy. This story is unusual in that this missionary intervention was initiated by the local Maasai leadership, not a foreign "sending" agency. The nomadic Maasai elders invited the Kenya Mennonite neighbors to recruit a missionary to assist them in leaving their nomadic way of life and adapting to more modern sedentary living. The elders specified five objectives for their project: "We want primary schools for our children, a clinic for our sick, a church for our spiritual needs, animal husbandry to improve our cattle, and agricultural development since we will become farmers." The Ogwedhi-Sigawa Community Development Project (OSP) became a model for such intervention. The lasting result was a radical transformation of the community, including the planting of an indigenous Maasai church. The project was launched in 1979. The events of this story took place from 1985 to 1991.

business class on kenya airways: Water Striders John Moehl, 2022-03-03 Charlie Stancik was born in sage and juniper scrub on lands reclaimed from ancient waters—lands whose first outside settlers were Bohemians seeking the end of the rainbow. Charlie seeks his own Xanadu, feeling he must leave the lake bed to find the life he deserves—the life he needs. His pilgrimage takes him to the shores of Lake Michigan, evolving from homelessness to a position of some wealth and power—evolving from a lost soul to someone who has found his soulmate. This seemingly implausible trajectory had been made possible by the enigmatic Robin McCandless and his obscure and potent company, Delpro. Work with Delpro takes Charlie to the furthest corners of the globe and into the darkest shadows. Charlie becomes a key actor in a drama he scarcely understands—a drama that places him in great jeopardy. Charlie the prodigy walks a fine line with Charlie the criminal—the path ultimately guided not by the elusive Robin McCandless but by Rodney Mills, a government investigator with a long history with Delpro and its sordid acts. In the end, Charlie realizes that love in the present and freedom from the past are the riches he has sought.

business class on kenya airways: The Flying Springbok Lionel Friedberg, 2021-07-31 An artistic rendering of the African antelope, the Springbok, was depicted with stylized wings to serve as the logo of South African Airways (SAA) for well over 60 years. It was replaced by a new corporate identity when the airline was rebranded after the demise of apartheid, the release of Nelson Mandela from political incarceration, and the introduction of a non-racist democratic society in South Africa in the mid-nineties. As a state-owned entity, many people once saw SAA as the 'apartheid airline.' For a time, travel on board its aircraft was restricted to whites only, but this was later changed to include members of all the country's diverse racial groups. SAA pioneered flight throughout Africa during the colonial era, long before airports, supply services, radio and weather forecasting capabilities even existed. Its staff and equipment served with the Allies in Europe and North Africa during WWII and it met the enormous challenge of having to circumvent African airspace when flying to destinations abroad after most African nations closed their skies to it in protest against the country's racist policies in the early sixties. Over the years the airline grew into one of the world's major domestic, regional, and international carriers. Its long history was eventually terminated and replaced by a new entity in 2020 with the outbreak of the coronavirus pandemic. In its original incarnation it could proudly boast of being one of the world's oldest and longest-surviving international carriers. It is still seen by many around the world as the airline with that much revered and fondly remembered emblem, the Flying Springbok.
