business class flights to rome: The Alb Luis Rousset, 2020-10-11 An Inca tomb with gold artifacts and an incredibly rare finely woven white tunic was found deep in the South American Andes by a geological expedition searching the area. The Peruvian authorities send a team to examine the find and assure that it is kept intact. The event raises the curiosity of Mr. John Engelhard, CEO and chief shareholder of the New York based Horizon Mining, conducting the mineral exploration in the Andes. A self-made man and billionaire, Engelhard decides to travel to the exploration site, in the Colca area in Peru, to see firsthand the archeological treasure. On the night after his arrival, the campsite is raided and all its members murdered. The treasure disappears. The Museo de la Nacion, in Lima, grieves the disappearance of the priceless objects, especially the loss

of the unique white tunic found in the tomb. The museum archeologists refer to this piece of ancient garment as the “Alb,” an allusion to the fabled tunic worn by “Viracocha” the most important deity in the Inca pantheon of gods. According to legend, the alb has the power to protect whoever wears it from “Supay,” the god of death and of the inner world. A New York detective, Mr. Alan Leary is hired by Mr. Anton Deville, Horizon’s chief attorney, to investigate the crime. The idea of Engelhard, owner of a great fortune, committing the murders to rob the Inca treasure is preposterous. Deville wishes Alan to discover what took place. What could have happened to Engelhard? Was he kidnaped or is he dead and buried somewhere else? Thus begins an adventure extending over three continents, from civilized Manhattan to the high Andes in South America, and through the rivers and forests of the Amazon to its surprising conclusion in Italy.

business class flights to rome: *In the Shadows of Death* Kassie Sambaraju, 2023-01-12 What would you do if you had an appointment with death? This philosophical novella follows an unnamed protagonist who makes an appointment with Death—personified as a hipster living in an apartment in West Vancouver—and the weeks that follow as she awaits their next meeting, which she knows will be their last. A woman in her mid-sixties, this unnamed “I” has spent her life running from the trauma of her childhood in India. Her father abandoned her mother, who was forced into a second marriage with a man who made her life miserable. As she awaits her turn to get answers from Death, the protagonist flies to Italy, recreating her last vacation with her deceased partner, Joe. Through stream-of-consciousness prose, the author guides the reader through the protagonist’s last days, as she grapples with existential questions that are at once personal and universal. Following in the footsteps of Paulo Coelho’s *The Alchemist*, this inspirational new work deftly combines existential absurdism, philosophy, and spirituality, encouraging readers to reframe their thinking about life and death.

business class flights to rome: *Olympic Airways* Graham M. Simons, 2020-11-12 Readers with an interest in the early days of organized civil mass air transport will enjoy having a familiar story be retold from a Greek perspective. — SpeedReaders The Olympic Airways story has fascinated Graham M. Simons for many years. This new book represents the culmination of decades spent researching the history of this fascinating Greek airline. It is a story of evolution, conflict, personality and politics, all set against a backdrop of world and civil wars, coups and countercoups. During the course of his research, it became apparent to the author that many of the fine details pertaining to the company weren't widely known, although almost everyone had heard of the towering, controversial, leading figurehead who oversaw much of the central part of the story: Aristotle Socrates Onassis. His colorful life is threaded through this history, lending it drama and multiple levels of intrigue. The airline's story cannot be told in isolation. Olympic did not spring fully formed into being in 1957. The named company may have come into being then, but its roots were set much further back in history through a number of predecessor airlines—both national and international—who had been using the Hellenic Republic and Athína as the crossroads of the air for the Eastern Mediterranean since the dawn of aviation. This is the story of the birth and dramatic life of an airline with a checkered, controversial and complicated history. Graham M. Simons has skillfully woven all the various threads to create a powerful and important historic record.

business class flights to rome: *The Chairman's Lounge* Joe Aston, 2024-10-28 Shortlisted for the 2025 ABIA Awards, General Nonfiction Book of the Year and The Matt Richell Award for New Writer of the Year From the must-read journalist on how power, money and influence work in this country, the full story of how one of the nation's favourite brands brought itself to ground. Before Covid, both Qantas and its CEO Alan Joyce were flying high, the darlings of customers, staff and investors. After Covid hit, only money mattered – in particular, the company's share price and extraordinary executive bonuses. Illegally redundant workers, unethical flight credits, abysmal customer service, antique aircraft: these became Qantas' new brand. How did things go so badly wrong? Why were customers at the end of the queue? And how did an increasingly autocratic Joyce constantly get his own way, with the Qantas board and with both Liberal and Labor governments, which handed over billions in subsidies and protected lucrative flight routes from foreign competition? For the first time, *The Chairman's Lounge* tells the full story of how one company banked the nation's loyalty and then cashed in on it. In his celebrated column Rear Window for the Australian Financial Review, Joe Aston's reporting of the ethical failings of Qantas spurred the early retirement of its CEO and the resignation of its chairman. With fresh interviews and revelations, written in Aston's trademark swashbuckling style, *The Chairman's Lounge* is the definitive account of how Qantas was brought to ground and who did it. It is a parable of our times. 'A masterclass in investigative journalism ... A scathing, unflinching takedown of greed, delusion and a shameless abuse of power, both jaw-dropping and brilliantly incisive' Adele Ferguson
