Just rich enough to move out of her coffin-sized apartment and eat something better than flavored algae. Rich enough to pay off a debt she's owed for a long time. So when a chance at a huge score finally comes her way, Jazz can't say no. But engineering the perfect crime is just the start of her problems—because her little heist is about to land her in the middle of a conspiracy for control of Artemis herself. Trapped between competing forces, pursued by a killer and the law alike, she'll have to hatch a truly spectacular scheme to have a chance at staying alive and saving her city. Jazz is no hero, but she is a very good criminal. That'll have to do.

**business class lax to tokyo: *Fall Down, Get Up, Repeat If Necessary*** J Arthur, 2020-07-19

Author J. Arthur drank steadily for forty years, often with glee but only rarely with restraint. Eventually, however, when lying, cheating, and stealing no longer served; when the alcohol just quit working; when he couldn't remember why he was mad, sad, confused, and resentful—he had great luck in finding a moment of clarity. In *Fall Down, Get Up, Repeat if Necessary*, Arthur shares stories from his life and reveals just how lucky he got in finding that moment. He does not offer a how-to guide to DIY sobriety; instead, he recounts just a smidge of what worked for him. Once he was horrified at the thought of being an alcoholic, a disease for which there is no vaccine, no inoculation. Now he is at peace, knowing there is a fabulous relief when one discovers that treatment exists for this sickness of the mind body and soul.

**business class lax to tokyo: *The Imperfect Leader*** Davis H. Taylor, 2007-08 The story told in *The Imperfect Leader* is timely...it's relevant...it's powerful...and it will challenge the way you think about leadership. It is a story that reveals a new model for transformational leadership—one that flies in the face of conventional wisdom, creates healthy corporate cultures, and delivers extraordinary, sustainable results. It is a story about the personal journey transformational leaders must take in order to be true to themselves—to be in touch with themselves—and to find at journey's end that it's not about them. *The Imperfect Leader* will resonate with leaders at all levels and in every walk of life. It guides, equips and motivates leaders, young and old, to understand the necessity for personal transformation that is required for leaders to make a difference in their organizations. George Gallup, Jr. (The Gallup Organization) said this about *The Imperfect Leader*: There is one true and effective model for leadership that outperforms all others—it is time-tested and historically proven to be the leadership model for transformational change. In *The Imperfect Leader*, Taylor offers an interesting, well written articulation of that model. It is a very practical book that should be read by any leader seriously intending to make a difference—in their organization—or in the world.

**business class lax to tokyo: *Air Transport in the Asia Pacific*** David Timothy Duval, 2016-03-16 Air transport in the Asia Pacific has undergone significant transformation in the last three decades. What was once a region in the shadow of larger and more prosperous continents such as North America and Europe is now at the forefront of expansion in commercial air-service

networks, frequency and capacity, and the overall growth in the contribution of air transport to economies on regional and, in many cases, individual country levels. Despite this, it represents an area that is generally under-represented in the commercial air-transport academic literature. *Air Transport in the Asia Pacific* seeks to fill this gap. Against this context, the aim of the volume is to offer a contemporary snapshot of current academic research into commercial air transport in the Asia Pacific. While one volume cannot realistically address the complete range of identifiable issues, this book provides timely, specific and research-based studies authored by leading academics and practitioners.
