business class to bangkok: *Globalising Chinese Actors and Internalising the Belt and Road* Miwa Hirono, 2025-06-19 The literature on the Belt and Road Initiative (BRI) points out either its negative or positive impacts on global and domestic governance. However, such a dichotomy is too simplistic, not least because it tells us little about the complexity of change in the nature of the BRI as it is implemented. This book argues that the BRI manifests an intricate dynamic comprising two contradictory tendencies: Xi Jinping's top-down and centralised approach to policymaking, with its focus on producing robust Chinese actors who can succeed in a competitive global economy; and a fragmented and decentralised reality made up of an expanding range of actors engaged in realising myriad BRI projects on the ground. The co-existence of these two contradictory tendencies implies that the BRI has a multidimensional impact on global and domestic governance in general, and on the role of Japan in countries where BRI projects take place. Japan matters because of its 'in-between' position between non-Western donors and the Development Assistance Committee of the Organisation for Economic Co-operation and Development, a position that offers a unique dimension to a frequently dichotomous discussion of the BRI. Globally, China's promotion of the BRI has strengthened an aspect of global governance, the 'open economy', while at the same time fostering the Chinese nuance of a 'planned economy'. Domestically, a Chinese-style approach to state management and investment without political conditions may set back democratisation efforts in emerging countries, but the BRI has also given rise to a renewed sense of democracy in those countries. These multidimensional impacts enable China and Japan to find an on-the-ground complementarity in their approaches to development aid in relation to future cooperation.

business class to bangkok: Relentless Pursuit Samuel M. Katz, 2003-09-13 Al Queda's war on America did not start on September 11, 2001. Just ask the Diplomatic Security Service. It was on February 6, 1993, that the United States was first attacked on its own soil by foreign terrorists. A zealous band of Middle Easterners, holy warriors determined to punish the United States for its supposed transgressions against Islam, packed over a ton of home made explosives into the back of a rented van. They drove their bomb across the Hudson from New Jersey, maneuvered it through downtown traffic and parked it in the underground garage at the Vista Hotel, beneath the twin towers of the World Trade Center. They lit a long fuse, which allowed them time to get back to New Jersey to watch the results of the explosion on CNN. They hoped to topple one mammoth tower into the other and kill ten thousand people or more. Miraculously, only six people were killed. Most of the group were captured within a week, but the mastermind behind the attack, Ramzi Ahmed Yousef, had immediately gone to JFK airport to fly to Pakistan. Before leaving, he phoned the Associated Press and claimed responsibility for the bombing in the name of the Arab Liberation Army, a terrorist group led by Saudi exile Osama bin Laden. A succession of such brazen crimes has revealed complex connections among terrorist groups with an implacable hostility toward Western civilization. Outrages such as the assassination of the Jewish Defense League founder Meier Kahane, a huge plot in the Philippines to plant bombs on intercontinental airlines and to assassinate the Pope, the bombing of US embassies, culminating in the African embassy bombings of 1998, the attack on the USS Cole in 1999, and the devastating attack on the World Trade Center in 2001 have made it clear that a worldwide network of terrorists led by Osama bin Laden is making war on the United States. On the front lines combating these terrorists in 150 countries around the world have been the 1,200 agents of the US Department of State's Diplomatic Security Service. A little-known but highly effective branch of the government, the DSS is the one arm of federal law enforcement with international powers of arrest. These agents maintain close ties to local police commanders in many countries and can entice informants with bounties of up to \$4,000,000. After a challenging international search, it was DSS agents in Pakistan who captured Ramzi Yousef. DSS agents have been in the vanguard of the War on Terrorism long before it was declared. In *Relentless Pursuit*, Samuel Katz review the escalating series of terrorist attacks on the United States during the last decade, including those in many foreign countries and finally in New York and Washington. In the process, he tells the gripping story of the DSS and its agents protecting us and our representatives here and abroad. Katz's detailed, personal, on-the-ground anecdotes bring home the contexts and linkages of the War on Terrorism that has been fought on our behalf by the DSS since the 1980s. *Relentless Pursuit* is a stirring tribute to an unsung group of brave Americans.

Multinational corporations who control energy, medicine, communications, weapons, and finance industries that, out of greed, sell out to terrorists are now on our avenging radar. Hamilton Kent Jr., also known as Sook, and his teams of daring avengers are comprised of several generations from America and Asia. The team starts off avenging Sooks father who was murdered by an American defense contractor with the complicit blind eye of career US government officials. Over time Sook brings rancorous retribution to other evildoers while wreaking havoc on global terrorists.
