**business ideas for guys: The Mind of a Pyoneer** Bryan Scott Burrell II, 2021-05-17 This book is very motivational and inspirational. In a sense, it is a how to/step by step guide, combining my past experiences and knowledge, with everything I implemented in starting my own business today. This book is to hopefully inspire more like-minded business people, and to also inspire people to become first time authors themselves. For readers to take anything that they might learn from within this book itself, applying it to their personal lives and business also. That at worst, this book could well off just be a good read for someone. I wanted to duplicate most of what I knew about business, marketing and entrepreneurship, putting it all in book form. To teach what I knew; giving back to others that may need to know some of the things that are in this book, creating synergy for each one to reach one, and as the saying goes, "iron sharpens iron." This book points out specific and personal times where the universe allowed things to come full circle for me. Furthermore, this book touches on: investing, economics, education, accounting, gold, and more. Conveying a bit of financial literacy; understanding markets, business conduct, business strategies, knacks & niches, and business marketing techniques. This book covers topics such as: branding, marketing, advertising, promoting, and outsourcing. Graphics & design, design theory, technology, social media, platforms, and marketplaces. Innovation, creation, enterprise, real estate and the automobile industry. Going also, into ownership, business plans, passive income, residual income, creating streams of revenue, scaling and growing a business. Funneling and integrating a business and other subsidiary company. Exhausting all your resources and adapting and adjusting to things, learning as you go, along with learning from your mistakes. This book explains what it means to be a Pyoneer and/or have the mind of a Pyoneer and how to overcome adversity. How to endure, and persevere through opposition, struggles, and hard times. How to work hard, stay diligent, and understand your true value within; value that others may need. It is a book to inspire you all to never quit, and to also inspire you to go for anything you want that is good. I hope this book motivates you all to start asserting yourself in whatever that is.

In this book, there are valuable tips and some good sound financial and fundamental information. As President of three Corporations and three companies, from 1965 to present day, it has kept me quite busy over time. **business ideas for guys:** *From man to man* Alexander von Gruenau, 2025-04-07 Understanding male menopause as a new beginning? Even the longest journey begins with the first step,? says Confucius. I, too, had to overcome myself to take this step and write this book. Male menopause? A taboo subject that I experienced first hand. What started out as a mild uneasiness became a relentless process that put my marriage, my career and my self-image to the test. Inexplicable fits of rage, sleepless nights, cheating and constant mood swings? I felt like I was on an unstoppable rollercoaster ride. Sound familiar? You're not alone! This book is more than just an account of my experiences ? it's an honest look at the lows and the turning points in the life of a man who has grown not only through the menopause but also through himself. There are countless books and guides by women for women, but there is not a single book in the German-speaking world that supports us men in this phase of life. I break the silence and show that talking about it is not a sign of weakness. Rather, there is an unexpected strength in acceptance. I reveal my innermost thoughts, my failings, my successes and my failures. Starting with my childhood and continuing to the present day. You will learn how physical changes affect our self-image and why men often fall into the trap of affairs or unhealthy behavior patterns. And more importantly, I will show you ways to rediscover yourself and set new goals, whether in your relationship, your career or your inner self. This book will help you to reflect on yourself, to accept the changes and hopefully not to make the same mistakes as me. Yours sincerely, Alexander von Gruenau
