business for sale scottsdale: Death of a Jewish American Princess Shirley Frondorf, 2013-07-10 In 1982, a sensational murder trial in Phoenix, Arizona, reverberated throughout the legal community. Restaurateur Steven Steinberg, who killed his wife by stabbing her 26 times, was acquitted; his legal defense portrayed the victim as an overpowering Jewish American Princess whose excesses may have provoked her violent end. Examining the structure of the defense's case, Frondorf, an attorney who was previously a psychiatric social worker, follows the theme that made Elana Steinberg the villain, instead of the victim, of the piece. The defense's forensic presentation, bolstered by testimony from psychiatrists, maintained that Steinberg committed the crime while sleepwalking, an abnormality allegedly brought on by the intemperate spending of his wife. Frondorf recreates the trial whose outcome scarred the tightly knit Jewish community of Phoenix.

business for sale scottsdale: Grand Canyon For Sale Steve Nash, 2017-09-05 Grand Canyon For Sale is a carefully researched investigation of the precarious future of America's public lands: our national parks, forests, wildlife refuges, monuments, and wildernesses. Taking the Grand Canyon as its key example, and using on-the-ground reporting as well as science research, the book makes plain that accelerating climate change will dislocate wildlife populations and vegetation across hundreds of thousands of square miles of the national landscape. So what's the plan, as the next phase of our political history begins? Consolidating protected areas and prioritizing natural systems over mining, grazing, drilling and logging will be essential. But a growing political movement, well financed and occasionally violent, is fighting to break up these federal lands and return them to state, local, and private control. That scheme would foreclose the future for many wild species, which are part of our irreplaceable natural heritage, and would lead directly to the ruin of our national parks and forests. Grand Canyon For Sale is an excellent overview of the physical, biological, and political challenges facing our national parks and U.S. public lands today.

business for sale scottsdale: Failure Up Close Jay P. Greene, Michael Q. McShane, 2018-01-17 For many reasons, failure in education reform is rarely admitted. Even though it is incredibly hard work to try and improve the enormous and diverse American education system, because there are political consequences of admitting that a particular effort did not live up to its promises and pressure from philanthropic funders to show success, unsuccessful efforts are often swept under the rug or papered over with public relations efforts that avoid wrestling with the tough realities of

educational improvement. This doesn't help anyone. As any educator will tell you, failure is an essential part of learning. Insofar as education reform needs to be a learning movement itself, it has to be able to admit where it has failed and learn from it. Failure Up-Close engages a select group of scholars from across the ideological spectrum to examine particular education reform efforts of recent years that have not succeeded and offer lessons for school and system improvement that can be learned from them. Rather than view failure as negative, this volume looks at failure as an opportunity to learn and grow. In fact, the editors endeavored to find authors that would analyze reforms for which they had some fundamental sympathy. The goal is not to bash particular efforts or castigate their supporters but rather to help those supporters understand how to do what they do better, and ultimately, do better for children.
