business quotes for women: *Understanding Women's Entrepreneurship in a Gendered Context* Shumaila Yousafzai, Alain Fayolle, Saadat Saeed, Colette Henry, Adam Lindgreen, 2021-05-14 Women entrepreneurs are indeed a formidable force of economic growth and social change, though we still often question the how and why. For the readers who seek to understand the spectrum of gender influences in the context of entrepreneurship, *Understanding Women's Entrepreneurship in a Gendered Context: Influences and Restraints* widens the contextual focus of women's entrepreneurship and entrepreneurship research by providing powerful insights into the influences and restraints within a diverse set of gendered contexts including social, political, institutional, religious, patriarchal, cultural, family and economic, in which female entrepreneurs around the world operate their businesses. From recognition of a seventh-century businesswoman in Mecca to the construction of a gendered scientific Business Model Canvas, this collection of studies will inspire readers to think differently about theory, patriarchy, trade systems, adoption or transformation and strategies to create inclusive entrepreneurial ecosystems. In doing so, the contributing authors demonstrate not only the importance of studying the contexts in which women's entrepreneurial activities are shaped, but also how female entrepreneurs, through their endeavours, modify these contexts. This book will be of great value to scholars, students and researchers interested in women's entrepreneurship, entrepreneurial ecosystems, gender hierarchy and the transition to gender equality. It was originally published as a special issue of *Entrepreneurship & Regional Development*.

The handbook portrays how, despite these challenges, women use creative and work-around strategies to access resources, build networks and grow their businesses. *De Gruyter Handbook of Women Entrepreneurs in Emerging Economies* brings together contributions from leading experts in the field and is a must-read for academic scholars and postgraduate students interested in gender and entrepreneurship diversity.

business quotes for women: *Women Leadership in Emerging Markets* Shireen Chengadu, Caren Scheepers, 2017-07-06 This book focuses on the increase in female leadership over the last fifty years, and the concrete benefits and challenges this leads to in organizations. It moves beyond the typical focus on developed, Western contexts and answers the call for research on how women in emerging markets rise above the proverbial "glass ceiling". The authors integrate two underdeveloped topics that are highly relevant to modern business: women in leadership roles, and women in emerging markets. They examine how women leaders in a range of professional services—including accounting, consulting, law, engineering and medicine—have managed to navigate their careers while considering the role emerging markets play in their work. Based on cutting-edge research, the topics are brought to life through examples and profiles of leading women across Africa, the Middle East and the Far East. These narratives, told in the leaders' own words, are key to understanding women's achievements and the barriers they face. Students of leadership, diversity, gender studies, and human resource management will learn much from this insightful book.
