cast of unfinished business: Gaza Norman Finkelstein, 2021-07-27 The Gaza Strip is among the most densely populated places in the world. More than two-thirds of its inhabitants are refugees, and more than half are under eighteen years of age. Since 2004, Israel has launched eight devastating operations against Gaza's largely defenseless population. Thousands have perished, and tens of thousands have been left homeless. In the meantime, Israel has subjected Gaza to a merciless illegal blockade. Norman G. Finkelstein presents a meticulously researched inquest into Gaza's martyrdom. He shows that although Israel justified its assaults in the name of self-defense, in fact these actions constituted flagrant violations of international law. He also documents that the guardians of international law -- from Amnesty International and Human Rights Watch to the UN Human Rights Council -- ultimately failed Gaza.

cast of unfinished business: A High Price Daniel Byman, 2011-06-15 In the sixty-plus years of the Jewish state's existence, Israeli governments have exhausted almost every option in defending their country against terror attacks. Israel has survived and even thrived--but both its citizens and its Arab neighbors have paid dearly. In *A High Price* , Daniel Byman breaks down the dual myths of Israeli omnipotence and--conversely--ineptitude in fighting terror, offering instead a nuanced, definitive historical account of the state's bold but often failed efforts to fight terrorist groups. The product of painstaking research and countless interviews, the book chronicles different periods of Israeli counterterrorism. Beginning with the violent border disputes that emerged after Israel's founding in 1948, Byman charts the rise of Yasir Arafat's Fatah and leftist groups such as the Popular Front for the Liberation of Palestine--organizations that ushered in the era of international terrorism epitomized by the 1972 hostage-taking at the Munich Olympics. Byman follows how Israel

fought these groups and new ones, such as Hamas, in the decades that follow, with particular attention to the grinding and painful struggle during the second intifada. Israel's debacles in Lebanon against groups like the Lebanese Hizballah are also examined in-depth, as is the country's problematic response to Jewish terrorist groups that have struck at Arabs and Israelis seeking peace. In surveying Israel's response to terror, the author points to the coups of shadowy Israeli intelligence services, the much-emulated use of defensive measures such as sky marshals on airplanes, and the role of controversial techniques such as targeted killings and the security barrier that separates Israel from Palestinian areas. Equally instructive are the shortcomings that have undermined Israel's counterterrorism goals, including a disregard for long-term planning and a failure to recognize the long-term political repercussions of counterterrorism tactics. Israel is often a laboratory: new terrorist techniques are often used against it first, and Israel in turn develops innovative countermeasures that other states copy. A High Price expertly explains how Israel's successes and failures can serve to inform all countries fighting terrorism today.
