charcuterie cart business: *Adventures on the Wine Route* Kermit Lynch, 2013-11-12 When *Adventures on the Wine Route* was first published, Victor Hazan said, In Kermit Lynch's small, true, delightful book there is more understanding about what wine really is than in everything else I have read. A quarter century later, this remarkable journey of wine, travel, and taste remains an essential volume for wine lovers. In 2007, Eric Asimov, in *The New York Times*, called it one of the finest American books on wine, and in 2012, *The Wall Street Journal* pro-claimed that it may be the best book on the wine business. Praise for Kermit Lynch and for *Adventures on the Wine Route* has not ceased since the book's initial publication a quarter century ago. *The Wall Street Journal* proclaimed it "the best book on the wine business." charcuterie cart business: *Salted and Cured* Jeffrey Roberts, 2017-04-15 From country ham to coppa, bacon to bresaola Prosciutto. Andouille. Country ham. The extraordinary rise in popularity of cured meats in recent years often overlooks the fact that the ancient practice of meat preservation through the use of salt, time, and smoke began as a survival technique. All over the world, various cultures developed ways to extend the viability of the hunt—and later the harvest—according to their unique climates and environments, resulting in the astonishing diversity of preserved meats that we celebrate and enjoy today everywhere from corner delis to white-tablecloth restaurants. In *Salted and Cured*, author Jeffrey P. Roberts traces the origins of today's American charcuterie, salumi, and other delights, and connects them to a current renaissance that begins to rival those of artisan cheese and craft beer. In doing so, Roberts highlights the incredible stories of immigrant butchers, breeders, chefs, entrepreneurs, and other craftspeople who withstood the modern era's push for bland, industrial food to produce not only delicious but culturally significant cured meats. By rejecting the industry-led push for "the other white meat" and reinvigorating the breeding and production of heritage hog breeds while finding novel ways to utilize the entire animal—snout to tail—today's charcutiers and salumieri not only produce everything from country ham to violino di capra but create more sustainable businesses for

farmers and chefs. Weaving together agriculture, animal welfare and health, food safety and science, economics, history, a deep sense of place, and amazing preserved foods, *Salted and Cured* is a literary feast, a celebration of both innovation and time-honored knowledge, and an expertly guided tour of America's culinary treasures, both old and new.

charcuterie cart business: The Flint Coney Dave Liske, 2022-04-25 A Vehicle City Success Story The history of Flint's food culture has always been largely overshadowed by the stories of its industries. But the origins and rapid expansion of the number of Macedonian Coney shops in Flint paralleled the explosive growth of the city's automotive industry throughout the twentieth century. Born of an immigrant escaping the war-torn Balkans in the early 1900s who combined his idea for one dish with the skills of butchering and meatpacking experts from Wisconsin and Germany, the simple Flint Coney became an institution among the city's autoworkers, tradespeople, and families. Mainstays such as Flint Original Coney Island, Angelo's, and Atlas were frequented by regular patrons for decades, with others such as Capitol and Starlite carrying on those traditions today. Genesee County native Dave Liske explores these global origins and the cultural history of the Flint Coney.
