chester county chamber of business and industry: Secrets of Successful Women Inventors Edith G. Tolchin, 2023-10-03 "Edith G. Tolchin has spent her entire career working with inventors.

In *Secrets of Successful Women Inventors*, Edith highlights some of the greatest top-notch successful women inventors and reputable service providers, all eager to share their stories and advice. In her easy-going, personable style, Edith has gleaned the 'cream of the crop' from each of these impressive women. It's a gift to anyone who's ever had a winning idea but nowhere to go and no roadmap to birth their vision." —Barbara Corcoran, "Shark" on ABC's hit TV show *Shark Tank* and founder of the Corcoran Group *Secrets of Successful Women Inventors: How They Swam with the 'Sharks' and Hundreds of Other Ways to Commercialize Your Own Inventions* by Edith G. Tolchin, a chatty, practical, user-friendly guidebook, amply delivers on the promise of its title. —Letty Cottin Pogrebin, founder of *Ms.* magazine Until recently, history has tended to highlight male inventors—but why not women inventors as well? And where are the women inventors of color? Why have so many of these women not found their rightful places in history? Thankfully, over the last few decades—with increasing opportunities to shatter the "glass ceiling"—women have begun to achieve equal footing with men in careers and in salaries. Women worldwide have also made great gains with their inventions! While in the past, many of their inventions have been largely related to the improvement of household and child care items, things have changed. With women achieving influential positions in business, scientific research, and government—women's creative innovations are limitless. In her new book, *Secrets of Successful Women Inventors*, Edith G. Tolchin reveals the real-life stories of over twenty successful modern-day women inventors—stories that describe their hard work, frequent struggles, and relentless dedication to their ideas. Ms. Tolchin presents a look behind the scenes at their respective journeys—from their inventions first being sketched on napkins to the creation of multimillion-dollar companies—and offers sound advice to future inventors from several accomplished invention service providers. She also includes brief snippets of information on women inventors throughout history. While this book is about women who had dreams and made them come true, it can also serve as a blueprint for any woman looking to turn her own ideas into reality.

chester county chamber of business and industry: These Five Words Are Mine Jennifer Lynne Croneberger, 2012-12 *These Five Words are Mine* is a journey to awareness through the stories of every day life. It embraces the everyday conversations we have with ourselves. It captures the connections we see and those we live with others. It's an ordinary perspective with perhaps different eyes. It's a walk down that familiar road with all the lights on instead of the one we so often take surrounded by darkness. It's a jolt of fresh air when you can't breathe. It's days with a notebook, but not writing so you miss out on what you can't see when your head is down. The words are already so much a part of us, they don't even need to be written. Just felt. Have you ever felt a really deep connection to someone else? To a feeling? To words? Author Jen Croneberger brings awareness into our every day life by connecting us to all of it. Through every day stories, she takes us on a journey. One you will likely relate to as well. It's time to take that walk with eyes wide open. Let's begin... Review: Far from an ordinary book. It is a friend. If read with an open heart, not only do we realize we are not alone, but we will never look at ourselves and those around us the same.--Daniel Matos, Spoken Word Artist.

chester county chamber of business and industry: East Goshen Township Linda M. Gordon, 2009-04-01 Goshen Township is part of the original 1681 William Penn grant and was established in 1704. At that time it covered what today are East Goshen Township, West Goshen Township, the borough of West Chester, and part of Westtown Township. In 1817, Goshen was divided into East

Goshen Township and West Goshen Township. East Goshen Township has a rich history that dates back to the Revolutionary War. While much has changed in the township through the years, more than 100 buildings still remain from the 18th and 19th centuries. East Goshen Township remained mainly a farming community until the 1970s, when rapid growth began to change the landscape from rural to suburban. East Goshen Township contains historic photographs from the Chester County Historical Society and longtime area residents, depicting a time when farming was still the township's main industry.
