cincinnati business courier news: *The Enforcers* Rob Wells, 2019-11-18 In the 1980s, real estate developer and banker Charles H. Keating executed one of the largest savings and loans frauds in United States history. Keating had long used the courts to muzzle critical reporting of his business dealings, but aggressive reporting by a small trade paper called the National Thrift News helped bring down Keating and offered an inspiring example of business journalism that speaks truth to power. Rob Wells tells the story through the work of Stan Strachan, a veteran financial journalist who uncovered Keating's misdeeds and links to a group of US senators—the Keating Five—who bullied regulators on his behalf. Editorial decisions at the National Thrift News angered advertisers and readers, but the newsroom sold ownership on the idea of investigative reporting as a commercial opportunity. Examining the National Thrift News's approach, Wells calls for a new era of business reporting that can—and must—embrace its potential as a watchdog safeguarding the interests of the public.

cincinnati business courier news: *New Developments in the Brewing Industry* Erik Strøjer Madsen, Jens Gammelgaard, Bersant Hobdari, 2020-05-07 Institutions and ownership play a central role in the transformation and development of the beer market and brewing industry. Institutions set the external environment of the brewery through both formal requirements and informal acceptance of company operations by the public. On the other hand, owners and managers adapt to these external challenges while following their own strategic agenda. This book explores the implications of this dynamic for the breweries, discussing how changes in institutions have contributed to the restructuring of the industry and the ways in which breweries have responded, including a craft beer revolution with a surge in demand of special flowered hops, a globalization strategy from the macro breweries, outsourcing by contract brewing, and knowledge exchange for small sized breweries. Structured in two parts, with a focus on institutions (Part I) and ownership (Part II) respectively, this book examines the link between institutions and governance in one of the most dynamic and innovative industries.

cincinnati business courier news: *Reclaiming Brownfields* Professor Cynthia Jackson-Elmoore, Professor Laura A Reese, Professor Richard C Hula, 2012-10-28 The

environmental legacy of past industrial and agricultural development can simultaneously pose serious threats to human health and impede reuse of contaminated land. The urban landscape around the world is littered with sites contaminated with a variety of toxins produced by past use. Both public and private sector actors are often reluctant to make significant investments in properties that simultaneously pose significant potential human health issues, and may demand complex and very expensive cleanups. The chapters in this volume recognize that land and water contamination are now almost universally acknowledged to be key social, economic, and political issues. How multiple societies have attempted to craft and implement public policy to deal with these issues provides the central focus of the book. The volume is unique in that it provides a global comparative perspective on brownfield policy and examples of its use in a variety of countries.

cincinnati business courier news: Changing the Paradigm of Homelessness Yvonne Vissing, Diane Nilan, Christopher Hudson, 2019-11-06 Changing the Paradigm of Homelessness offers a comprehensive look at family housing distress related to the homelessness epidemic in the United States. This book explores the causes and consequences of this epidemic and proposes drastic changes in America's historically ill-fated approach to family homelessness. By describing this crisis in detail, the authors enlighten readers to the scope of this issue, describe those impacted by it, and outline ways to shift public policies and public perceptions. The authors interweave scholarly concepts with insights of those who are currently or previously homeless, and, in doing so, they show the importance of academic knowledge influencing policy decisions and the ways in which these influences impact the lives of real persons. This book, then, uses pedagogy, policy, and pragmatism to critique the United States' approach to family homelessness.

cincinnati business courier news: All Dreams on Deck Jeremy Cage, 2017-01-17 Set sail for the adventure of your life and work! As Katie Couric, journalist, author and Yahoo Global News Anchor attests, "Jeremy Cage has written a great book that everyone who thinks about how to better balance work-life issues would benefit from reading...he's also shown us how to better navigate life's personal and professional challenges." All Dreams on Deck will help you articulate your most important dreams in work and life and will then give you a practical approach for realizing those dreams. Through engaging, real-life examples, you will be inspired to live life to your full potential. Author Jeremy Cage begins with the premise that there is no such thing as work-life balance. There is only life balance—of which work is an important part. With this as the foundation, he will guide you through a simple and actionable approach to determining the most important components of your life—the Grab Bags in your LifeBoat—then chart the course to making all the dreams in that LifeBoat a reality. Jeremy, who has lived and worked in nine countries, has used this approach to help thousands of executives, managers, and their teams unleash their potential. He has also realized his own dreams by taking a sixteen-month sabbatical to sail around the world with his family before returning to the US to launch several exciting new companies. So rather than theoretical mumbo jumbo, Jeremy presents compelling, real-life examples of how to dream specifically, get highly intentional about those dreams, plan and prepare well—then summon the courage to set sail.

cincinnati business courier news: Ambiance, Tourism and the City Iñigo Sánchez-Fuarros, Daniel Paiva, Daniel Malet Calvo, 2023-04-28 *Ambiance, Tourism and the City* considers how tourism and urban development affect the lived ambiances of contemporary cities around the world. As most of the existing literature on sensory atmospheres says little about the intersection between tourism and atmospheric production, this book affirms the centrality of the notion of ambiance as a mode of inquiry into the making and remaking of urban places for tourist consumption. The book takes the reader into the sensory worlds of a traditional Italian marketplace, a jungle park in Kuala Lumpur, a slum in the Colombian city of Medellín, or the sun and sand tourism destinations in Southern Spain, among other case studies. It offers new insights into the impact of tourism on the urban environment from multidisciplinary perspectives and a wide range of geographical regions across Europe, North America, Asia, and South America. Through these contemporary case studies, the book further deepens our understanding of the ways in which ambiances and atmospheres pervade the physical regeneration and sensory transformation of contemporary tourist destinations. Conversely, this book offers insights on the effects of tourism on everyday urban experience. By bringing together a diverse group of scholars and case studies to present a global perspective on the atmospheric production of the tourist city, this book is to serve as a valuable reference tool for researchers and undergraduate and postgraduate students with an interest in urban ambiances, tourism, cultural geography, and urban planning. Chapter 1 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons [Attribution-Non Commercial-No Derivatives (CC-BY-NC-ND)] 4.0 license.

cincinnati business courier news: *Whose 'Eyes on the Street' Control Crime?* Shannon J. Linning, John E. Eck, 2021-12-02 Jane Jacobs coined the phrase 'eyes on the street' to depict those who maintain order in cities. Most criminologists assume these eyes belong to residents. In this Element we show that most of the eyes she described belonged to shopkeepers and property owners. They, along with governments, wield immense power through property ownership and regulation. From her work, we propose a Neo-Jacobian perspective to reframe how crime is connected to neighborhood function through deliberate decision-making at places. It advances three major turning points for criminology. This includes turns from: 1. residents to place managers as the primary source of informal social control; 2. ecological processes to outsiders' deliberate actions that create crime opportunities; and 3. a top-down macro- to bottom-up micro-spatial explanation of crime patterns. This perspective demonstrates the need for criminology to integrate further into economics, political science, urban planning, and history to improve crime control policies.

cincinnati business courier news: *American Creationism, Creation Science, and Intelligent Design in the Evangelical Market* Benjamin L. Huskinson, 2020-08-19 'In this compelling and thoroughly researched book, Benjamin Huskinson demonstrates that just as there is broad diversity within evangelicalism, so too there is broad diversity among "creationists." His work on the Intelligent Design movement is superb, and he prompts me to rethink my long held conviction that Intelligent Design is merely the most recent evolutionary form of creationism. This is a very fine

book.’ —Randall Balmer, Author of *Evangelicalism in America* and writer-host of “In the Beginning”: The Creationist Controversy ‘Benjamin Huskinson's study of American creationism will be an eye-opener for those who sit on the opposite side of the evolution debate. He shows that far from being a unified assault on Darwinism, the campaign was actually a sequence of separate movements launched by rival evangelical groups competing for influence within their own community.’ —Peter Bowler, Author of *Monkey Trials and Gorilla Sermons: Evolution and Christianity from Darwin to Intelligent Design* ‘A thoughtful and careful analysis that throws as much light on the diversity of American evangelicalism as it does on Christian attitudes to evolutionary theory. Huskinson offers a smart analysis of religious anti-evolution movements which neither demonises nor ridicules but seeks to understand the tenets and beliefs of a movement far more complex and multivalent than most of us appreciate. A must-read for science communicators.’ —Philippa Levine, Walter Prescott Webb Chair in History and Ideas, University of Texas at Austin, USA This book explores the cultural history of anti-evolution efforts in the United States from 1960 to the present, refuting several popular narratives about creation science in evangelical America. Separating theological terms like “creationism” from cultural movements such as “creation science” and “intelligent design” in an evangelical marketplace of ideas, it contests assumptions that evangelical movements against evolution are homogeneous, and it argues that intelligent design is not an off-shoot of the creation-science movement. It demonstrates that the rationale of creationist groups is relational as well as ideological, showing that the social function of American creationism, which is to establish the boundaries of 'orthodox' religion, is key to understanding the competing strategies of creation-science organisations.
