craft ideas for small business: Shopkeepers and Master Artisans in Nineteenth-Century Europe Geoffrey Crossick, Heinz-Gerhard Haupt, 2016-07-01 First published in 1984. Shopkeepers and master artisans had a striking presence in the history of nineteenth-century Europe, not only in the development of industrial and urban economies, but also the fabric of social life and the politics of protest. The experience of 1848, the differing pace of various forms of nationalism and liberalism and, at the end of the century, the shift towards right-wing nationalist or Catholic political movements reflected a developing 'crisis' in the petite bourgeoisie. The essays examine the nature of this crisis and ask critical questions about the social relations of the petite bourgeoisie with the developing working classes. This book as a whole provides a fresh and integrated approach to the world of these shopkeepers and master artisans and illuminates much else besides in the social history of nineteenth-century Europe.
