When you decide to create a business account on Amazon, it's essential to understand the different types of accounts available. Amazon offers two primary account types: the Individual Account and the Professional Account.

Individual Account

The Individual Account is suitable for those who plan to sell fewer than 40 items per month. This account type does not require a monthly subscription fee; however, sellers are charged

a per-item fee for every sale made. This option is ideal for small-scale sellers or those testing the waters in e-commerce.

Professional Account

The Professional Account, on the other hand, is designed for businesses that intend to sell more than 40 items monthly. This account requires a monthly subscription fee, but it provides access to advanced selling tools, reporting features, and promotional options. It is the recommended choice for businesses looking to scale their operations and enhance their visibility on Amazon.
