cox business center tulsa ok 74103: Moving Forward in Mid-Career John Henry Weiss, 2018-01-09 Losing a job is one of the most devastating events one can experience. For trauma, it ranks up there with divorce, loss of a loved one, or permanent personal injury, and it happens more often than one would think. According to the Bureau of Labor Statistics, approximately 50,000 workers are fired or laid off each day. That is over 18,000,000 workers each year. *Moving Forward in Mid-Career* is a guide for workers who have been fired or laid off and are in process of rebuilding not only their careers, but also their personal identities independent of a job title. The main objectives of *Moving Forward* are: To address challenges that are unique to the mid-career job seekers, such as perceptions of overqualification and the need to keep with advances in technology To provide support and encouragement for workers who are in process of rebuilding their careers as individual contributors, as employees of small businesses or large corporations, or as founders/owners of a new business.
