On December 31, 2020, the world was shocked to learn about the death of hip-hop legend MF DOOM. Born in London and raised in the suburban enclave of Long Beach, New York, Daniel Dumile Jr.'s love of cartoons and comic books would soon turn him into one of hip-hop's most enigmatic, prolific, and influential figures. Sweeping and definitive, *The Chronicles of DOOM: Unraveling Rap's Masked Iconoclast* recounts the rise, fall, redemption, and untimely demise of MF DOOM. Broken down into five sections: The Man, The Myth, The Mask, The Music, and The Legend, journalist S. H. Centering the music, SKIZ deftly lays out the history of east-coast rap against DOOM's life story and dissects the personas, projects, tracks, and lyrics that led to his immortality. **epmd business as usual: Enter the Babylon System** Rodrigo Bascunan, Christian Pearce, 2010-06-18 A docu-style investigation of our fascination with the gun, from the perspective of the hip-hop generation. The 2003 shooting death of Toronto community-centre worker Kempton Howard put the spotlight on hip hop's fixation with guns. Media and police soon blamed rap music and its tales of gang life on bullet-ridden US streets for the rising use of firearms in Canadian crime. Were these songs artful accounts of a terrible truth, or a self-fulfilling prophecy? Rodrigo Bascunan and Christian Pearce have interviewed many of the major players in the hip-hop world. As publishers of an award-winning magazine of urban culture, they'd watched rap music become a scapegoat for society's much older and widely spread fascination with guns. What follows is their international adventure to deconstruct modern gun culture in all its manifestations. Bascunan and Pearce seek out hip-hop artists, illegal gun runners, firearms aficionados and manufacturers, museum curators, academics, politicians, video-game creators, activists, victims of gun violence and the family and friends left behind. Somewhere between *Fast Food Nation*, *No Logo* and a Michael Moore documentary, featuring sly sidebar material and original artwork, *Enter the Babylon System* is part outrageous journalistic pursuit and part passionate *cri de coeur* for sanity in the face of a society's obsession.

**epmd business as usual: The White Book** Mackaveli, Makavelli, 2007-10 Most of us believe in information. Some believe in truths, while others believe in magic. Information is what we can see, truth is what we feel, and magic is what we instinctively know is true. On December 4th 1981 the president of the United States issued Executive Order 12333 concerning the activities of the intelligence community. Paragraph 2.11 of that order states; No employee of the United States Government shall engage in, or conspire to engage in assassination. But upon learning of the political ties and aspirations of one charismatic young entertainer and philanthropist, certain agencies broke that order in the fall of 1996 when the star was killed in a barrage of bullets fired by a confidential informant commissioned for just such an act. After a decade of silence the files have been unsealed and the shooter will now be revealed. Some call him a hero, others say he's a villain, and some even call him a god. The White Book provides a glimpse at man's perspectives of the cultural history of the United States: assassination, government cover-ups, and his perpetual pursuit of what sets us all free: the truth.

**epmd business as usual: The End of Love** Sabrina Strings, 2024-01-30 From Playboy to Jay-Z, the racial origins of toxic masculinity and its impact on women, especially Black and “insufficiently white” women More men than ever are refusing loving partnerships and commitment, and instead seeking out “situationships.” When these men deign to articulate what they are looking for in a steady partner, they’ll often rely on superficial norms of attractiveness rooted in whiteness and anti-Blackness. Connecting the past to the present, sociologist Sabrina Strings argues that following the Civil Rights movement and the integration of women during the Second Wave Feminist movement, men aimed to hold on to their power by withholding love and commitment, a basic tenet of white supremacy and male domination, that served to manipulate all women. From pornography to hip hop, women—especially Black and “insufficiently white” women—were presented as gold diggers, props for masturbation, and side-pieces. Using historical research, personal stories, and critical analysis, Strings argues that the result is fuccboism, the latest incarnation of toxic masculinity. This work shows that men are not innately “toxic.” Nor do they hate love, commitment,

or sex. Instead, men across race have been working a new code to effectively deny loving partnerships to women who are not pliant, slim, and white as a new mode of male domination.
