dun and bradstreet business credit report: Business Loans Are Easy. . .If You Know the Secrets Alan Jewells, 2012-05-31 Introduction It has been my experience that in almost every walk of life, there are, for want of a better word SECRETS. There are secrets to business, secrets to health, secrets to developing real estate, secrets to wine making you name it. The purpose of this book is to share with you the secrets and tricks of the trade that I have learned regarding small business loans. These tricks are not grand illusions or mysteries. They are not difficult to understand. They are, like almost all secrets, simple formulas, procedure and principles that if followed, will elevate your success. Business owners have a quality about them which is unlike other individuals, whom do not aspire to own a business. In working with entrepreneurs for over two decades, I have found they literally have a sense of magic about them. The ability to win success, lose it, and win it again; the ability to have vision and see beyond others in an industry; and the ability to focus with intention and purpose unlike spouses, friends, or associates that may be around them. Thus, the purpose of this book is to help business owners make their magic happen. They are the soul of the economy. I have been in banking and lending for 23 years. The bulk of my career has been working with small business owners who are seeking commercial credit. During this time, I have realized that I have spent the majority of my time answering questions about the start-to-finish process of business loans. It doesn't matter if I am talking to a client, real estate agent, business broker, mortgage loan broker, etc. Always, the majority of the conversation is focused on the details and how to succeed in the process. The purpose of this book is to answer 90% of these questions. Neither this, nor any book, will be able to give 100% of the answers. The commercial lending industry is always changing and in many ways is subjective in how items are considered for a loan. But, I promise that this book will provide you a solid foundation to move forward in the loan process. This book is an attempt to make the process easy to understand, and at the same time provide a sufficient guide to walk you through every step. It is being written in plain English, like I was sitting across the table from you. I am intentionally trying to avoid terms which only bankers will understand, and I am intentionally not going into details which you will not need to be concerned with. I am also writing this book in a brief version that could be read in a weekend. I know your time is money, and I don't want to waste it. This book is not written, however, as a guide for larger loan transaction (those over \$10 million). The focus of this book is to aid small business owners and the professionals that serve them. Also, it is intended to be an aid, but not a Band-Aid. In other words, don't try to use this book to cover up problems or deceive lenders. Deception or fraud to lenders is the worst thing you can do. It will waste everyone's time, and could place you in a position which you will regret later. The best thing to do is always be of full disclosure. Find the right loan program, find the right lender, complete the paperwork, and move on to success. It can be as easy as 1, 2, 3 Lending is an art, and this is my interpretation. Borrowers are encouraged to look at all options and available sources. In my quest to be a productive member of the lending and business community, I am genuinely hopeful that this book will be beneficial for you, with these intentions in mind. The greatest moments of my career are when I witness clients succeeding in their business. Be focused. Be successful.

dun and bradstreet business credit report: **What the Boss Doesn't Want Us to Know** Tom Juravich, Olivia Geho, Andrew Gorry, 2025-04-01 After the labor movement faded away in the lives of most Americans, organizing is back! Workers are organizing at Starbucks, Amazon, Apple, and Google, to name just a few. But it's going to take more than picket signs and marches in front of stores and corporate headquarters to win real union contracts with real protections for these workers. To beat these firms and others like them, workers and their unions will need to learn much more about their adversaries to identify key vulnerabilities and build effective campaigns to win. *What the Boss Doesn't Want Us to Know* is the first volume to teach the basics of conducting this research and how to use it to build winning campaigns. It explores how to identify corporate decision-makers, profit centers, growth plans, and secondary targets and the kinds of power that activists can use to beat even global giants. *What the Boss Doesn't Want Us to Know* is for more than just professional researchers and campaigners. This book offers up a radical new practice for investigating employers. The authors propose a member-based, democratic approach to corporate research that will train an army of rank-and-file researchers to investigate and beat the firms that control so much of our lives. This approach has already been successfully utilized with NewsGuild of New York at the New York Times, Reuters, Gannett, the United Food and Commercial Workers at Tyson Foods, workers at Google (the Alphabet Workers Union), Apple retail workers, the Association of Flight Attendants at Delta Air Lines, and Trader Joe's United. The lessons contained in this book hold great promise to supercharge the new organizing wave currently sweeping across America.

dun and bradstreet business credit report: *Approved* Phil Winn, 2015-08-21 This straightforward road map guides you through the SBA loan approval process—from business plan

preparation to submitting a foolproof application. Few entrepreneurs are aware of the benefits and opportunities available through the Small Business Administration (SBA), mainly because there are few resources available to guide them through the process. Approved was written to fill that gap by providing a step-by-step guide to SBA loan approval—bypassing the difficulties, delays, and expenses that can complicate the procedure. After finishing Approved, you will be able to highlight strengths (and mitigate weaknesses) from a lender's perspective, provide a simple business plan identifying how the business will be profitable for the long term, and accurately prepare a business loan application that can be immediately submitted through underwriting—unlike most business applications.
