fox business channel on directv: The Political Economy of Sports Television William M. Kunz, 2020-04-23 Drawing from theories of the political economy of communication, this book offers readers a comprehensive data-rich assessment of contemporary sports television and its evolution. Providing an in-depth look at the ownership and regulation of sports television in the United States, William M. Kunz analyzes a range of platforms, networks, and sports, with particular focus on the

way ownership has become concentrated in five conglomerates: AT&T, CBS, Comcast, Disney and Fox. The end result of years of media consolidation is that broadcast networks are now married to cable and streaming services under a single conglomerate, which has implications for the cost of contracts and the negotiation of distribution deals. Examining multiple platforms, networks and sports in an all-inclusive manner, this volume documents the evolution and current state of affairs of sports television. With historic and current data on rights fees for sports television leagues and events as well as carriage fees and subscription levels for sports-related cable and satellite services, this comparative study offers critical information for students and scholars conducting research on sports television.

fox business channel on directv: Telecommunications and Business Strategy Richard A. Gershon, 2009-03-04 With today's communications industry experiencing major changes on an almost daily basis, media managers must have a clear understanding of the different delivery platforms, as well as a grasp of critical management, planning, and economic factors in order to stay current and move their organizations forward. Telecommunications and Business Strategy helps current and future media professionals understand the relationship and convergence patterns between the broadcast, cable television, telephony, and Internet communication industries. Author Richard A. Gershon examines telecommunications industry structures and the management practices and business strategies affecting the delivery of information and entertainment services to consumers. He brings in specialists to present the finer points of management and planning responsibilities. Case studies from the International Radio and Television Society (IRTS) competition supplement the main text and offer an invaluable perspective on management issues. Developed for students in telecommunications management, electronic media management, and telecommunication economics, this volume also serves as a practical reference for the professional manager.

fox business channel on directv: Can Journalism Be Saved? Rachel Davis Mersey, 2010-08-06 This book challenges the once-dominant social responsibility model and argues that a

new, individual-first paradigm is what will allow journalism to survive in today's crowded media marketplace. By some measures, it would seem that print journalism is dying. Journalism recently suffered one of its worst circulation declines in years: a drop of more than ten percent in the six month period ending September 30, 2009. The Rocky Mountain News in Denver, CO, closed its doors in 2009—after it dominated the AP awards in 2008, and was lauded for an investigative expose on unfair treatment of former nuclear workers. Even the New York Times and the Washington Post are experiencing financial trouble. But print advertising revenue still trumps online advertising revenue ten-fold. Is there hope yet for traditional journalism? This book reviews the complicated challenge facing journalism, tracing its 19th-century community-oriented origins and documenting the vast expansion of the news business via blogs and other Internet-enabled outlets, user-generated content, and news-like alternatives. The author argues that a radical shift in mindset—striving to meet each individual's demands for what he wants to know—will be necessary to save journalism.

fox business channel on directv: Corporations and Cultural Industries Scott W. Fitzgerald, 2012-01-01 Corporations and Cultural Industries: Time Warner, Bertelsmann, and News Corporation, by Scott Warren Fitzgerald, fills an important neglected area in communication and media studies through its sustained, theoretically grounded, and empirically rich analysis of three of the most important global media conglomerates of our time: Time Warner, Bertelsmann, and News Corp. The book examines how financialization processes regeared the internal operations of media corporations in a manner that pits one sector against another.

fox business channel on directv: Mind Wars Marie Jones, Larry Flaxman, 2025-09-12 From the dawn of humanity, the desire to control the thoughts, behaviors, and actions of others has been a pervasive one. From the use of coercive persuasion by ancient Egyptians and the Knights Templar to today's claims of electronic harassment and microwave bombing, we have always been at the mercy of those who wish to reprogram our thoughts and reshape our beliefs. Mind Wars includes fascinating stories of: Ancient attempts at mind control using spell casting, potions, and rituals. Cults and the use of mental reprogramming. More modern mind-control techniques, from hypnosis, drugs, and electroshock to radiation and psychic driving. The inside story of the quest for a real Manchurian Candidate—MKUltra and the CIA connection. The brave new world of electronic harassment, voice to skull technology, and gang-stalking. The inner frontier of the human mind is the last bastion of privacy. But are we really in control of our own minds? The answer may shock you!

fox business channel on directv: Religion and Revolution John Andrew Morrow, 2012-03-15 Religion and Revolution provides a comprehensive study of spiritual and political Islām in Ernesto Cardenal, the great Latin American poet, priest, and revolutionary. The work studies the relationship between Thomas Merton and Sūfism, Cardenal's connection to spiritual Islām, as well as the Sūfī sources cited in his Cosmic Canticle. The work equally examines the impact of political Islām on his ideology, focusing particularly on his trip to Iran during the very triumph of the Islāmic Revolution. Using Cardenal's "Interlude of the Revolution in Iran" as a starting point, the work provides a vivid and detailed description of the early days of the revolution as well as the ties between the Islāmic Republic of Iran and the Latin American left.

fox business channel on directv: *Hoax* Brian Stelter, 2020-08-25 The instant New York Times bestseller that reveals the collusion between Fox News and Donald Trump—with explosive new reporting covering the election and the January 6 riot. As the nation recovers from the Trump presidency, many questions remain: Why was the COVID-19 pandemic so grossly mishandled? How did we get so politically polarized? What caused white nationalist groups to come out of the shadows, and are they here to stay? The answers lie in the twisted story of the relationship between Donald Trump and Fox News. Through firsthand accounts from over 250 current and former Fox insiders, CNN anchor and chief media correspondent Brian Stelter unlocks the inner workings of Rupert Murdoch's multibillion-dollar media empire. The confessions are shocking: "We don't really believe all this stuff," a producer says. "We just tell other people to believe it." Stelter completes the story of the Trump years and looks toward the future of the network that made him. *Hoax* is a book for anyone who reads the news and wonders how we got here, and what happens next.
