**fedex small business: Sports Sponsorship** John A. Fortunato, 2013-08-14 This book focuses on how the sponsorship of sports works: the costs, the goals, evaluation and selection of the property a sponsor chooses, how to activate a sponsorship, how to create a brand association, public relations and brand image possibilities. Anything is possible in a sponsorship, it is simply what the sponsor and the property can agree to during their negotiations. There is, for example, the opportunity for product category exclusivity--no competing brand at a particular location. With the audience being harder to reach because of technology, sponsorship continues to be a viable way to obtain brand exposure and better connect a brand with a consumer. With global sponsorship spending totaling more than \$51 billion, it is clear that many companies see this as an important promotional communication strategy.
