eva air business: *Changing Planes* Stephen Holloway, 2018-08-20 Published in 1998. The airline Industry has always been dynamic, innovative and challenging. While the dynamism has in the past tended to arise on the production side, a torrent of change on the commercial side is being unleashed by regularity liberalization. The magnitude and rate of change are also greater than anything previously encountered in the industry. This work is concerned with two distinct yet related transitions. The first is general, potentially affecting the strategic management of all types of company—notably, but not exclusively, in North America, Europe, Latin America, and parts of Asia. It is a transition to a new paradigm of strategic management in the growing number of airlines which participate in liberalized and increasingly competitive markets.

Most case books have drawn their materials from North America and Europe. There are very few which reflect the local situation familiar to readers in Hong Kong. Managers will find the situations presented in the book similar to those they face in their work and will be able to learn from the discussions of the cases presented. Students will find the cases a useful means of enhancing their understanding of marketing practice in Hong Kong. The book is also serviceable to marketing professionals, who, from studying the cases, will be able to improve their marketing skills.

eva air business: *Mr Sia: Fly Past* Ken Hickson, 2014-10-28 Introducing the life and times of a legend in international aviation — Lim Chin Beng — the man they called Mr SIA. Absorbing the life and work of Lim Chin Beng is like watching a fly past of airlines and aircraft old and new. In this book, his past comes to meet you in many forms — designs, shapes, figures, photographs, episodes, places, people and you discover the connections with business, society and international aviation

today and into the future. Here's a man who was instrumental in taking the very basic components of a business — like a potter taking the clay — and creating what has become one of the world's leading brands, Singapore Airlines. But this airline 'specialist', trained as an economist, had more jobs to do. His broad range of interests — arts and sports, property and tourism — led to him being called on to do his 'national service' for Singapore. He was Ambassador to Japan for two terms and trade negotiator, chairman of the Singapore Tourism Board, Changi Airport International, Singapore Airshow, Singapore Press Holdings, Ascott Group, and ST Aerospace. Described as a quiet achiever and a visionary, this modest gentleman was not afraid to make bold decisions and take risks, even to the extent of setting up a budget airline, Valuair. Here was one man, who in his time, played many parts, on the world's stage and at home.
