Podrazik, 2024-12-16 Castleman and Podrazik present a season-by-season narrative that encompasses the eras of American television from the beginning in broadcast, through cable, and now streaming. They deftly navigate the dizzying array of contemporary choices so that no matter where you start on the media timeline, *Watching TV* provides the context and background to this multi-billion-dollar enterprise. Drawing on decades of research, the authors weave together personalities, popular shows, corporate strategies, historical events, and changing technologies, enhancing the main commentary with additional elements that include fall prime time schedule grids for every season, date box timelines, highlighted key text, and selected photos. Full of facts, firsts, insights, and exploits from now back to the earliest days, *Watching TV* is the standard chronology of American television, and reading it is akin to channel surfing through history. fox business channel live streaming: *Foxocracy* Tobin Smith, 2019-10-29 From a 14-year Fox News contributor, guest anchor, and two-time New York Times bestselling author comes an unprecedented insider's account of the Fox News playbook--the production secrets and manipulation strategies Fox News uses to influence viewers, divide families, weaponize the daily discourse of news and public opinion, and addict a core audience on right-wing rage and fear. Fox News did not start America's culture war--but they did have the manipulative and destructive genius to exploit it for billions of dollars. For the first time, a Fox News veteran exposes and diagrams the toxic strategies and tactics within the Fox News playbook that liberal and progressive candidates will be fighting against in 2020 and beyond. It is the very same playbook that Fox News used to move twelve percent of Independents to vote for Donald Trump in 2016 to produce Republican wins in the previous Democrat strongholds of Ohio, Wisconsin, and Pennsylvania. Author Tobin Smith takes readers behind the scenes of the actual production of the fair and balanced opinion panel segments that feed a ravenous audience. How are these productions rigged so that right-wing pundits always win? What techniques does Fox News use in manipulating its viewers' tribal instincts: to addict them; to activate a hatred toward partisan enemies; and to hook them on ego-gratifying feelings of intellectual and cultural superiority? *Foxocracy* is filled with never-revealed conversations with Fox News executives--including the late Roger Ailes--and opinion programming producers. It breaks down the real and often heartbreaking collateral damage among friends and family caused by the waging of an endless culture war. And it brings incendiary proof from an insider and on-air talent of Fox News's predatory audience manipulation psychology and production tactics. And perhaps even more frightening, this book reveals how that playbook is now being insidiously upgraded for maximum effect--white tribal-identity activation--on all forms of social media and means of content delivery.

May Destroy You, Stranger Things, and Lovecraft Country have in common? In the 2016-2020 time period they were created, these TV shows exemplified one (or more) of four noteworthy trends: authenticity, diversity, sexual candor, and retrospection. This is the first book to examine live action, fictional television shows produced within a five-year period through the lens of the trends that they epitomize. For each show, the following is discussed: the significance of the platform and the format; the intentions of the creators and showrunners; pertinent background information; similar shows and precedents; the storytelling approach; the cinematic form; and finally, how the show is emblematic of that particular trend. Since trends have the possibility of becoming part of the mainstream, they are important to identify as they emerge, especially for viewers who have a keen interest in narrative television shows.
