fubo for business: *The Business of Sports Betting* Becky Harris, John T. Holden, Gil Fried, 2024-02-29 With the repeal of the Professional and Amateur Sports Protection Act in 2018,

regulated sports betting has exploded in the United States, with more than half the states adopting legalized sports betting and many more poised for business. As a result, career opportunities with sportsbook operators and venues; sport leagues, teams, and sponsors; and gaming regulatory agencies abound for today's students. The arrival of *The Business of Sports Betting* introduces the first dedicated text—written by a team of academic faculty and internationally recognized experts in the field—covering every aspect of the sports betting industry. It begins with a historical overview of sports betting and key legislation that has led to legalized betting today. Included are the various types of wagers available to bettors, the sports in which betting can take place, and the industry's major stakeholders. Next, readers will examine the multiple layers of sports betting regulations in the United States and the interplay between federal laws, state authorization, and tribal governance. Regulatory frameworks in the United States, United Kingdom, and Canada are covered, as well as compliance focal points addressing anti-money laundering regulations, placement of wagers, and the Bank Secrecy Act. The book then warns of the negative aspects of the business, such as illegal sports betting, gambling scandals, and match fixing; the risks associated with illegal betting; and harm from problem gambling. To combat these risks, guidelines are presented for protecting against illegal gambling, minimizing potential harms, and ensuring integrity in sports betting. Next, students learn the how-tos of establishing, operating, and marketing a sportsbook. Traditional brick-and-mortar sportsbooks are discussed in detail, including the many facility management considerations that come with operating and maintaining a physical venue. Students also learn about the various mobile sportsbooks available today (including websites, kiosks, and phone apps), how they operate, and their connection to and interaction with physical sportsbooks. In addition, the authors present marketing and advertising strategies for acquiring customers and forging relationships with teams, leagues, and sportsbooks. Special attention is given to the American Gaming Association's Responsible Marketing Code for Sports Wagering and its compliance considerations for sportsbook operators. Sports wagering is a data-driven business, and students will see how data are generated and transmitted to sportsbook operators. Managing and protecting that data is paramount to competitive advantage, and students will learn about intellectual property protections granted to sportsbook operators. Additionally, the book discusses the proliferation and potential positive and negative impacts of gamification and virtual currencies in sports betting. Chapters are punctuated with supplemental sidebars and case studies providing real-life examples of the positive and negative impacts of sports betting. *The Business of Sports Betting* offers a comprehensive introduction to the nuances of the sports betting industry, including the key players, regulatory environment, marketing and technology drivers, and business operations of a sportsbook.

fubo for business: FIFTEEN CRITICAL INSIGHTS FOR BUSINESS OWNERS OVER FIFTY Leander Jackie Grogan, 2021-01-30 A comprehensive guide for Over-50 entrepreneurs starting a business in 2021, even if they've never owned a business before. In a knowledge-based economy, KNOWLEDGE is the indispensable ingredient that transcends all industries to separate winners from losers. *Fifteen Critical Insights For Business Owners Over Fifty* is knowledge on steroids. Let's be honest. The new normal in the workplace started long before COVID-19. Mass downsizing started in the late '90s. Over 91,500 factories and six million US manufacturing jobs were lost to globalization and outsourcing. According to Forbes, 39,200 brick-and-mortar stores shut down. AI robots are now collecting bridge tolls, cleaning hotel floors, driving trucks, performing medical analysis, and picking stocks on Wall Street. Humans have been told to go home. Over-50 workers know the score. They (along with their big salaries, health benefits, and retirement

packages) are at the top of the list to go home too. What is the solution? What can over-50 wage-earners do? The solution is simple: Find an unmet need. Meet the unmet need. Get paid for meeting the unmet need. Although the solution is simple, the execution is highly complex, full of pitfalls and booby traps, and according to the SBA, plagued by a failure rate of roughly 60%. Without the proper guidance, chances are, you're going to fail. **FIFTEEN CRITICAL INSIGHTS FOR BUSINESS OWNERS OVER FIFTY** is the game-changer that gives you a fighting chance. In this book you discover: How you, as a long-time wage-earner, must **FIRST** transform your mind. (Everything, absolutely everything having to do with decoupling from petty corporate politics and boss-pleasing activities, starts inside your head.) How your perceived disadvantages associated with age are really powerful advantages over younger competitors. (SBA stats say you have the upper hand.) How your subconscious is a brilliant, beautiful mechanism for failure. (For the sake of your success, happiness, wholeness, and healing, your subconscious will tell you a lie.) How your most trustworthy advisors have misled you about debt. How the entire marketplace is **NOT** open to your exploration. (Your work experiences, personality traits, and core competencies prohibit many market opportunities that others might find compatible.) How centuries of human evolution may cause your spouse to rebel against your entrepreneurial inclinations. How treating people the way Steve Jobs treated people will drive your new business into the ground. Truth is Knowledge that Empowers You... Columbus didn't discover America. There were no weapons of mass destruction. There are more than eight planets in our solar system. **AND...** You are **NOT** too old, too cash-strapped, too technology-deficient to start a successful business. Time to reset for the new normal. Let's **GO!!!** If you want critical, game-changing insight to start your business, click the add to cart button now.

fubo for business: Commerce in Culture Cynthia J. Brokaw, 2020-03-23 Sibao today is a cluster of impoverished villages in the mountains of western Fujian. Yet from the late seventeenth through the early twentieth century, it was home to a flourishing publishing industry. Through itinerant booksellers and branch bookshops managed by Sibao natives, this industry supplied much of south China with cheap educational texts, household guides, medical handbooks, and fortune-telling manuals. It is precisely the ordinariness of Sibao imprints that make them valuable for the study of commercial publishing, the text-production process, and the geographical and social expansion of book culture in Chinese society. In a study with important implications for cultural and economic history, Cynthia Brokaw describes rural, lower-level publishing and bookselling operations at the end of the imperial period. *Commerce in Culture* traces how the poverty and isolation of Sibao necessitated a bare-bones approach to publishing and bookselling and how the Hakka identity of the Sibao publishers shaped the configuration of their distribution networks and even the nature of their publications. Sibao's industry reveals two major trends in print culture: the geographical extension of commercial woodblock publishing to hinterlands previously untouched by commercial book culture and the related social penetration of texts to lower-status levels of the population.

fubo for business: Global Art, Culture, and Media Perspectives Hemanth Pawar, 2025-02-20 *Global Art, Culture, and Media Perspectives* offers a comprehensive exploration of the intricate relationships between art, culture, and media in our interconnected world. We delve into the profound impact of globalization on creative expressions, cultural identities, and media landscapes. Beginning with an examination of the historical and theoretical foundations of globalization, we explore how it has transformed the production, distribution, and consumption of art, culture, and media. Through diverse case studies and theoretical frameworks, we provide insights into the complexities of cultural exchange, hybridization, and resistance in the contemporary global context. We critically engage with contemporary artworks, cultural phenomena, and media artifacts to uncover the diverse manifestations of global cultural production and consumption. From international art biennials to transnational media conglomerates, we highlight how individuals and communities navigate cultural differences today. We address the power dynamics in global cultural flows, including cultural imperialism, hegemony, and appropriation, advocating for a more inclusive and equitable approach to cultural exchange. Examples of cultural activism, grassroots media initiatives, and collaborative artistic projects demonstrate how art, culture, and media foster cross-cultural dialogue and solidarity. Accessible yet intellectually rigorous, this book is essential for anyone interested in creativity, communication, and globalization.

fubo for business: Sports Media Rights in the Age of Streaming and Platformisation Tom Evens, Paul Smith, 2024-12-18 Against a backdrop of increased online distribution of media, this book provides an in-depth analysis of how the platformisation of television is both shaping and being shaped by the changing sports media market. Beginning by looking at the business models and strategies of the major stakeholders involved in the 'sports broadcasting value chain', the authors go on to focus on the challenges and opportunities posed by the growth of OTT delivery for the regulation of sports broadcasting in several key areas, including copyright law and piracy; competition issues linked to the buying, selling and distribution of premium sports content; and legislation designed to safeguard coverage of certain national and international sporting events for free-to-air television. Key areas of continuity, such as the persistence of national/regional markets; the importance attached to premium sports rights by rival delivery platforms as a source of 'market power'; and the need to update key areas of policy and regulation in order to address challenges posed by the use of OTT delivery, are also discussed. This book makes use of a range of international and regional examples and case studies, not least the Olympic Games and the FIFA World Cup, and identifies different strategies employed in the buying, selling and distribution of sports rights for all major parties in the sports media value chain, including new entrant OTT players, traditional pay-TV operators, public service broadcasters, and a range of international sports organizations. Providing a complete assessment of the relevance and future effectiveness of key areas of policy and regulation in sports media distribution, this book is recommended reading for advanced students and researchers of Sports Media, Sports Management, and Media Industries.
