gogo business: Performance Management Transformation Elaine D. Pulakos, Mariangela Battista, 2020-02-28 No other business process has endured such great debate as performance

management. Viewed as a critical cornerstone for organizational alignment, it is often met with anxiety and confusion by both managers and employees. For over 50 years, strategies such as cascading goals and employee ranking have tried to add value to performance management with little success. But in recent years, new ideas have transformed the field into a less formal process designed to encourage employee behaviors that actually drive performance. Performance Management Transformation takes a practical approach to the current and future state of performance management across the organizational landscape. Case studies from Toyota, Patagonia, Medtronic, GoGo Inflight, and AbbVie, alongside research and commentary by thought leaders in the field, showcase how organizations are taking control and redesigning their performance management processes to address their specific organizational goals, strategies, needs, and preferences.

gogo business: Events and Sustainability Andrew Smith, Judith Mair, 2022-09-05 This book examines the links between events and sustainability, with a particular focus on how festivals and events contribute to making places more inclusive, resilient and sustainable. Previous sustainability research in events often focused on reducing the negative environmental impacts, with a corresponding lack of consideration of socio-economic dimensions. More recently, research has begun to consider events in relation to a range of economic and social issues, highlighting the growing importance of examining events through a critical lens. This book adopts a critical and broader approach to event sustainability, arguing that scholars should examine how events might contribute to sustainable development, rather than merely exploring how individual events could be made more sustainable. Accordingly, the contributors to this edited book address how events might change attitudes and behaviours by promoting sustainable lifestyles, communities and technologies. Following a detailed introduction, the book features 16 chapters written by scholars from across the world. The chapters in this book were originally published as a special issue of the Journal of Sustainable Tourism.

gogo business: Shooters Ben Black, 2012-05-01 The last days of the 20th Century saw a major crackdown on Manchester's warring gangs. But soon new groups emerged, with names like the Young Gooch Crew, the Moss Side Bloods, the Old Trafford Crips, the Longsight Street Soldiers and the Fallowfield Mad Dogs. Younger and even more violent than their predecessors, they baited their rivals with explicit grime tracks and internet videos and unleashed a wave of bloodshed. SHOOTERS tells the story of these gangs and their various alliances, feuds and crimes. Using detailed court testimony and inside accounts, it gives a rare insight into the lethal conflict between the Pitt Bulls and the Longsight Crew; tells how two underworld armourers dubbed Bobby the Gun and the Merchant of Death supplied the gunmen with reactivated weapons; chronicles the infamous bloodbath at the Brass Handles pub in Salford, when two would-be assassins were themselves executed; and reveals the inner workings of the drug-dealing L\$\$ posse. It also recounts the story of Gooch leaders Colin Joyce and Stephen Amos, whose arrest for murder led to one of Britain's biggest-ever trials; pieces together the events behind the notorious killings of teenagers such as Jessie James, Giuseppe Gregory and Louis Brathwaite; examines the methods of the audacious armed robbers of Salford; and describes the rise of lethal Asian gangs and their influence in the neighbouring towns of Bolton and Oldham. SHOOTERS is a powerful account of one city's ongoing struggle with the law of the gun.

gogo business: Frankly Speaking ... Charles Chupp, 2008-05-02 Hugh Chupp and Thelma Brownlee tied the nuptial knot on May 30th, 1925 at De Leon in Comanche County Texas. Hugh was 26 years old, an eighth grade graduate, a bronc buster and a horse trainer. Thelma was 17, a junior at De Leon High School and had an ambition to be a glamorous flapper. That was the extent of their schooling, but the subsequent sixteen years would provide education. Rumors that their wedding was of the shotgun variety were proven baseless when their first son didn't see daylight until November 22nd of 1929. The roaring twenties were in session, even in rural De Leon, and the good times rolled until Black Friday, October 25th, 1929 — and the arrival of Charles Elvin a month later. He did not cause the Great Depression, nor did the Great Depression cause him. Times got tough but Hugh and Thel were blessed with yet another son, March 15th, 1933, as they moved from one rundown shelter to another, usually when rent was due. Benny Wayne was born December 18th, 1939, and Hugh and Thel ceased production. Hugh haunted the corner on Texas Street where day labor was chancy and often non-existent. He watched as the Houston and Texas Central freight train rolled through town and envied the hobos who adorned the empty cars and went on down the tracks looking for the Promised Land. To his credit he resisted the urge to climb aboard and leave his troubles behind. Despite the hard times and the gloomy forecast for the future, the little family managed to stay together when it would have been easier to guit. As a matter of fact Hugh and Thel shared their shelter and food with Nancy Brownlee, Thel's widowed mother. Tom Brokaw's "Greatest Generation" was hanging tough in the eye of the hurricane. "When the going gets tough, the tough get going" is one version of an old adage and the Chupp family managed to weather the storm. Grit and good humor was a major contributor to their will to hang on, and when good times crept across America in the early days of 1941 they managed to move up a rung on the ladder of success. A stroke of good fortune elevated the Chupps from day labor to tenant farming. The story is an eyewitness account, recounted here for your amusement and edification by the eldest son of Hugh and Thel. And, the story may sound familiar—you may have lived it too.

gogo business: The Bright Continent Dayo Olopade, 2014-03-04 "For anyone who wants to understand how the African economy really works, The Bright Continent is a good place to start" (Reuters). Dayo Olopade knew from personal experience that Western news reports on conflict, disease, and poverty obscure the true story of modern Africa. And so she crossed sub-Saharan Africa to document how ordinary people deal with their daily challenges. She found what cable news ignores: a continent of ambitious reformers and young social entrepreneurs driven by kanju—creativity born of African difficulty. It's a trait found in pioneers like Kenneth Nnebue, who turned cheap VHS tapes into the multimillion-dollar film industry Nollywood. Or Ushahidi, a technology collective that crowdsources citizen activism and disaster relief. A shining counterpoint to conventional wisdom, The Bright Continent rewrites Africa's challenges as opportunities to innovate, and celebrates a history of doing more with less as a powerful model for the rest of the world. "[An] upbeat study of development in Africa . . . The book is written more in wonder at African ingenuity than in anger at foreign incomprehension." —The New Yorker "A hopeful narrative about a continent on the rise." —The New York Times Book Review
