- Introduction to Greensboro Business Journal
- History and Evolution
- Key Features of the Journal
- Impact on Local Businesses
- Networking and Growth Opportunities
- Conclusion
- Frequently Asked Questions

## History and Evolution

The Greensboro Business Journal has a rich history that reflects the growth and development of Greensboro as a significant hub for commerce and industry. Founded in the early 1980s, the publication began as a small newsletter aimed at informing local businesses about pertinent news and opportunities. Over the years, it has evolved into a comprehensive source of business news, analysis, and information that caters to a diverse readership ranging from entrepreneurs to corporate executives.

Initially focusing on local events, the journal gradually expanded its scope to include in-depth articles, interviews with business leaders, and coverage of economic trends affecting the region. The evolution of technology and digital media has also influenced the Greensboro Business Journal, leading to the integration of online platforms and social media to reach a broader audience. Today, it stands as a key player in the dissemination of business-related information in Greensboro and beyond.

# Key Features of the Journal

The Greensboro Business Journal is known for its diverse range of features that cater to the interests of business professionals. Some of the key features include:

- **Industry News:** The journal provides up-to-date news on various industries, including finance, healthcare, technology, and manufacturing, helping readers stay informed about market trends.
- **Profiles and Interviews:** The publication regularly features profiles of influential business leaders and entrepreneurs, offering insights into their strategies and experiences.
- **Economic Reports:** In-depth economic analyses are presented, focusing on local and regional economic indicators, which are essential for business planning.
- **Events Calendar:** The journal maintains a calendar of local business events, networking opportunities, and seminars that encourage community engagement.
- **Opinion Pieces:** Expert opinions and editorial pieces provide perspectives on current business challenges and opportunities, fostering discussion among readers.

These features not only inform readers but also inspire them to engage with the local business community actively. By covering a wide array of topics, the Greensboro Business Journal serves as a vital resource for anyone looking to navigate the business environment in the area.

## Impact on Local Businesses

The Greensboro Business Journal plays a crucial role in shaping the local business landscape. Through its reporting, it highlights the achievements of local companies, thereby promoting business success stories that can motivate others. This visibility can lead to increased partnerships, collaborations, and investments in the area.

Moreover, the journal serves as a platform for advocacy, bringing attention to issues that affect local businesses. Whether it's economic challenges, regulatory changes, or workforce development, the Greensboro Business Journal provides a voice for the business community, enabling stakeholders to address these concerns effectively.

# Networking and Growth Opportunities

Networking is a significant aspect of business success, and the Greensboro Business Journal facilitates this through various initiatives. The publication organizes events, seminars, and workshops that bring together business leaders, entrepreneurs, and aspiring professionals. These gatherings provide valuable opportunities for attendees to connect, share ideas, and explore potential collaborations.

In addition to events, the journal also encourages community involvement through its online platforms, where businesses can engage with each other and share resources. This supportive environment fosters growth and innovation, helping local businesses to thrive in a competitive market.

## Conclusion

In summary, the Greensboro Business Journal is more than just a publication; it is an integral part of the Greensboro business ecosystem. Its comprehensive coverage of local business news, economic trends, and networking opportunities enriches the community and supports the growth of businesses in the region. As Greensboro continues to evolve as a business hub, the role of the Greensboro Business Journal will remain vital in informing and connecting the local business community.

## Q: What is the Greensboro Business Journal?

**greensboro business journal:** **The Complete Idiot's Guide to Journalism** Christopher K. Passante, 2007-09-04 Breaking news! This is like having J-school in a book. In recent years, news reporting has dramatically changed. While the basic “who, what, when, where, and why” of journalism is still relevant, aspiring journalists are now asking “how?” The 21st century of blogs, instant internet access, and 24-hour news shows with minute-by-minute updates has made reporting a whole new—and very competitive—business. Here, a newspaper veteran answers every question about the new world of journalism, and explores every possibility for success. • Covers TV, radio, magazine, newspaper, e-zine, podcast, and internet reporting • Includes a resource list of media outlets, schools, and university programs • Explores different angles for approaching hard news, entertainment, weather, or sports

**greensboro business journal:** **Equity, Growth, and Community** Chris Benner, Manuel Pastor, 2015-10-09 A free ebook version of this title is available through Luminos, University of California Press’s new open access publishing program for monographs. Visit [www.luminosoa.org](http://www.luminosoa.org) to learn more. In the last several years, much has been written about growing economic challenges, increasing income inequality, and political polarization in the United States. This book argues that lessons for addressing these national challenges are emerging from a new set of realities in America’s metropolitan regions: first, that inequity is, in fact, bad for economic growth; second, that bringing together the concerns of equity and growth requires concerted local action; and, third, that the fundamental building block for doing this is the creation of diverse and dynamic epistemic (or knowledge) communities, which help to overcome political polarization and help regions address the challenges of economic restructuring and social divides.

**greensboro business journal:** **Sawdust in Your Pockets** Eric Medlin, 2023-10-15 During the twentieth century, three industries—tobacco, textiles, and furniture—dominated the economy of North Carolina. The first two are well known and documented, being the subject of numerous books, movies, and articles. In contrast, the furniture industry has been mostly ignored by historians, although, at its height, it was nearly as large and influential as these other two concerns. Furniture companies employed thousands of workers and shaped towns, culture, and local life from Hickory to Goldsboro. *Sawdust in Your Pockets: A History of the North Carolina Furniture Industry* is the first survey of the state’s furniture industry from its cabinetmaking beginnings to its digital present.

Historian Eric Medlin shows how the industry transitioned from high-quality, individual pieces to the affordable, mass-produced furniture of High Point and Thomasville factories in the late nineteenth century. He then traces the rise of the industry to its midcentury peak, when North Carolina became the largest furniture-producing state in the country. Medlin discusses how competition, consolidation, and globalization challenged the furniture industry in the late twentieth century and how its businesses, workers, and professionals have adapted and evolved to this day.

**greensboro business journal: North Carolina Triad Beer: A History** Richard Cox, David Gwynn & Erin Lawrimore, 2021 Now centered on Greensboro, Winston-Salem and High Point, the Triad was home to one of North Carolina's earliest brewery operations in the Moravia community of Bethabara. Easy access by rail and then highways attracted national breweries, and starting in the 1960s, the region began producing beer for companies like Miller and Schlitz. The passage of the Pop the Cap legislation led to an explosion of craft beer and brewpubs, and in 2019, three of the top five producing craft breweries in North Carolina were anchored in the area. Local beer historians Richard Cox, David Gwynn and Erin Lawrimore narrate the history of the Triad brewing industry, from early Moravian communities to the operators of nineteenth-century saloons and from Big Beer factories to modern craft breweries. --

**greensboro business journal: News Media Yellow Book** , 2006

**greensboro business journal: Women's Entrepreneurship in Former Yugoslavia** Ramo Palalić, Emil Knezović, Léo-Paul Dana, 2020-07-01 This book explores the historical, current and future prospects of women's entrepreneurial activities in the former Yugoslavia, a region that is currently in a process of transition from socialism to a free-market economy. Each chapter presents the past, present and future of female entrepreneurship for each individual country. Some of the questions that the book answers include: Have women been historically and culturally ignored, marginalized, or systematically forbidden to run their own businesses? What are the status quo and future prospects for this group? And, is the investment climate conducive to women-owned businesses? The book provides an extensive overview of female entrepreneurship, its promotion and development, the role of the state, and other key factors that shape the female entrepreneurship ecosystem. Readers will gain an overall perspective on the essential issues and challenges to women's entrepreneurship, entrepreneurial initiatives and innovation, policy structures and institutional support to female entrepreneurship in the region.

**greensboro business journal: Handbook of Research on Approaches to Alternative Entrepreneurship Opportunities** Dantas, José Guilherme Leitão, Carvalho, Luísa Cagica, 2020-02-25 In some cases, technology-based projects have revolutionized the way of living by contributing to job and wealth creation. These types of ventures, regardless of their outstanding relevance, are the exception rather than the norm in that they account for only a very small percentage of entrepreneurial activity. Although not ignoring these important ventures, the main goal of this title is to fully unleash the wide potential of the entrepreneurial activity, exploring and highlighting the somewhat hidden part, which is ultimately responsible for the largest part of new businesses and, as a consequence, for the wellbeing of millions of people virtually everywhere. The Handbook of Research on Approaches to Alternative Entrepreneurship Opportunities is a collection of innovative research on the methods and applications of entrepreneurial activity beyond the traditional boundaries of entrepreneurship research. While highlighting topics including collective business, organizational performance, and generational differences, this book is ideally designed for entrepreneurs, developers, researchers, business managers, industry professionals, academicians, and students seeking to draw attention to distinctive and multifaceted types of entrepreneurship.

**greensboro business journal: Balance of Payments Adjustment** Augustine C. Arize, Theologos H. Bonitsis, Ioannis Kallianiotis, Krishna Kasibhatla, John Malindretos, 2000-01-30 The five parts of this collection of essays systematically and thoroughly examine the two competing theories of balance of payments and adjustment, namely the Keynesian and the Monetary approaches. Each part deals with specific aspects of the two approaches. Part I surveys the theories behind these two

approaches, looking at the presuppositions, main theory, and policy recommendations which they include. Part II examines the empirical literature and describes the numerous models which have been proposed. Part III critiques the two theories on their assumptions, policy advice and empirical modeling. Part IV compares and contrasts the two views, both theoretically and empirically. Empirical studies on different countries are performed to emphasize the differing set of accounts and variables of the two approaches. Part V considers the approaches in a regime of flexible exchange rates. Scholars, students and researchers will find this collection of great help in understanding the two approaches to balance of payments and adjustment.

**greensboro business journal:** *Statement of Disbursements of the House* United States. Congress. House, 2001 Covers receipts and expenditures of appropriations and other funds.

**greensboro business journal:** Statement of Disbursements of the House , 2005

**greensboro business journal: Democracy, Dialogue, and Community Action** Spoma Jovanovic, 2012-11-01 On November 3, 1979, five protest marchers in Greensboro, North Carolina, were shot and killed by the Ku Klux Klan and the American Nazi Party. There were no police present, but television crews captured the shootings on video. Despite two criminal trials, none of the killers ever served time for their crimes, exposing what many believed to be the inadequacy of judicial, political, and economic systems in the United States. Twenty-five years later, in 2004, Greensboro residents, inspired by post-apartheid South Africa, initiated a Truth and Reconciliation Commission (TRC) to take public testimony and examine the causes, sequence of events, and consequences of the massacre. The TRC was to be a process and a tool by which citizens could feel confident about the truth of the city's history in order to reconcile divergent understandings of past and current city values, and it became the foundation for the first Truth and Reconciliation Commission in the United States. Spoma Jovanovic, who worked alongside other community members to document the grassroots effort to convene the first TRC in the United States, provides a resource and case study of how citizens in one community used their TRC as a way to understand the past and conceive the future. This book preserves the historical significance of a people's effort to seek truth and work for reconciliation, shows a variety of discourse models for other communities to use in seeking to redress past harms, and demonstrates the power of community action to promote participatory democracy.

**greensboro business journal:** Showroom City John Joe Schlichtman, 2022-06-07 A unique and engaging account of local urban decision-making within the globalizing world High Point, North Carolina, is known as the "Furniture Capital of the World." Once a manufacturing stronghold, most of its furniture factories have closed over the past forty years, with production shipped off to low-wage countries. Yet as manufacturing left, the city tightened its hold on a biannual global exposition that serves as the world's furniture fashion runway. At the High Point Market, visitors from more than one hundred nations traverse twelve million square feet of meticulous design. Downtown buildings—once courthouses, movie theaters, post offices, and gas stations—are now chic showroom spaces, even as many sit empty between each exposition. In Showroom City, John Joe Schlichtman applies an ethnographic lens to the global exposition's relationship with High Point after it defeated rival Chicago in the 1960s and established itself as the world's dominant furniture center. In recent decades, following trends in global finance, private equity firms were increasingly behind downtown High Point's real estate transactions, coordinated by buyers far removed from the region. Then, in one massive transaction in 2011, a firm funded by Bain Capital purchased every major showroom building, and the majority of downtown real estate was under one owner. Showroom City is a story of exclusionary growth and unchecked development, of a city flailing to fill the void left by its dwindling factories. But beyond that Schlichtman engages the general lessons behind both High Point's deindustrialization and its stunning reinvention as a furniture fashion, merchandising, and design node. With great nuance, he delves deeply to reveal how power operates locally and how citizens may affirm, exploit, influence, and resist the takeover of their community.
