As corporations across the United States folded, however, small businesses on the Qualla Boundary of the Eastern Band of Cherokee Indians (EBCI) continued to thrive. In this rich ethnographic study, Courtney Lewis reveals the critical roles small businesses such as these play for Indigenous nations. The EBCI has an especially long history of incorporated, citizen-owned businesses located on their lands. When many people think of Indigenous-owned businesses, they stop with prominent casino gaming operations or natural-resource intensive enterprises. But on the Qualla Boundary today, Indigenous entrepreneurship and economic independence extends to art galleries, restaurants, a bookstore, a funeral parlor, and more. Lewis's fieldwork followed these businesses through the Great Recession and against the backdrop of a rapidly expanding EBCI-owned casino. Lewis's keen observations reveal how Eastern Band small business owners have contributed to an economic sovereignty that empowers and sustains their nation both culturally and politically.

**gatlinburg business for sale: *Gone Dollywood*** Graham Hoppe, 2018-03-15 Dolly Parton isn't just a country music superstar. She has built an empire. At the heart of that empire is Dollywood, a 150-acre fantasy land that hosts three million people a year. Parton's prodigious talent and incredible celebrity have allowed her to turn her hometown into one of the most popular tourist destinations in America. The crux of Dollywood's allure is its precisely calibrated Appalachian image, itself drawn from Parton's very real hardscrabble childhood in the mountains of east Tennessee. What does Dollywood have to offer besides entertainment? What do we find if we take this remarkable place seriously? How does it both confirm and subvert outsiders' expectations of Appalachia? What does it tell us about the modern South, and in turn what does that tell us about America at large? How is regional identity molded in service of commerce, and what is the interplay of race, gender, and class when that happens? In *Gone Dollywood*, Graham Hoppe blends tourism studies, celebrity studies, cultural analysis, folklore, and the acute observations and personal reflections of longform journalism into an unforgettable interrogation of Southern and American identity.
