Robert Danon, Vikram Chand, Guglielmo Maisto, Amanda Pletzt, 2023-08-29
It is well known that intercompany financing arrangements have become increasingly subject to scrutiny in contexts of applying transfer pricing and anti-tax avoidance-related rules. With contributions by more than 50 leading global transfer pricing and international tax experts from law firms, multinational enterprises, academia, and tax administrations, this book provides unparalleled insights into the application of the Arm's Length Principle to different types of financial transactions, application of anti-avoidance rules to various intra-group financial arrangements as well as the business value creation process and the dispute management landscape that underlie intra-group financial transactions. With in-depth analysis of the legislation and market developments that fuel the diverse range of financing options available to market participants – and loaded with practical examples and case studies that cover the legal and economic considerations that arise when analysing intra-group finance – the contributors examine such topics and issues as the following: national anti-abuse rules applicable to financial transactions; tax treaty issues; role of credit ratings and impact of implicit support; loans, cash pooling, financial guarantees; transfer pricing aspects of performance guarantees; 'mezzanine' financing; considerations for crypto financing; impact of crises situations such as COVID-19; how treasury operations can be structured in a group and the decision-making process involved; how hedges offset or mitigate risks; how to apply the arm's length principle to factoring and captive insurance transactions; comparability analysis for various transactions; special considerations for transactions carried out by a permanent establishment; EU state aid and its interaction with transfer pricing rules; dispute prevention and resolution tools under the OECD, UN, and EU frameworks; and developing countries' perspectives, focusing on Brazil, India, and South Africa. Given the challenges facing taxpayers and tax authorities alike, this book will prove an immeasurably valuable reference guide to support tax practitioners, tax administrations, and tax scholars in developing standards and policies in dealing with intra-group financing issues.

group business: The Leadership Pipeline Ram Charan, Stephen Drotter, James L. Noel, 2001-07-19

The Leadership Pipeline stellt ein Modell vor, mit dem man künftige Führungspersonen erkennen kann, ihre Kompetenz bewertet, ihre Entwicklung plant, sie ausbildet und trainiert und dann die Ergebnisse dieser Bemühungen ermittelt. Die Autoren kombinieren hier ein erprobtes Verfahren zur Entwicklung von Führungsqualitäten mit einem Modell zur Nachfolgeregelung bei Führungspositionen, das Unternehmen in die Lage versetzt, Führungskräfte für Schlüsselpositionen in allen Unternehmensbereichen aufzustellen. Ein aktueller Leitfaden zur Sicherung des Nachschubs in der Führungsriege. Die Autoren sind anerkannte Experten auf diesem Gebiet: Ram Charan ist selbständiger Consultant und Leadership Coach; er war bereits für die Harvard und Kellogg Business School tätig. Steve Drotter ist CEO von Drotter Human Resources und ehemaliger Senior Vice President der Chase Manhattan in New York. group business: *Designing World Class Corporate Strategies* Keith Ward, Andrew Kakabadse, Cliff Bowman, 2005-05-12 *Designing World Class Corporate Strategies* considers the key role of corporate centres within very large, primarily multi-business organisations. At present, these corporate centres are under attack as not creating and value and merely adding cost to their groups. The authors have developed a corporate configurations model which demonstrates four ways in which corporate centres can add significant value. However this requires the centre to act in specific ways depending on the external environment in which the group is operating. *Designing World Class Corporate Strategies* is highly readable, with a large number of illustrative examples included in the text. Academic references and theoretical underpinnings are placed in the final chapter of the book, so that the book is focused on the professional market for strategy and creating value.
