In line with the post-2015 Millennium Development Goals (MDG) and Sustainable Development Goals (SDG) agenda, emphasizing integrated development approaches for the slum poor, the upland poor, the dryland poor, the coastal poor, and the flood-affected wetland poor, would also bring the environment and poverty agenda closer. The book emerged from a cooperation of the Asian Development Bank (ADB) with the Institute of Southeast Asian Studies (ISEAS) in partnership with experts from research institutes and think-tanks in the Asian region.
