What if we teachers, guides, mentors, parents and peers started to notice these seemingly unconnected happenings and, indeed, started to engineer and encourage them to happen? Using the mantra 'every adult is a careers teacher', The Ladder will inspire teachers to explicitly link their subject area to students' futures, both in school and outside its walls, and support them in doing so. Bernie draws upon his 30-year career in education and business development to bring clarity, focus and ideas to educators as to how they can best start students on their own ladders to success. Ultimately, in writing this book, Bernie's aim is to bring young people's futures to life with some personal skills reflection and forward planning designed to help them as they embark on their fulfilling futures - regardless of their upbringing, academic achievements or ethnic background.
