hp business rewards: The HP Way David Packard, 2013-10-15 In the fall of 1930, David Packard left his hometown of Pueblo, Colorado, to enroll at Stanford University, where he befriended another freshman, Bill Hewlett. After graduation, Hewlett and Packard decided to throw their lots in together. They tossed a coin to decide whose name should go first on the notice of incorporation, then cast about in search of products to sell. Today, the one-car garage in Palo Alto that housed their first workshop is a California historic landmark: the birthplace of Silicon Valley. And Hewlett-Packard has produced thousands of innovative products for millions of customers throughout the world. Their little company employs 98,400 people and boasts constantly increasing sales that reached \$25 billion in 1994. While there are many successful companies, there is only one Hewlett-Packard, because from the very beginning, Hewlett and Packard had a way of doing things that was contrary to the prevailing management strategies. In defining the objectives for their company, Packard and Hewlett wanted more than profits, revenue growth and a constant stream of new, happy customers. Hewlett-Packard's success owes a great deal to many factors, including openness to change, an unrelenting will to win, the virtue of sustained hard work and a company-wide commitment to community involvement. As a result, HP now is universally acclaimed as the world's most admired technology company; its wildly successful approach to business has been immortalized as The HP Way. In this book, David Packard tells the simple yet extraordinary story of his life's work and of the truly exceptional company that he and Bill Hewlett started in a garage 55 years ago.

hp business rewards: Accelerating Performance Colin Price, Sharon Toye, 2016-12-14 Transform your organization into a dynamic catalyst for success Accelerating Performance is not just another "warm and fuzzy" change management book—it's a practical, comprehensive, data-driven action plan for picking up the pace and achieving more. Co-written by one of the authors of Beyond Performance, this book draws on a combination of empirical research and decades of experience advising global companies to show you how to reduce time to value by building and changing momentum more quickly than your competitors. The META framework (short for Mobilize, Execute, and Transform with Agility) offers advice for leading change at four levels: strategy, the organization, teams, and individuals. In addition to step-by-step guidance toward assessment, planning, and implementation, the book offers: A diagnostic tool for leaders, teams, and organizations to assess their starting place, and highlight the specific areas needed to improve the

ability to accelerate performance. A detailed look at the factors proven to create drag—and drive—at each of the four levels: strategy, organizations, teams, and individuals. An exploration of the 39 differentiating actions that organizations can combine as dictated by their strategy and context into a winning recipe. A closer look at the practices of 23 “superaccelerators,” a global (and perhaps unexpected) mix of companies that have demonstrated a consistent ability to accelerate performance. A single taste of success is all it takes to spark change, but the hard work of following through requires constant vigilance—and a plan. Learn how to capture that drive, bottle it, and use it to sustain motivation, inspiration, and achievement. Deliver at the highest level, and then turn around and do even better next time. Accelerating Performance gives leaders a step-by-step framework for taking action and transforming their organizations, teams, and even themselves—starting today.
