**how to start juicing business:** *The Juice Truck* Zach Berman, Ryan Slater, Colin Medhurst, 2017-06-06 From Zach Berman and Ryan Slater--the longtime friends behind Vancouver's wildly successful Juice Truck--comes an accessible, informative and fresh book on the popular and healthy juicing and cleansing lifestyle. There are lots of juice books out there, but few get it right. In *The Juice Truck*, Zach and Ryan make it their mission to make juicing approachable, fun, imaginative and healthy. Their obsession with juicing began when they took a trip to the Himalayas and Nepal, which quickly turned from a journey of self-discovery into a full-blown juice-seeking adventure once they were introduced to the most delicious, locally-sourced juices they had ever tried. They decided then to create the same community and street side accessibility to juice in Vancouver that had inspired them throughout their travels. Alongside colourful and eye-catching photographs and illustrations that match their company's brilliant branding, *The Juice Truck* incorporates advice from health coach Colin Medhurst, and outlines the tools you need to make the perfect juice, the science behind juicing, and the benefits of each specific ingredient. The book dives into the juice cleanse and tells you everything you need to know about this health trend, giving you the top 10 tips to consider before embarking on a cleanse. It debunks other cleanses and outlines which ones are actually good for you and how to cleanse in a safe and proper way. The authors also break down and profile their favourite superior foods, tinctures, supplements and boosters. Once the reader is perfectly equipped, Zach and Ryan provide over 110 mouth-watering drink recipes from nut milks, smoothies, juice and hot drinks, as well as easy-to-make and delicious plant-based food recipes that can be eaten alone or accompany the many drink recipes. Interspersed throughout the recipes are case studies by experts in their fields on subjects like meditation, sleep, yoga, fiber, microbes, food allergies, sensitivities and intolerance, and the nervous system. In addition to appealing to both loyal and first-time juicers everywhere (as well as the dedicated following of the Juice Truck in Vancouver), this book will be the definitive juicing guide for people who live a healthy, active lifestyle, and those who would like to transition to a healthier diet. This is not your average juice book--it's a combination of storytelling, nutrition and tried-and-true recipes that deserves a place in every juicer's kitchen.

**how to start juicing business:** *Linking Urban and Rural Tourism* Susan L Slocum, Carol Kline, 2017-06-16 Destinations rely on regional strategies to support and enhance the tourism product through regional partnerships and integration. Integrated tourism is defined as tourism that is explicitly linked to the economic, social, cultural, natural and human structures of the region in which it occurs. Integrated tourism has evolved to include numerous meanings and definitions, but generally includes a vertical business or industry approach. The first of its kind, this book applies a more inclusive approach to integration by providing insight into inclusive regional development strategies that support both the needs of urban and rural areas whilst enhancing the tourist experience, supporting the positive impacts of tourism and mitigating the negative. Regional studies tend to portray either an urban or rural focus without acknowledging that often these spaces constitute joint governance structures, similar historical and cultural roots, and economic dependencies. Sustainable tourism promotes sourcing locally, such as using rural agricultural products in urban tourism experiences. Furthermore, innovative rural marketing strategies linking tourism heritage, attractions, food and drink trails, and artisans with urban visitors are emerging. Including theoretical and applied research and international case studies, this will be a valuable resource to academics, students and practitioners working in tourism development and regional policy.

**how to start juicing business: How to Lose 30 Pounds (Or More) In 30 Days With Juice Fasting** Robert Dave Johnston, 2013-09-18 It's time to obliterate the excess weight from your body and get healthier, leaner and better than ever before. And you can accomplish most, if not all, of these objectives in just 30 days with the mighty and life-changing discipline of juice fasting. A major breakthrough in your life and health is not only possible but imminent as juice fasting can help you heal and lose weight faster than any other method. Why postpone the achievement of your goals for another year? How long has it been since you felt really good about your weight and health? How many times have you said to yourself: This year I am going to lose the weight, only to end up postponing the process? Have you ever stayed awake at night thinking and worrying about your health? Wouldn't you like to look at yourself in the mirror and see those pounds gone once and for all? Who could put a price on this kind of triumph and freedom? I asked myself these very same questions for a very long time as obesity and binge-eating ravaged my life. Until I got sick and tired of being sick and tired and decided to take action; until I made a commitment to myself to do whatever it takes to lose the weight and restore my health. And, as I discovered, nothing works like juice fasting to burn massive amounts of fat quickly and fill the body with potent, healing, anti-aging nutrients. Here's the great news: Within 30 days, you could be 30 pounds lighter (or more), and on your way to finally reaching your cherished objectives. From my personal experience as well as from coaching many clients and others in their juice fasts, it is common to lose from half a pound to three and even four pounds daily while juice fasting. In *How to Lose 30 Pounds (Or More) in 30 Days With Juice Fasting*, I give you a straightforward guide to juice fasting from A to Z, including topics such as: \* Understanding the power of fruits and vegetables and their nutrients \*Preparing a standard juicing recipe for maximum weight loss and detoxification \*How to prepare the juice with a home juicer or extractor \*How much juice to drink daily and how often \*Detox symptoms that you are likely to experience and tips to overcome them \*Motivational messages to guide you through the process \* Instructions on how to break the fast appropriately \*The importance of making permanent eating-habit changes after the fast \* Why it's normal to gain a few pounds after the fast and how to

minimize it \* How a clean diet can help the body reshape itself and maintain a lower weight And much more! If you are brand new to juice fasting, or even if you have fasted before, this book will give you lots of practical tools, encouragement and insight into this unique discipline. Today, more than ever, that leaner, healthier body that you desire is now within your grasp.

**how to start juicing business: The Science of Intelligent Achievement** Isaiah Hankel, 2018-02-05 Smart strategies for pragmatic, science-based growth and sustainable achievement. The Science of Intelligent Achievement teaches you the scientific process of finding success through your most valuable assets: · Selective focus – how selective are you with who and what you let into your life? · Creative ownership – how dependent are you on others for your happiness and success? · Pragmatic growth – how consistently and practically are you growing daily? First, this book will show you how to develop your focus by being very selective with where you spend your mental energy. If you've failed to reach an important goal because you were distracted, misinformed, or overcommitted, then you know the role focus and selectivity play in achievement. Second, you will learn how to stop allowing your happiness and success to be dependent on other people and instead, start taking ownership over your life through creative work. Finally, you will learn the art of changing your life through pragmatic decisions and actions. Self-improvement is not the result of dramatic changes. Instead, science has shown that personal and professional change is initiated and sustained by consistent, practical changes. To grow, you must leverage the power of micro-decisions, personal responsibility, and mini-habits. Your own biology will not let you improve your life in any other way. What do you currently value? What are working to attain? Have you been taught to value your job title or your relationship with some other person above all else? Have you been convinced that the most valuable things in life are your paycheck, the number of people who say 'hello' to you at the office, and the number of people who say 'I need you' at home? Or, have you become so passive in what you value that you let anyone and anything into your life, as long as whatever you let in allows you to stay disconnected from the cold hard truth that when

things really go wrong in your life, the only person who will be able to fix it and the only person will be responsible for it is you. If so...welcome to fake success. Passivity, dependence, and the sacrifice of practical thinking and personal responsibility to fuzzy, grandiose ideals and temporary feelings — these are markers of fake success. Intelligent Achievement, on the other hand, is not a moving target. It's not empty either. Instead, it's sturdy, full, and immovable. It's not something that's just handed to you. It's not something you're nudged to chase or coerced into wanting. Intelligent Achievement comes from within you. It's a collection of values that are aligned with who you are—values you have to protect and nurture. These values do not increase your dependence on other people and things. Instead, they relieve you of dependence. This kind of achievement is something that you have a part in building from the ground up—you know what's in it—you chose it, someone else didn't choose it for you. Achieving real success means you must focus, create, and grow daily. The Science of Intelligent Achievement will show you how.
