jwoww business: Hijacking the Runway Teri Agins, 2014-10-09 A fascinating chronicle of how celebrity has inundated the world of fashion, realigning the forces that drive both the styles we covet and the bottom lines of the biggest names in luxury apparel. From Coco Chanel's iconic tweed suits to the miniskirt's surprising comeback in the late 1980s, fashion houses reigned for decades as the arbiters of style and dictators of trends. Hollywood stars have always furthered fashion's cause of seducing the masses into buying designers' clothes, acting as living billboards. Now, forced by the explosion of social media and the accelerating worship of fame, red carpet celebrities are no longer content to just advertise and are putting their names on labels that reflect the image they—or their stylists—created. Jessica Simpson, Jennifer Lopez, Sarah Jessica Parker, Sean Combs, and a host of pop, sports, and reality-show stars of the moment are leveraging the power of their celebrity to become the face of their own fashion brands, embracing lucrative contracts that keep their images on our screens and their hands on the wheel of a multi-billion dollar industry. And a few celebrities—like the Olsen Twins and Victoria Beckham—have gone all the way and reinvented themselves as bonafide designers. Not all celebrities succeed, but in an ever more crowded and

clamorous marketplace, it's increasingly unlikely that any fashion brand will succeed without celebrity involvement—even if designers, like Michael Kors, have to become celebrities themselves. Agins charts this strange new terrain with wit and insight and an insider's access to the fascinating struggles of the bold-type names and their jealousies, insecurities, and triumphs. Everyone from industry insiders to fans of Project Runway and America's Next Top Model will want to read Agins's take on the glitter and stardust transforming the fashion industry, and where it is likely to take us next.

jwoww business: The Growth Dilemma Annie Wilson, Ryan Hamilton, 2025-06-10 Porsches for soccer moms? Finance bros in Patagonia? Drive-through Starbucks? What happens when your growth strategy creates conflict between customers? You always want to grow your brand, but there's a dilemma: the more customer segments you target, the harder it becomes to avoid conflict between them. Sometimes attempts to court new customers can feel like a betrayal to your loyal base. Sometimes new customer segments rush to adopt your products and in the process unwittingly alienate your existing customers. And sometimes your growth strategy flies in the face of what your customers have decided your brand means to them. Brands must navigate these incompatibilities in order to achieve sustainable growth—or face losing more customers than they gain. Marketing experts and professors Annie Wilson and Ryan Hamilton show you how to manage this challenge with a fresh, simple framework for growing without imploding, helping you choose whom to target, how to avoid conflict between segments, and, crucially, what to do when the sensibilities of one segment clash with those of another. Wilson and Hamilton illustrate their framework with dozens of real-world cases. How did Supreme lose its coveted reputation among skateboarders? How did a software update cost Apple a devoted customer base? What did Gucci do when the cast of Jersey Shore started toting its handbags around? And why are Crocs even a thing? With depth, clarity, and a bit of humor, Wilson and Hamilton give you a better way to strategically select new target markets and manage multiple customer segments. The Growth Dilemma is your road map to brand growth.

jwoww business: Millennials Killed the Video Star Amanda Ann Klein, 2021-01-04 Between 1995 and 2000, the number of music videos airing on MTV dropped by 36 percent. As an alternative to the twenty-four-hour video jukebox the channel had offered during its early years, MTV created an original cycle of scripted reality shows, including Laguna Beach, The Hills, The City, Catfish, and Jersey Shore, which were aimed at predominantly white youth audiences. In *Millennials Killed the Video Star* Amanda Ann Klein examines the historical, cultural, and industrial factors leading to MTV's shift away from music videos to reality programming in the early 2000s and 2010s. Drawing on interviews with industry workers from programs such as The Real World and Teen Mom, Klein demonstrates how MTV generated a coherent discourse on youth and identity by intentionally leveraging stereotypes about race, ethnicity, gender, and class. Klein explores how this production cycle, which showcased a variety of ways of being in the world, has played a role in identity construction in contemporary youth culture—ultimately shaping the ways in which Millennial audiences of the 2000s thought about, talked about, and embraced a variety of identities.

jwoww business: The Rules According to JWOWW Jenni "JWOWW" Farley, 2012-01-24 Are you stuck in a relationship with a stage-five clinger? Maybe your date is more like a man-whore than Mr. Smooth. Do guys only call you late at night when they're looking for a quick hookup? The Rules

And now she's laying down the rules she has learned and lived by on smushing, smackdowns, and standing up for yourself. JWOWW's advice on what she wears to get a guy's attention at the club, how she keeps her man in check, how she maintains her sick body, and what she does to satisfy her guy will have you with a man ready to wife-up in no time.

jwoww business: Media-Ready Feminism and Everyday Sexism Andrea L. Press, Francesca Tripodi, 2021-03-01 Feminism can reflect the cultural moment, especially as media appropriate and use feminist messaging and agenda to various ends. Yet media can also push boundaries, exposing audiences to ideas they may not be familiar with and advancing public acceptance of concepts once considered taboo. Moreover, audiences are far from passive recipients, especially in the digital age. In Media-Ready Feminism and Everyday Sexism, Andrea L. Press and Francesca Tripodi focus on how audiences across platforms not only consume but also create meanings—sometimes quite transgressive meanings—in engaging with media content. If television shows such as *Game of Thrones* and *Jersey Shore* and dating apps such as *Tinder* are sites of persistent everyday sexism, then so, too, are they sites of what Press and Tripodi call media-ready feminism. In developing a sociologically based conception of reception that encompasses media's progressive potential, as well as the processes of domestication through which audiences and users revert to more limited cultural schemas, Press and Tripodi make a vital contribution to gender and media studies, and help to illuminate the complexity of our current moment.
