is olan mills photography still in business: The ^ALinguistic Individual Barbara Johnstone, 1996-06-27 Linguists usually discuss language or dialects in terms of groups of speakers. Believing that patterns can be seen more clearly in the group than the individual, researchers often present group scores with no indication of the variation within the group. Even though linguists acknowledge that no two individuals speak alike, few study individual variation and voice. Barbara Johnstone makes a case for the individual's importance and idiosyncrasies in language and linguistics. Using theoretical arguments and discourse analysis, along with linguistic examples from a variety of speakers and settings, Johnstone illustrates how speakers draw on linguistic models associated with class, ethnicity, gender, and region, among others, to construct an individual voice. In doing so Johnstone shows that certain important questions in sociolinguistics and pragmatics can only be answered with reference to individual speakers. Johnstone's study is important both for the understanding of speech as expressive of self, and for the study of variation and mechanisms of linguistic choice and change.

Eskridge Jr, Robin Fretwell Wilson, 2018-11-22 The rights of lesbian, gay, bisexual, and transgender persons (LGBT) are strongly contested by certain faith communities, and this confrontation has become increasingly pronounced following the adjudication of a number of legal cases. As the strident arguments of both sides enter a heated political arena, it brings forward the deeply contested question of whether there is any possibility of both communities' contested positions being reconciled under the same law. This volume assembles impactful voices from the faith, LGBT advocacy, legal, and academic communities - from the Human Rights Campaign and ACLU to the National Association of Evangelicals and Catholic and LDS churches. The contributors offer a 360-degree view of culture-war conflicts around faith and sexuality - from *Obergefell* to *Masterpiece Cakeshop* - and explore whether communities with such profound differences in belief are able to reach mutually acceptable solutions in order to both live with integrity.

Welang, 2022-10-17 Ubiquitous triple consciousness frameworks address the limitations of W.E.B Du Bois' seminal double consciousness concept by emphasizing a third gendered lens, a definite consciousness that legitimizes the rich complexities of the black American female experience. In *The Affirmative Discomforts of Black Female Authorship: Rethinking Triple Consciousness in Contemporary American Culture*, the author rethinks this methodology by examining an interesting assemblage of contemporary black female authors (Roxane Gay, Beyoncé and Issa Rae) across four disciplines (history, literature, music and television) whose contemporary multimedia works are engaging with a third lens the author conceptualizes as rupture. This rupture, a simultaneous embrace and rejection of racial and gendered experiences that are affirmative but also contradictory, unsettling and ultimately unresolved, problematizes hegemonic notions of identity and boldly moves towards a potential shift, a shift on the cusp of profound rethinking and reimagination.

is olan mills photography still in business: There When We Needed Him Judith Kilpatrick,

2007-10-01 Supreme Court Justice Thurgood Marshall said of Wiley Austin Branton that he “devoted his entire life to fighting for his own people.” *There When We Needed Him* is the story of that fight, which began with Branton's being one of the first black students at the University of Arkansas Law School and which took him to the highest levels of business and government. From his private law practice in Pine Bluff, Arkansas, Branton became, along with Marshall, counsel for the Little Rock Nine in their 1957 efforts to integrate Central High School. Under his leadership of the Atlanta-based Voter Education Project, more than six hundred thousand black voters were registered from 1962 to 1965. He later became executive secretary of President Lyndon Johnson's Council on Equal Opportunity and special assistant to attorneys general Nicholas Katzenbach and Ramsey Clark. He provided leadership to the United Planning Organization, the Alliance for Labor Action, and the NAACP; and he was dean of Howard University Law School. At Branton's funeral in 1988, former Arkansas senator David Pryor described him as “quiet and unassuming. . . . It is his humility and desire to always put the goals of the civil rights movement before self which probably accounts for the fact that [he] was not more famous than he was.” The influence of this quiet and unassuming man continues to be felt decades later.
