new lufthansa business class: **Buying the Big Jets** Paul Clark, 2017-07-14 Selecting the right aircraft for an airline operation is a vastly complex process, involving a multitude of skills and considerable knowledge of the business. **Buying the Big Jets** has been published since 2001 to provide expert guidance to all those involved in aircraft selection strategies. This third edition brings the picture fully up to date, representing the latest developments in aircraft products and best practice in airline fleet planning techniques. It features a new section that addresses the passenger experience and, for the first time, includes regional jet manufacturers who are now extending their

product families into the 100-plus seating category. Overall, the third edition looks at a broader selection of analytical approaches than previously and considers how fleet planning for cost-leader airlines differs from that of network carriers. Buying the Big Jets is an industry-specific example of strategic planning and is therefore a vital text for students engaged in graduate or post-graduate studies either in aeronautics or business administration. The book is essential reading for airline planners with fleet planning responsibility, consultancy groups, analysts studying aircraft performance and economics, airline operational personnel, students of air transport, leasing companies, aircraft value appraisers, and all who manage commercial aircraft acquisition programmes and provide strategic advice to decision-makers. new lufthansa business class: On the Road and Off the Record with Leonard Bernstein Charlie Harmon, 2019-06-18 Celebrating Leonard Bernstein's centenary with an intimate and detailed look at the public and private life of the Maestro written by his former assistant. Foreword by Broadway legend Harold Prince. An affectionate portrait of an eminent musician who was driven by demons. —Kirkus Reviews Harmon's personable and warm account of what it was like to work for one of the twentieth century's musical giants casts new light on Bernstein and his world. —Booklist This multifaceted perspective gives readers plenty of salacious gossip paired with insight into Leonard Bernstein's remarkable artistic achievements later in life. —Library Journal On the Road is a colorfully written, unforgettably entertaining and unputdownable book, and is available just in time for LB's 100th birthday. Unreservedly recommended. —Fanfare Magazine Leonard Bernstein reeked of cheap cologne and obviously hadn't showered, shaved, or slept in a while. Was he drunk to boot? He greeted his new assistant with What are you drinking? Yes, he was drunk. Charlie Harmon was hired to manage the day-to-day parts of Bernstein's life. There was one additional responsibility: make sure Bernstein met the deadline for an opera commission. But things kept getting in the way: the centenary of Igor Stravinsky, intestinal parasites picked up in Mexico, teaching all summer in Los Angeles, a baker's dozen of young men, plus depression, exhaustion, insomnia, and cut-throat games of anagrams. Did the opera get written? For four years, Charlie saw Bernstein every day, as his social director, gatekeeper, valet, music copyist, and itinerant orchestra librarian. He packed (and unpacked) Bernstein's umpteen pieces of luggage, got the Maestro to his concerts, kept him occupied changing planes in Zurich, Anchorage, Tokyo, or Madrid, and learned how to make small talk with mayors, ambassadors, a chancellor, a queen, and a Hollywood legend or two. How could anyone absorb all those people and places? Because there was music: late-night piano duets, or the Maestro's command to accompany an audition, or, by the way, the greatest orchestras in the world. Charlie did it, and this is what it was like, told for the first time.

new lufthansa business class: A Walking Guide Alan S. Cowell, 2014-06-10 Joe Shelby -- a brilliant and daring combat reporter for a big magazine he refers to as the comic -- is an Englishman who is at home only in the world's trouble spots -- Chechnya, Rwanda, Gaza -- where he is face-to-face with murder, starvation, war crimes and the sound of bullets whistling past his ears. Now, after a life of triumphs, he must confront challenges he never imagined: lost love, incurable illness and failure both in his work and on his beloved high mountains. His partner is glamorous French photographer and former fashion model Faria Duclos: beautiful, cool, sexy and wildly intoxicated by taking incredible risks as she puts her life in jeopardy to capture with her battered Leica camera both war's killers and their victims -- a woman high on danger who, in her own way, loves Joe. Eva Kimberly is a privileged white Kenyan about to marry her childhood sweetheart, Jeremy Davenport, when Joe and Faria explode into her life at a fancy lawn party given by her wealthy father. At once the story of a complex love triangle and a novel about risk taking and politics, Alan Cowell's A Walking Guide uses an ostensibly simple mountain climbing expedition to explore the more complex inner struggles of its main character, Joe Shelby. On one level it is the story of a fit young war correspondent, fresh from the conflicts of the Middle East and Africa, coming to terms with a diagnosis of terminal disease that could cripple and kill him even as he walks high in the mountains. And as he walks, he is challenged to draw on reserves of courage far greater than those required by combat reporting. Confronted with hard trails and worsening weather in the rugged hills of the English Lake District, he must decide whether to pursue his goal -- England's highest peak -- or abandon the attempt. He presses on, with perilous consequences. A Walking Guide is also the story of tangled emotions involving two women whose relationships with Joe Shelby offer competing definitions of love as passion and trusting companionship. Shelby veers between photographer Duclos and white African entrepreneur Eva Kimberly, finding ultimately that his illness makes crucial choices for him. Finally, A Walking Guide is the story of a man adrift from his roots, seeking to find identity after a life bridging the Atlantic and living in the danger spots of the world. This novel brings Cowell into the rarefied company of such writers as Graham Greene and John le Carré, in a book that brilliantly dissects the convergence of love, risk and danger.
