munich lufthansa business lounge: Great Catastrophe Thomas de Waal, 2015-01-02 The destruction of the Armenians of the Ottoman Empire in 1915-16 was the greatest atrocity of World War I. Around one million Armenians were killed, and the survivors were scattered across the world. Although it is now a century old, the issue of what most of the world calls the Armenian Genocide of

1915 is still a live and divisive issue that mobilizes Armenians across the world, shapes the identity and politics of modern Turkey, and has consumed the attention of U.S. politicians for years. In *Great Catastrophe*, the eminent scholar and reporter Thomas de Waal looks at the aftermath and politics of the Armenian Genocide and tells the story of recent efforts by courageous Armenians, Kurds, and Turks to come to terms with the disaster as Turkey enters a new post-Kemalist era. The story of what happened to the Armenians in 1915-16 is well-known. Here we are told the history of the history and the lesser-known story of what happened to Armenians, Kurds, and Turks in the century that followed. De Waal relates how different generations tackled the issue of the Great Catastrophe from the 1920s until the failure of the Protocols signed by independent Armenia and Turkey in 2010. Quarrels between diaspora Armenians supporting and opposing the Soviet Union broke into violence and culminated with the murder of an archbishop in 1933. The devising of the word genocide, the growth of modern identity politics, and the 50th anniversary of the massacres re-energized a new generation of Armenians. In Turkey the issue was initially forgotten, only to return to the political agenda in the context of the Cold War and an outbreak of Armenian terrorism. More recently, Turkey has started to confront its taboos. In an astonishing revival of oral history, the descendants of tens of thousands of Islamized Armenians, who have been in the shadows since 1915, have begun to reemerge and reclaim their identities. Drawing on archival sources, reportage and moving personal stories, de Waal tells the full story of Armenian-Turkish relations since the Genocide in all its extraordinary twists and turns. He looks behind the propaganda to examine the realities of a terrible historical crime and the divisive politics of genocide it produced. The book throws light not only on our understanding of Armenian-Turkish relations but also of how mass atrocities and historical tragedies shape contemporary politics.

munich lufthansa business lounge: *The David Shirazi Collection* Joel C. Rosenberg, 2014-05-01 The complete 3-book espionage and spy thriller series that has sold 700,000 copies! This product bundles three of Joel Rosenberg's blockbuster thrillers featuring David Shirazi together into one e-book. *The Twelfth Imam* As the apocalyptic leaders of Iran call for the annihilation of Israel and the U.S., CIA operative David Shirazi is sent into Tehran with one objective: use all means necessary to disrupt Iran's nuclear weapons program—without leaving American fingerprints, and without triggering a regional war. At extreme personal risk, Shirazi undertakes his assignment. A native Farsi speaker whose family escaped from Iran in 1979, he couldn't be better prepared for the mission. But none of his training has prepared Shirazi for what will happen next. An obscure religious cleric is suddenly hailed throughout the region as the Islamic messiah known as the Mahdi or the Twelfth Imam. News of his miracles, healings, signs, and wonders, spread like wildfire, as do rumors of a new and horrific war. With the prophecy of the Twelfth Imam seemingly fulfilled, Iran's leaders prepare to strike Israel and bring about the End of Days. Shirazi must take action, but the clock is ticking. *The Tehran Initiative* The world is on the brink of disaster, and the clock is ticking. Iran has just conducted its first atomic weapons test. Millions of Muslims around the world are convinced their messiah—known as the Twelfth Imam—has just arrived on earth. Israeli leaders fear Tehran, under the Twelfth Imam's spell, will soon launch a nuclear attack that could bring about a second Holocaust and the annihilation of Israel. The White House fears Jerusalem will strike first, launching a preemptive attack against Iran's nuclear facilities that could cause the entire Middle East to go up in flames, oil prices to skyrocket, and the global economy to collapse. With the stakes high and few viable options left, the president of the United States orders CIA operative David Shirazi and his team to track down and sabotage Iran's nuclear warheads before Iran or Israel can launch a devastating first strike. *Damascus Countdown* All eyes are on the Middle East. Israel has successfully launched a first strike on Iran, taking out all of their nuclear sites and six of their nuclear warheads—and causing The Twelfth Imam to order a full-scale retaliation. U.S. President William Jackson threatens to support a U.N. Security Council resolution condemning the Jewish State for unprovoked and unwarranted acts of aggression. Meanwhile, CIA operative David Shirazi has infiltrated the Iranian regime and intercepted information indicating that two Iranian nuclear

warheads survived the attack and have been moved to a secure and undisclosed location. In danger not only from the ongoing missile strikes on Iran but also from the increasingly hostile and suspicious governments of multiple countries, David and his team are in a race against time to find the remaining nuclear warheads before disaster strikes.
