E-commerce has taken the world by storm, allowing businesses to sell products directly to consumers via online platforms. This model includes various forms such as B2C (business-to-consumer), B2B (business-to-business), C2C (consumer-to-consumer), and C2B (consumer-to-business). Each of these categories serves distinct purposes:

- **B2C:** Retail businesses selling products directly to consumers, such as Amazon and eBay.

- **B2B:** Companies providing goods or services to other businesses, such as Alibaba.

popular online business: Social Media Marketing Adidas Wilson , What Is Social Media Engagement? It is the number of shares, likes, and comments. A big following is great, but an engaged audience is better than a big one—quality over quantity. There are certain metrics used to measure social media engagement. But often, you may need to encourage them a little. Here are a few tricks to help you with that. Assess your engagement: see how many followers you have, the average number of shares and comments you get on each post and any other relevant numbers. Make sure you continue monitoring these numbers. Choose your strategy: every company has different goals and strategies are, thus, different. Your strategy will depend on your goals. This could be educating the audience, collecting feedback, changing the public perception, etc. Understand your audience: it is not easy to engage people you do not know.
