**quotes on teamwork in business:** *Light a Fire under Your Business* Tom Pandola, James W. Bird, 2015-04-07 Two firefighters-turned-management-consultants provide organizations with an innovative way to transform executives into inspirational leaders. Tom Pandola and Jim Bird discovered that the management and leadership principles they relied on for success and survival during their firefighting careers also lead to success in business—and in life. The book they wrote on the basis of that realization is for people who face challenges in their business or personal lives, for those who feel a sense of purpose is missing in their work, and, especially, for every senior management team in search of a winning corporate culture. The book is organized in three sections that teach business leaders and others how to improve processes, empower employees, and transform a business culture. Principles are demonstrated using actual firefighting experiences—the authors' practical classroom—to bring lessons to life. Then, those same principles are applied to business situations to demonstrate their real-world application. Throughout, the book shares a success formula that will provide managers and other senior executives with effective planning skills, the vision to solve problems, and the ability to inspire the individuals within an organization to become the best at what they do.

**quotes on teamwork in business:** *Value-creation in Middle Market Private Equity* John A.

Lanier, 2016-02-17 Value-creation in Middle Market Private Equity by John A. Lanier holistically examines the ecosystem relationships between middle market private equity firms and their portfolio companies. Small business is the job creating engine in the US economy, and consequently is a prime target market for private equity investment. Indeed, private equity backs over six of each 100 private sector jobs. Both the small businesses in which private equity firms invest, and the private equity firms making the investments, face inter- and intra-company fiduciary leadership challenges while implementing formulated strategy. The architecture of each private equity firm-portfolio company relationship must be uniquely crafted to capitalize on the projected return on investment that is memorialized in the investment thesis. Given the leveraged capital structure of portfolio companies, the cost of a misstep is problematic. Individual private equity professionals are typically members of multiple investment teams for the firm. Not only may each investment team have its own unique leadership style, but its diverse members have to assimilate styles for each team in which they participate relative to a specific portfolio company. Acquisitions and their subsequent integrations add exponential complexity for both private equity investment and portfolio company leadership teams; indeed, cultural integration ranks among the most chronic acquisition obstacles. Accordingly, the stakeholders of private equity transactions do well to embrace leadership best practices in applying value-creation toolbox best practices. The perspectives of both the private equity investment team and the portfolio company leadership team are within the scope of these chapters.
