Negotiations Manon Schonewille, Felix Merks, 2011 Although negotiations are an ever-present part of our everyday lives, many of us know little as to why we sometimes get our way, while on other occasions we walk away feeling frustrated that we did not reach the desired agreement or we may have left too much value on the table. Knowing how to gain the upper hand to get what is necessary from a negotiation is particularly important when the stakes are high, especially in a situation where a negotiator feels the options and choices are limited yet something must be achieved. A negotiation can cause a lot of stress, making the stakes even higher and the negotiation dynamics more difficult to manage. New communication technologies play an increasingly important role in day-to-day negotiations. It is important to be aware of these situations in order to know what works (and what does not work) and how to maximize the outcome in such negotiation situations. The contributions in this book - as well as the exclusive interview with Chris Voss, an international business negotiator - capture the key concepts and the most important learning points on how to gain the upper hand in high stake negotiations. The book deals in a concise way with proven tools, such as recognizing escalation mechanisms and the techniques on how to de-escalate or deal with emotions. Readers will gain access to crucial insights from professionals, like the FBI or US army negotiators, who are experienced in negotiating under extreme pressure in situations where lives are literally on the line. The book covers newer developments, such as involving a deal facilitator and conducting e-negotiations. The book also includes an example of role-playing a negotiation in a conflict situation, where the stakes are high and a lot of emotions are present on both sides of the table.

stakes in business: TrumpNation Timothy L. O'Brien, 2015-10-20 The extensively researched biography that goes beyond the hype to “separate Trump the reality from Trump the reality show” (USA Today). Now with a new introduction by the author, this entertaining look inside the world of Donald Trump is chock full of rip-roaring anecdotes, jaw-dropping quotes, and rigorous research into the business deals, political antics, curious relationships, and complex background of the forty-fifth US president. Granted unprecedented access, Timothy L. O'Brien traveled across the country and up and down the East Coast with Trump on his private jet, wheeled around Palm Beach with him in his Ferrari, and spent hours interviewing him in his home, in his office, and on the golf course. He met with the entrepreneur's closest friends and most aggressive rivals, while compiling a treasure trove of Trumpisms from the Donald himself: Trump on the public's enduring fascination with Trump: “There is something crazy, hot, a phenomenon out there about me, but I'm not sure I can define it and I'm not sure I want to.” Trump on naysayers: “You can go ahead and speak to guys who have four-hundred-pound wives at home who are jealous of me, but the guys who really know me know I'm a great builder.” Trump on the art of self-promotion: “You might as well tell people how great you are, because no one else is going to.” Ultimately, when O'Brien's research revealed that Trump's business record and annual spot on the Forbes 400 list of richest Americans might be more fantasy than reality, he—like so many others who have dared to tangle with the former host of The Apprentice—found himself in a courtroom. In a new introduction, O'Brien reflects on the recent wave of TrumpMania and updates readers on what it's like to depose one of the world's most litigious businessmen—and win.
