tree pruning business: Cass Turnbull's Guide to Pruning, 2nd Edition Cass Turnbull, 2010-06-01 Nothing about pruning is obvious; in fact, most of it is downright counterintuitive, says expert Cass Turnbull. This second edition of her definitive illustrated guide adds 40 percent new material, with more coverage of different kinds of trees, shrubs, and ground covers and how to prune them for health and aesthetics. tree pruning business: Man in the Water David Housewright, 2024-06-25 When his wife finds the body of an Army veteran in the lake, it is inevitable that former cop, now unofficial P.I. Rushmore McKenzie will get enmeshed in a complicated case of possible murder. It all starts with the body in the water—on what should be the first boat day of the season, McKenzie's wife Nina finds a dead Army vet. As the dock owner and the insurance companies claim that it was suicide, despite the deceased, E.J. Woods, having no obvious reason to kill himself, his widow starts acting suspiciously. McKenzie finds himself pulled into the fight when Naveah, the victim's daughter, convinced her

father was murdered, asks him to investigate. Further complicating the situation are uncooperative boaters, allegations of PTSD, and the simple fact that there was no reason for E.J. to be in the water. McKenzie's investigation unearths not only the petty squabbles surrounding the lake and its dock, but details of her father's past that Naveah is perhaps better off not knowing. With Nina haunted by dreams of the body and the legal fight over cause of death becoming increasingly nasty, McKenzie may be the only one interested in finding justice for E.J.— and uncovering the truth before another person dies.

tree pruning business: *The Fragile Edge* Suzanne Chazin, 2021-08-31 A sniper attack propels Latino cop Jimmy Vega on a twisting hunt for a predator who stalks the unforgiving landscape of immigrant America. Probing beyond the hardships of the journey north, Suzanne Chazin's taut and timely novel explores the perils that await the hopeful once they reach their destination—and the price they must pay to survive . . . Jimmy Vega straddles two worlds - the hardscrabble Bronx where

he grew up as the child of a Puerto Rican single mother, and the upscale, mostly white, suburban county where he now serves as a police detective. Yet despite his sense of never belonging, he's a good and decent cop—even if the multi-million-dollar civil suit he's facing says otherwise. His own troubles take a back seat when Vega learns that a court officer has just been shot and killed while transporting a controversial judge across the courthouse lot. Vega quickly surmises that the judge was the real target. She's earned the ire of alt-right hate groups for going soft on undocumented defendants accused of petty crimes. The sole witness to the sniper's identity is a Guatemalan girl traveling by bus from the border. And now, she's vanished—melted into a community fearful of the police. Her days are numbered if Vega can't get to her before the killer does. But as Vega and his girlfriend, Adele Figueroa, head of the local outreach center, probe deeper into the shadowy farm community where immigrants toil in horrifying conditions, they tap into a chilling discovery. One that offers Vega a stark choice: keep quiet and be lauded as a hero, knowing he let the real villain go. Or risk everything for an ugly truth no one wants him to find . . .
