## **Overview of the Toranomom Hills Business Tower**

The Toranomom Hills Business Tower stands tall at 180 meters, making it one of the tallest buildings in Tokyo. Completed in 2014, this skyscraper is a key part of the Toranomom Hills development, which aims to create a new urban center that blends work and lifestyle seamlessly. The tower consists of 36 floors dedicated primarily to office space, with the top floors offering stunning views of the Tokyo skyline.

As a prominent fixture in Tokyo's Minato ward, the business tower is strategically located near major transportation hubs, making it an attractive location for both local and international companies. The building features cutting-edge technology, ensuring that it meets the demands of today's fast-

paced business environment. Furthermore, the Toranomon Hills Business Tower has become synonymous with innovation and excellence, attracting a diverse range of tenants from various industries.

## Architectural Design and Features

The architectural design of the Toranomon Hills Business Tower is a remarkable blend of modern aesthetics and functionality. Designed by the esteemed architectural firm Mori Building Co., the tower is characterized by its sleek, glass façade that reflects the surrounding cityscape.

### Innovative Design Elements

Several key features contribute to the distinctive look and functionality of the tower:

- **Glass Facade:** The extensive use of glass allows natural light to flood the interior spaces, creating a bright and inviting work environment.
- **Flexible Office Spaces:** The floor plans are designed to be adaptable, allowing tenants to customize their office layouts according to their specific needs.
- **Green Spaces:** The building incorporates landscaped terraces and roof gardens, providing green spaces for employees to relax and recharge.

The design of Toranomon Hills Business Tower not only prioritizes aesthetics but also emphasizes sustainability and energy efficiency, aligning with modern architectural trends.

### Business Amenities and Services

One of the defining characteristics of the Toranomon Hills Business Tower is its comprehensive range of amenities and services tailored for businesses. The tower is equipped with state-of-the-art facilities that enhance productivity and employee satisfaction.

## Office and Meeting Facilities

Some of the key amenities include:

- **Conference Rooms:** The tower features multiple meeting rooms equipped with advanced audiovisual technology, suitable for hosting presentations and conferences.
- **Coworking Spaces:** Flexible coworking areas allow for collaboration and networking among tenants and other professionals.
- **Business Support Services:** On-site administrative and IT support services are available to assist tenants with their operational needs.

These amenities are designed to foster a collaborative environment, encouraging innovation and creativity among businesses housed within the tower.

## Sustainability Initiatives

The Toranomom Hills Business Tower is committed to environmental sustainability, implementing various initiatives to minimize its ecological footprint. The building has been awarded several certifications for its green design and practices.

## Green Building Certifications

Key sustainability features include:

- **Energy-efficient Systems:** The tower employs advanced HVAC systems and energy management technologies to reduce energy consumption.
- **Water Conservation:** Rainwater harvesting and water-efficient fixtures are integrated to minimize water usage.
- **Indoor Air Quality:** The use of non-toxic materials and advanced ventilation systems ensures a healthy indoor environment for occupants.

These initiatives not only contribute to a healthier planet but also enhance

the quality of life for those working within the tower.

## Accessibility and Transportation

Accessibility is a crucial factor for businesses, and the Toranomom Hills Business Tower excels in this regard. The building is strategically located near several major public transportation options, making it easy for employees and clients to access the facility.

### Transportation Options

The tower is conveniently located near:

- **Subway Stations:** Proximity to multiple subway lines provides quick access to various parts of Tokyo.
- **Bus Services:** Nearby bus stops connect the tower with other key areas in the city.
- **Proximity to Airports:** The tower is well-connected to both Haneda and Narita airports, facilitating international business travel.

This excellent transportation infrastructure enhances the overall appeal of the Toranomom Hills Business Tower for businesses looking to establish a presence in Tokyo.

## Impact on the Local Economy

The presence of the Toranomom Hills Business Tower has significantly impacted the local economy by attracting a diverse range of businesses and enhancing the area's profile as a prime business district. The influx of companies has led to job creation and increased economic activity in the region.

### Economic Contributions

The economic contributions of the tower can be summarized as follows:

- **Job Creation:** The tower supports thousands of jobs, both directly and indirectly, through its tenants and associated services.
- **Business Growth:** The concentration of businesses fosters collaboration and innovation, contributing to the growth of the local economy.
- **Increased Property Values:** The development has driven up property values in the surrounding area, benefiting local real estate markets.

Overall, the Toranomon Hills Business Tower plays a vital role in shaping the economic landscape of Tokyo, making it a critical asset for the city.

## Conclusion

In summary, the Toranomon Hills Business Tower stands as a beacon of modern business practices and architectural excellence in Tokyo. With its innovative design, comprehensive amenities, commitment to sustainability, and strategic location, it has become a pivotal part of the city's business ecosystem. As Tokyo continues to evolve, the significance of the Toranomon Hills Business Tower will undoubtedly grow, making it a focal point for businesses looking to thrive in a competitive environment.

**toranom hills business tower: Proceedings of the 18th Conference of the Associated Research Centers for the Urban Underground Space** Wei Wu, Chun Fai Leung, Yingxin Zhou, Xiaozhao Li, 2024-08-29 This book presents peer-reviewed articles from the 18th Conference of the Associated Research Centers for the Urban Underground Space (ACUUS 2023) held in Singapore from November 1 to 4, 2023. It highlights new opportunities and challenges in underground space use amid a re-focus on exploring and developing the underground space as a strategic resource and part of sustainable development. The new frontier presents unprecedented opportunities for simultaneously improving urban infrastructure, urban livability, and resilience. At the same time, special challenges exist in developing underground space—both from a human design perspective and in terms of complexity, 3D planning, system integration, technical, and life cycle costs. Equally important is the need to move from the creation of underground space as a haphazard, last resort solution to a well-planned, and integrated use of underground space that can serve the needs of society for future generations as well as our own. As the world emerges from the COVID-19 pandemic and is faced with the many challenges in climate resilience, the works presented in this book provide a timely opportunity and an excellent forum for engaging discussions and exchanges among planners, designers, engineers, researchers, and policy makers.

**toranomon hills business tower: Best Tall Buildings: CTBUH Awards** Antony Wood, Steven Henry, The Images Publishing Group, 2016-11-30 The Council on Tall Buildings and Urban Habitat (CTBUH) is the world's foremost authority on tall buildings. Best Tall Buildings chronicles the annual awards process, in which the CTBUH recognizes outstanding tall buildings and design innovations that advance the potential of integrated sustainability, economic productivity, and social prosperity in cities across the world. More than an awards book, this volume serves as a global overview of tall building construction and activity in a given year, providing in-depth description of the buildings' design and significance, accompanied by stunning images, detailed drawings, and plans. This book provides fascinating and inspiring reading for all those interested in the planning, design, and construction of tall buildings. CTBUH bestows 11 awards annually, four of which are given to buildings in various geographical regions: Americas, Asia & Australasia, Europe, and Middle East & Africa. The title of overall Best Tall Building Worldwide is then presented to one of the four regional winners at the annual CTBUH Awards Symposium and Ceremony. Additionally, the Urban Habitat Award recognizes significant contributions to the urban realm, in connection with tall buildings. The 10 Year Award recognizes proven value and performance—across one or more of a wide range of criteria—after a building has been complete and in operation for a decade. The Innovation Award recognizes a specific area of recent innovation in the tall building industry that has been incorporated into the design of, or significantly tested in, the construction, operation, or refurbishment of a tall building project. The Performance Award recognizes a building with proven value and performance over a minimum of three years. The CTBUH also gives two annual Lifetime Achievement Awards to individuals who have made significant contributions to the design or technical advancement of tall buildings.

**toranomon hills business tower: Historical Dictionary of Tokyo** Roman Cybriwsky, 2011-02-18 Tokyo is Japan's largest city and its capital. It is also one of the largest cities in the world and a major center of global economic influence. The origins of human settlement in what is today Tokyo are lost in prehistory. The city started out quite modestly as a small castle town of Edo in 1457, then the center of the Tokugawa shogunate from 1603-1868, the rapidly modernizing and Westernizing capital of the nation during the Meiji Period (1868-1912), and the capital of a prosperous nation and growing empire thereafter. Tokyo was utterly devastated during World War II, but this was not the first time Tokyo had to start seemingly from new. Due to many fires and earthquakes, the city has constantly rebuilt itself and today it outdoes all its previous emanations by far. The second edition of the Historical Dictionary of Tokyo is a much-needed reference source on the city. This is done through a chronology, an introductory essay, an extensive bibliography, and over 600 cross-referenced dictionary entries on people, places, events, and other terminology about the city of Tokyo. This book is a must for anyone interested in Japan and Tokyo.

Whether you're planning to explore neighbourhoods such as Shinjuku, Ginza and Ueno in depth, or need fast-fix itineraries and Best of boxes that pick out the highlights you won't want to miss, The Rough Guide to Tokyo is your essential guide to the city. Make the most of your trip with The Rough Guide to Tokyo.

**toranomon hills business tower: Roppongi Crossing** Roman A. Cybriwsky, 2011 For most of the latter half of the twentieth century, Roppongi was an enormously popular nightclub district that stood out from the other pleasure quarters of Tokyo for its mix of international entertainment and people. It was where Japanese and foreigners went to meet and play. With the crash of Japan's

bubble economy in the 1990s, however, the neighborhood declined, and it now has a reputation as perhaps Tokyo's most dangerous district—a hotbed of illegal narcotics, prostitution, and other crimes. Its concentration of “bad foreigners,” many from China, Russia and Eastern Europe, West Africa, and Southeast Asia is thought to be the source of the trouble. Roman Adrian Cybriwsky examines how Roppongi's nighttime economy is now under siege by both heavy-handed police action and the conservative Japanese “construction state,” an alliance of large private builders and political interests with broad discretion to redevelop Tokyo. The construction state sees an opportunity to turn prime real estate into high-end residential and retail projects that will “clean up” the area and make Tokyo more competitive with Shanghai and other rising business centers in Asia. Roppongi Crossing is a revealing ethnography of what is arguably the most dynamic district in one of the world's most dynamic cities. Based on extensive fieldwork, it looks at the interplay between the neighborhood's nighttime rhythms; its emerging daytime economy of office towers and shopping malls; Japan's ongoing internationalization and changing ethnic mix; and Roppongi Hills and Tokyo Midtown, the massive new construction projects now looming over the old playground.

**toranomon hills business tower:** *Historical Dictionary of Postwar Japan* William D. Hoover, 2018-12-15 Japan is a mix of the old and the new, traditional and modern, and old fashion and innovative. It has traveled the road to a modern destination without totally losing sight of its traditions and values. Although some in Japan lament the passing of old ways, Japan has held on to a reasonable amount of its traditions and values. This is easier to find in its arts and crafts and its literature and films as well as in its social habits. This book will introduce the broad sweep of people, events, and trends, including the successes and failures, of postwar Japan. This second edition of *Historical Dictionary of Postwar Japan* contains a chronology, an introduction, appendixes, and an extensive bibliography. The dictionary section has over 500 cross-referenced entries on important personalities, politics, economy, foreign relations, religion, and culture. This book is an excellent resource for students, researchers, and anyone wanting to know more about Japan.
