top business class flights: *Dethroning the King* Julie MacIntosh, 2011-11-08 How the King of Beers collapsed without a fight and what it means for America's place in the post-Recession world How did InBev, a Belgian company controlled by Brazilians, take over one of America's most beloved brands with scarcely a whimper of opposition? Chalk it up to perfect timing—and some unexpected help from powerful members of the Busch dynasty, the very family that had run the company for more than a century. In *Dethroning the King*, Julie MacIntosh, the award-winning financial journalist who led coverage of the takeover for the Financial Times, details how the drama that unfolded at Anheuser-Busch in 2008 went largely unreported as the world tumbled into a global economic crisis second only to the Great Depression. Today, as the dust settles, questions are being asked about how the King of Beers was so easily captured by a foreign corporation, and whether the company's fall mirrors America's dwindling financial and political dominance as a nation. Discusses how the takeover of Anheuser-Busch will be seen as a defining moment in U.S. business history Reveals the critical missteps taken by the Busch family and the Anheuser-Busch board Argues that Anheuser-Busch had a chance to save itself from InBev's clutches, but infighting and dysfunctionality behind the scenes forced it to capitulate From America's heartland to the European continent to Brazil, *Dethroning the King* is the ultimate corporate caper and a fascinating case study that's both wide reaching and profound.

top business class flights: *Cases in the Environment of Business* David W. Conklin, 2006 The Ivey Casebooks Series is a co-publishing partnership between SAGE Publications and the Richard Ivey School of Business at The University of Western Ontario. Due to their popularity in more than 60 countries, approximately 200 new cases are added to the Ivey School of Business library each year. Each of the casebooks comes equipped with instructor's resources on CD-ROM. These affordable collections will not only help students connect to real-world situations, but will benefit corporations seeking continued education in the field as well. Broadening the scope of

Cases in the Environment of Business offers an outstanding collection of relevant, classroom-tested cases. In discussing the cases, students will participate in managerial decisions in an international context. Most cases deal with a variety of environmental forces, but generally a single set of forces plays a predominant role. The instructor's resources on CD-ROM includes detailed 6-10 page casenotes for each case, preparation questions for students to review before class, discussion questions, and suggested further readings. Cases in the Environment of Business addresses the following five sets of environmental forces: Industry Structure Responses to strategies of customers, suppliers, and competitors, ; dependence of profitability on unique value-added attributes and the shift of certain activities to low-wage countries Macroeconomic Variables Income levels and growth rates, foreign exchange rates, inflation rates, interest rates, and unemployment rates Political Variables Regulations, financial incentives, taxation, foreign investment restrictions, and international trade and investment agreements Societal Variables Labor and environmental practices, ethics, corporate social responsibility, boards of directors, and demographics Technological Variables Technological infrastructure and the pace and direction of technological changes, including, in particular, the Internet and e-business.
