verizon business phone call forwarding: CIOs at Work Ed Yourdon, 2011-10-18 In CIOs at Work, noted author Ed Yourdon interviews many of the world's most influential chief information officers. You will gain insights from the first CIO of the USA, take a peek into the future with the CIO at Google, learn the unique role IT plays in testing Microsoft applications, and much more. Yourdon focuses on how his interviewees tackle the day-to-day work of managing information in their organizations while revealing much more: How they got there, how they manage and allocate resources, and how they interact with business units and assure that their companies take advantage of technologies and automation to make employees even more productive. The technical expertise of his extraordinary interviewees and their personal insights into the changing role of technology in business are in no short supply. But, what really stands out—beyond the banter about clouds, agile development,—is the human dimension. More than anything else, the CIO is wrestling with profound issues: the proliferation of choices, the speed of change, the shorter attention spans of consumers, the everyone's an expert mindset, and the growing expectation for limitless and low cost computing resources that are as open and accessible as they are safe, secure and accurate. At last, the CIO has a human face, but also an enormous burden that can only be appreciated by reading Yourdon's probative interviews. —Jon Toigo, Managing Principle, Toigo Partners International Featured CIOs: Ben Fried, Google Tony Scott, Microsoft Monte Ford, American Airlines Mittu Sridhara, Ladbroke's Steve Rubinow, NYSE Lew Temares (retired), University of Miami Mark Mooney, McGraw-Hill Dan Wakeman, Educational Testing Services Lynne Ellen, Detroit Energy Becky Blalock, Southern Company Ken Bohlen, Arizona Public Services Roger Gurnani, Verizon Ashish Gupta, British Telecom Joan Miller, U.K. Parliament Vivek Kundra, (first CIO), U.S. Government Paul Strassmann, (retired), Kraft Foods Other books in the Apress At Work Series: CTOs at Work, Donaldson, Seigel, & Donaldson, 978-1-4302-3593-4 Coders at Work, Seibel, 978-1-4302-1948-4 Venture Capitalists at Work, Shah & Shah, 978-1-4302-3837-9 Founders at Work, Livingston, 978-1-4302-1078-8 European Founders at Work, Santos, 978-1-4302-3906-2 Women Leaders at Work, Ghaffari, 978-1-4302-3729-7 Advertisers at Work, Tuten, 978-1-4302-3828-7 Gamers at Work, Ramsay. 978-1-4302-3351-0

verizon business phone call forwarding: The Prison Industry Bianca Tylek, Worth Rises,, 2025-05-06 A meticulous exposé of who profits from incarceration, culminating in a compelling case for abolition Based on years of research by the criminal justice organization Worth Rises—best known for campaigns that have revolutionized prison telecom and made prison and jail communication free in cities and states around the country—The Prison Industry maps the range of ways in which private corporations, often with their government partners, make money off incarceration. It further details the gross extraction of wealth from incarcerated people and their families, who have been brutalized by overpolicing and mass surveillance. Chapters on labor, telecom, healthcare, community corrections, and more explore the origin story of privatization for each sector and how much money is in it for the corporations involved. Stretching far beyond private prisons to look at all the sectors that benefit from incarceration, the authors illuminate the methods used to extract resources from public coffers and communities, which corporations are most active and how they partner with governments, and the harms these profit-based approaches to justice cause people, families, and communities. Ultimately, The Prison Industry makes a compelling case for dismantling the prison industry and prison abolition more broadly. It serves as a tool for the tearing down of our wholly oppressive carceral system—the ashes of which we can use to create a better world built on care, not cages.
