vlkt business: Breakthrough Business Results With MVT Charles W. Holland, 2005-04-01

The first and only guide to using MVT as a breakthrough management tool MVT(TM) (Multivariable Testing) has been heralded as a breakthrough business tool in major publications such as Forbes, the Wall Street Journal, The Economist, and Business-Week. Although MVT could become one of the most widely used management tools and has been applied by leading companies in every industry to create billions of dollars of value-no book on it has been published, until now. In Breakthrough Business Results with MVT, MVT creator and guru Charles Holland shows managers how multivariable testing-an advanced mathematical method that allows simultaneous testing of up to 40 variables-can dramatically improve efficiency and profits in any organization. MVT reveals to managers precisely which factors have a positive impact on any important business decision or process, which have a negative impact, and which have no impact at all. Very often the results are radically counterintuitive. MVT identifies quickly the best ways for a company to make major improvements, such as boosting sales, reducing waste, increasing production, enhancing advertising strategies, or optimizing service levels. Faster and cheaper than other quality improvement methodologies such as Six Sigma, MVT is a natural tool for any organization that wants to reduce the amount of guesswork and politics when making crucial business decisions. In Breakthrough Business Results with MVT, Holland reveals the dramatic benefits that have made true believers of top executives in such companies as Lowe's, Ameritech, Williams-Sonoma, DuPont, Pacific Bell, and Boise, among others. Charles Holland, PhD (Knoxville, TN), is principal and founder of QualPro, Inc., the leading MVT consultancy in the world. QualPro's work has been celebrated in most major business publications, and they have consulted to senior executives at many Fortune 500 companies. QualPro regularly conducts seminars on MVT, and their work has been widely publicized. *MVT is a trademark of QualPro, Inc.

vlkt business: Looptail Bruce Poon Tip, 2013-09-17 This book combines an extraordinary first-person account of an entrepreneurial instinct to start and develop a highly-successful international travel adventure company and reveals unusual management secrets that not only keep employees fully engaged but also keep customers extremely happy. After being fired from McDonald's as a teenager, Poon Tip decided that if he wanted to be successful in life, he would need to be self employed. To do that, he started G Adventures in 1990 with financing based upon his maxed-out credit cards. But the results were startling: people loved going on vacations to exotic spots around the world where they dealt with adventure and action. G Adventures is not for the faint of heart - it's for people who want to get away AND have memories to cherish for a lifetime. What makes G Adventures so successful? Poon Tip has created an entirely new and refreshing approach to management, which is related in LOOPTAIL. In his company, there's no CEO - but there is a company Mayor. There is no HR dept - but there is a Talent Agency and a company Culture Club. Poon Tip even offers any employee a check for \$5,000 if he or she can actually hurt his feelings with less than positive feedback about the company and how it's being run. So far, nobody has claimed the prize.
