united polaris business class: *Talking about Food* Sofia Rüdiger, Susanne Mühleisen, 2020-06-15 All humans eat and all humans speak – activities which in social life often, but not always, co-occur: We talk while eating and drinking with others, but food is also a prominent literal and metaphorical discursive topic which contributes to establishing communities and identities. This omnipresence of eating and drinking in our daily lives has led to a public fascination with foodways. The contributions in this edited collection investigate the connection between language and food from a variety of perspectives. As food discourses operate on local, global, and mediated levels, they

Talking about Food – The Social and the Global in Eating Communities provides up-to-date and thought-provoking contributions to the linguistics of food. The book is essential reading for anyone interested in food-related subjects.

united polaris business class: The Transformation of John Gruneburg Robert H. Laudeman, 2021-10-20 The Transformation of John Gruneburg is a suspense novel whose theme is the timeless struggle of good over evil. This fictional narrative focuses on an exceptional Naval Officer whose devotion to duty, honor, and country entangles him in rogue missions tied to a top secret CIA covert operation. Always loyal to the chain of command, he perseveres to complete each mission, being told that he is saving American lives. Psychologically broken, his sense of right versus wrong is overshadowed by his dedication to duty. The main character, John Gruneburg, struggles to escape from memories of his past. He becomes his own defender and prosecutor, knowing his past actions were wrong, while trying to justify why he did not have the moral strength to reject the orders that were imposed upon him. Reoccurring nightmares associated with his violent past lead to John's treatment for post-traumatic stress disorder (PTSD). In book 3 of the series, The Transformation of John Gruneburg describes the accomplishments that lead to unmeasured pride for John and his family, experiencing the privilege to serve one's country while doing something that he enjoyed. Yet John has his moments when he contemplates the depth of his inner fears. Is he concerned that his reputation would be destroyed if his past was revealed, and he was identified as an assassin? Are his reoccurring nightmares associated with his violent past? Are the memories of past missions surfacing feelings of regret for what he had done? Or are his nightmares tied to his fear that his past will be exposed? What did he fear the most? Each time he went through the agony of introspective analysis, self-examining his own conscience, he ended with the same conclusion. It all came down to the fact that he must continue to conceal his past. His involvement with the CIA must remain hidden. Recognizing the government's investment in John's education and training, influential colleagues come to his aid. John struggles to suppress memories of the life he led as a CIA assassin, but in the end, a transformed Lieutenant Commander John Gruneburg rises from the ashes of his past. Robert H. Laudeman is a retired federal employee with years of experience creating technical documents and reports in both industry and government. He began writing as a leisure activity and has enjoyed authoring The Transformation of John Gruneburg, his third venture into fiction. The Transformation of John Gruneburg is the final work of a three-part series, which begins with The Liberation of John Gruneburg and followed with The Transition of John Gruneburg.

united polaris business class: Quarantine! Gay Courter, 2020-11-10 What happens when you find yourself at the epicenter of a global crisis over a contagious new virus? Bestselling writer Gay Courter and her filmmaker husband learned the answer to that question in early February 2020, just as they were about to disembark from the Diamond Princess in Tokyo after a dazzling two-week southeast Asian cruise. Weeks before lockdowns and social distancing became the new normal, the Courters and their shipmates suddenly found themselves trapped in a posh penitentiary—courtesy of the Japanese Ministry of Health. Confined to their cabin and its balcony, they watched in terror as more and more sick and contagious passengers were loaded into ambulances and the world's press swarmed the port. Rather than passively endure their nightmare-come-true, they launched a campaign to get themselves and everyone else off the ship. With the help of the global media and some well-placed connections, they managed to influence high-ranking U.S. government officials—right up to and including the White House—to bring everyone home to safety. Quarantine! is the insider's book on the Diamond Princess episode, a suspenseful real-life drama recounting Gay and Phil's twelve-day ordeal aboard ship, their tenacious efforts to get the U.S. government to repatriate them and other Americans, and their additional fifteen-day quarantine under federal order behind chain-link fencing at the pointedly less-than-posh Lackland Air Force Base in Texas. The COVID-19 crisis has affected the entire world. In her inimitable, long-admired voice, Gay Courter tells how it feels to wonder if you will be the next victim. See quarantinediamondprincess.com for

updates about the book and Phil Courter's forthcoming documentary, Quarantine! How We Survived the Diamond Princess Coronavirus Crisis.
