white business man: Who Killed the Black Businessman? Richard Bryant, 2022-01-14 This book is about a young man coming to age back in the sixties, when Black men wore Afros and dashikis. We have just realized how important allies really were, no more mopping floors and working in the auto factories. We were going to be business owners, and no one could imagine what was in store for us—the burning down of my brother’s nightclub, a fight for my life, and my mother hanging on for dear life as my brother’s nightclub went up in flames. The opening of my photo lab was the biggest photo finishing plant the Kodak I’ve ever seen; that was owned by a Black man, hundreds of accounts from Los Angeles to Beverly Hills, but the robbers didn’t care. The police could not protect me; my employee respects life, going to work every day. This was the fight of my life; could you imagine coming to work finding your mother beat down in the store? I had to defend myself and my employees; it was a tale. Was it worth it? The dead bodies in the alley, my wife having no idea of what I was going through every day. My kids did not care; they only saw that I was never there. Get the insight of what it meant to be a Black business owner in the sixties. Everyone talked about a Black business owner getting a free ride with business loans from the SBA, but they never knew the truth. I still wake up at night in cold sweats, thinking about what I have been through. Was it all worth it?

white business man: *Hubert Harrison* Jeffrey Babcock Perry, 2009 This first full-length biography of Harrison offers a portrait of a man ahead of his time in synthesizing race and class struggles in the U.S. and a leading influence on better known activists from Marcus Garvey to A. Philip Randolph. Harrison emigrated from St. Croix in 1883 and went on to become a foremost organizer for the Socialist Party in New York, the editor of the *Negro World*, and founder and leader of the World War I-era New Negro movement. Harrison’s enormous political and intellectual appetites were channeled into his work as an orator, writer, political activist, and critic. He was an avid bibliophile, reportedly the first regular black book reviewer, who helped to develop the public library in Harlem into an international center for research on black culture. But Harrison was a freelancer so candid in his criticism of the establishment-black and white-that he had few allies or people interested in protecting his legacy. Historian Perry’s detailed research brings to life a transformative figure who has been little recognized for his contributions to progressive race and class politics. white business man: The New Negro Henry Louis Gates Jr., Gene Andrew Jarrett, 2021-06-08 When African American intellectuals announced the birth of the New Negro around the turn of the twentieth century, they were attempting through a bold act of renaming to change the way blacks were depicted and perceived in America. By challenging stereotypes of the Old Negro, and declaring that the New Negro was capable of high achievement, black writers tried to revolutionize how whites viewed blacks--and how blacks viewed themselves. Nothing less than a strategy to re-create the public face of the race, the New Negro became a dominant figure of racial uplift between Reconstruction and World War II, as well as a central idea of the Harlem, or New Negro, Renaissance. Edited by Henry Louis Gates, Jr., and Gene Andrew Jarrett, *The New Negro* collects more than one hundred canonical and lesser-known essays published between 1892 and 1938 that examine the issues of race and representation in African American culture. These readings--by writers including W.E.B. Du Bois, Paul Laurence Dunbar, Alain Locke, Carl Van Vechten, Zora Neale Hurston, and Richard Wright--discuss the trope of the New Negro, and the milieu in which this figure existed, from almost every conceivable angle. Political essays are joined by essays on African American fiction, poetry, drama, music, painting, and sculpture. More than fascinating historical documents, these essays remain essential to the way African American identity and history are still understood today.

white business man: Black Titan Carol Jenkins, Elizabeth Gardner Hines, 2005-01-25 The grandson of slaves, born into poverty in 1892 in the Deep South, A. G. Gaston died more than a

century later with a fortune worth well over \$130 million and a business empire spanning communications, real estate, and insurance. Gaston was, by any measure, a heroic figure whose wealth and influence bore comparison to J. P. Morgan and Andrew Carnegie. Here, for the first time, is the story of the life of this extraordinary pioneer, told by his niece and grandniece, the award-winning television journalist Carol Jenkins and her daughter Elizabeth Gardner Hines. Born at a time when the bitter legacy of slavery and Reconstruction still poisoned the lives of black Americans, Gaston was determined to make a difference for himself and his people. His first job, after serving in the celebrated all-black regiment during World War I, bound him to the near-slavery of an Alabama coal mine—but even here Gaston saw not only hope but opportunity. He launched a business selling lunches to fellow miners, soon established a rudimentary bank—and from then on there was no stopping him. A kind of black Horatio Alger, Gaston let a single, powerful question be his guide: What do our people need now? His success flowed from an uncanny genius for knowing the answer. Combining rich family lore with a deep knowledge of American social and economic history, Carol Jenkins and Elizabeth Hines unfold Gaston's success story against the backdrop of a century of crushing racial hatred and bigotry. Gaston not only survived the hardships of being black during the Depression, he flourished, and by the 1950s he was ruling a Birmingham-based business empire. When the movement for civil rights swept through the South in the late 1950s and early 1960s, Gaston provided critical financial support to many activists. At the time of his death in 1996, A. G. Gaston was one of the wealthiest black men in America, if not the wealthiest. But his legacy extended far beyond the monetary. He was a man who had proved it was possible to overcome staggering odds and make a place for himself as a leader, a captain of industry, and a far-sighted philanthropist. Writing with grace and power, Jenkins and Hines bring their distinguished ancestor fully to life in the pages of this book. *Black Titan* is the story of a man who created his own future—and in the process, blazed a future for all black businesspeople in America.

white business man: Broken Branch Anne W. Mhorelund, 2014-07-21 The year was 1939 when a small community near Augusta, Georgia first heard TC utter the riveting phrase, Keep your elbows resting on the needle. TC, a lumberjack and a rich timber baron made a pack. They had stepped across each others shadows since young boys one being of enormous wealth the other having a perfect aim and strength for felling 60 pines and cypress trees. Amidst civil strife, TC convinced a small contingency of friends to follow him deep into the forest across the rugged Acorn Trail to grow their own dreams. On an early morning in May 1945 ten covered wagons had reached the Acorn trail. Having been separated by politics, religion, race and the volatile mixture of love and revenge, few could ever return as the road home was splattered with the blood and ill deeds many had left behind. Forty-five years later, they would take an accounting. Some would call them cowards who high-tailed it. They would offer to drain two manmade lakes slowly. There was Meeliah, an island girl left along while Clay Albert tended to the lives of a rich Philadelphia family and she knew how to bake a pineapple sweet potato pie that could arouse and her jungle sting was severe. Her punishment would be unending; Clay Albert was determined to break her. One day they could not coax her out of the lake. One Sunday three brides-to-be would go off in a huff looking for adventure, a thing called hatching. They came upon a black family. Their intent was to enjoy some freshly churned ice cream and place ribbons in the pretty little girls hair. But three days later, one of the teenage boys would be bludgeoned to death. Was it something they did, said, or wrote? Would Barbara Lynn, a bride-to-be, get to live in the cottage behind the plantation house where slave graves were recently discovered? Did Tim really love her or was he after her blood line. Hed proclaimed, There are no brown spots about me; I am White from tick to tock and my eyes Really? While one community dismantled and escaped into the forest, another one a state away vowed to leave a forest in Dorchester County, South Carolina, beat their tools into cleats and create the greatest civilization of modern times one that would one day leave the gravity of the earth and float among the stars. They had promised their mother a homeland. But first they would tenderly assault unjust social and political structures. Some pressed into their minds that it would take 100 years, but more than one retorted, Were going to do it in one generation. The year is 2012 and counting to

2033 from 1933; a 100 years. Although Thelma claimed to be the mother of more children than any woman known hardly six could be counted at any one time; they having gone on to the other side she said. Shed referred to them as her glories, her carrots. Were they fathom? With little to go on but the suspicious tone of a business attorney and some missing birth certificates, the author recreates this lost civilization in, *The Dark Circle The Search for the lost children of the Mud*. The tenderness and love between Miles and Thelma Dunston are captured as the, *The Slave Girl and the Jew*. Five overlapping stories tell of their courage and toils of rebirth of these families and the triumph of the human spirit.

white business man: *The Page Fence Giants* Mitch Lutzke, 2018-05-04 *The Page Fence Giants*, an all-star black baseball club sponsored by a woven-wire fence company in Adrian, Michigan, graced the diamond in the 1890s. Formed through a partnership between black and white boosters, the team's respectable four-year run was an early integration success--before integration was phased out decades ahead of Jackie Robinson's 1947 debut, and the growing Jim Crow sentiment blocked the Page Fence Giant's best talent from the major leagues. This book tells the the story of a long-ignored team at the close of the 19th century, whose Hall of Famer second baseman Sol White was but one of their best players.

white business man: *White Women, Black Men* Martha Hodes, 2014-07-01 This book is the

first to explore the history of a powerful category of illicit sex in America's past: liaisons between Southern white women and black men. Martha Hodes tells a series of stories about such liaisons in the years before the Civil War, explores the complex ways in which white Southerners tolerated them in the slave South, and shows how and why these responses changed with emancipation. Hodes provides details of the wedding of a white servant-woman and a slave man in 1681, an antebellum rape accusation that uncovered a relationship between an unmarried white woman and a slave, and a divorce plea from a white farmer based on an adulterous affair between his wife and a neighborhood slave. Drawing on sources that include courtroom testimony, legislative petitions, pardon pleas, and congressional testimony, she presents the voices of the authorities, eyewitnesses, and the transgressors themselves—and these voices seem to say that in the slave South, whites were not overwhelmingly concerned about such liaisons, beyond the racial and legal status of the children that were produced. Only with the advent of black freedom did the issue move beyond neighborhood dramas and into the arena of politics, becoming a much more serious taboo than it had ever been before. Hodes gives vivid examples of the violence that followed the upheaval of war, when black men and white women were targeted by the Ku Klux Klan and unprecedented white rage and terrorism against such liaisons began to erupt. An era of terror and lynchings was inaugurated, and the legacy of these sexual politics lingered well into the twentieth century.
