best online calculus help: *The Homeschooling Parent Teaches MATH!* Kerridwen Mangala McNamara, 2023-11-10 We all worry about our kids learning math. Even if the kids are in school, there's always a concern. Sometimes it's about the kid's concern... sometimes it's about their teacher's concern (parent-teacher or otherwise). But a lot of the time it's about US. This book is here to help you deal with your own math-phobias and come to – if not outright enjoy math, to at least appreciate it and be able to convey it to your kids without passing on the fear. Kerridwen Mangala McNamara is NOT a 'math-lover' but she is a math-appreciator and has worked through most of these issues herself. Let her help you along your homeschooling journey and show you how to fight the Fear-of-Math monster so that it no longer intimidates you – or your kids!
